## **Good Place Guide Urban Design In Britain And Ireland:**

The Good Place Guide John Billingham,2002 What makes a space be it a city neighborhood park square beach or market comfortable for people to use and visit Just look through these beautiful color photographs of 150 splendidly designed places and see Each one has been created or significantly altered over the last 50 years The Waterfront in Cardiff Wales the Barbican at Plymouth Concert Square in Liverpool these and many other places provide eye opening examples of fine design and planning for anyone concerned with urban spaces as well as those of us who must live in them *Urban Design Futures* Malcolm Moor,Jon Rowland,2006-09-27 The last decade has seen the rise of urban design which has taken a central position in the new agendas for urban regeneration and renaissance Urban design has moved from marginality to mainstream The principles espoused by urban designers over the past thirty years are now accepted as key to a better urban environment and as we move towards greater sustainability different ideas are emerging that are challenging some of the accepted urban design norms urban design is at a watershed Urban Design Futures presents essays from an international cast of authors to review progress and explore emerging ideas should urban design reflect the future rather than recreate the past What are the new driving forces that will shape urban living and hence urban design in the future This book explores new concepts and points the way towards a series of urban design paradigms for the twenty first century *Urban Design* Jon Lang,2006-08-11 Urban Design provides a comprehensive and accessible introduction to urban design presenting a 3 dimensional model with which to categorise the processes and products involved It not only defines the subject but also considers the future direction of the field and what can be learned from the past 50 international case studies demonstrate the variety of urban design efforts that have occurred in recent history **Convivial Urban Spaces** Henry Shaftoe,2012-05-04 Despite developments in urban design during the last few decades architects urban planners and designers often continue to produce areas of bland commercially led urban fabric that deliver the basic functional requirements of shelter work and leisure but are socially unsustainable and likely generators of future problems Convivial Urban Spaces demonstrates that successful urban public spaces are an essential part of a sustainable built environment Without them we are likely to drift into an increasingly private and polarized society with all the problems that would imply Taking a multidisciplinary approach this book draws on research and the literature and theory of environmental psychology and urban design to advance our understanding of what makes effective public spaces Practical guidance is illustrated with case studies from the UK Spain Germany and Italy The result is a practical and clearly presented guide to urban public space for planners architects and students of the urban environment *Town & Country Planning* ,2003 *Town and Country Planning in the UK* J. B. Cullingworth,Vincent Nadin,2002 Town and Country Planning in the UK has become the bible of British planning It provides an explanation of the nature of planning the institutions and organisations involved the plans and other tools used by planners planning policies and more Town and Country Planning in the UK Barry

Cullingworth, Vincent Nadin, 2003-09-02 Town and Country Planning in the UK has become the Bible of British planning In this new edition detailed consideration is given to the nature of planning and its historical evolution central and local government the EU and other agencies the framework of plans and other instruments development control land policy and planning gain environmental and countryside planning sustainable development waste and pollution heritage and transport planning urban policies and regeneration This twelfth edition has been completely revised and expanded to cover the whole of the UK The new edition explains more fully the planning policies and actions of the European Union and takes into account the implications of local government reorganization the plan led system and the growing interest in promoting sustainable development

**The Housing Design Handbook** David Levitt, 2012-12-06 How well have architects succeeded in building housing and what lessons can be learned from their triumphs and failures The Housing Design Handbook will give you a complete understanding of what makes successful housing design Through the analysis of work by Levitt Bernstein and a wide range of other UK practices it illustrates good design principles and accumulates a wealth of knowledge in a readily accessible format for the first time Written by a recognised authority in the field the book provides a range of cases to illustrate the way that different issues in the design of housing have been approached and with what degree of success a review of the place of housing as the most significant built form in the urban landscape an understanding of the importance of achieving a sense of place as the bedrock of social continuity a discussion of how flexibility might be achieved in order to accommodate future changes in housing need if wholesale demolition and replacement is to be avoided more recent examples which explore why certain social groupings are more resistant to design innovation than others and why there has been such an architectural breakthrough in market led higher density urban living David Levitt examines the ideas behind the schemes and assesses how successful and sustainable those ideas have proved making this an essential reference for professionals and students practicing and studying the design and commissioning of housing *The British National Bibliography* Arthur James Wells, 2005

**Norway** Ingerid Helsing Almaas, 2002 Around 100 projects have been chosen to represent an architectural tradition of great quality and innovation in Norway The projects described are predominantly the work of young architects working within a context of prosperity and relatively cheap and plentiful land *Architecture, Space and Memory of Resurrection in Northern Ireland* Mohamed Gamal Abdelmonem, Gehan Selim, 2019-04-25 Northern Ireland has a complex urbanism with multilayered socio spatial politics In this environment issues of communication self representation and expression of identity are central to the experience of urban space and architecture where the dichotomy of division and shared living are spatially exercised in everyday life Unlike other studies in the area this book focuses on the everyday experiences of local communities in both public and private spheres issues of shareness challenging conventional approaches to divided cities The book aims to layer its narratives of architectural and social developments as an urban experience in post conflict settings over the past two decades

**Urban Design in the Real Estate Development Process**

Steve Tiesdell, David Adams, 2011-04-08 Urban design enables better places to be created for people and is thus seen in Urban Design in the Real Estate Development Process as a place making activity rather than the application of architectural aesthetics Urban design policy can change the decision environment of developers financiers designers and other actors in the real estate development process to make them take place making more seriously This book reports diverse international experience from Europe and North America on the role and significance of urban design in the real estate development process and explores how higher quality development and better places can be achieved through public policy The book is focused on four types of policy tool or instrument that have been deployed to promote better urban design those that seek to shape regulate or provide stimulus to real estate markets along with those aim to build capacity to achieve these Urban design is therefore seen as a form of public policy that seeks to steer real estate development towards policy shaped rather than market led outcomes The editors set the examples case studies and evidence from international contributors within a substantive discussion of the impact of urban design policy tools and actions in specific development contexts Contributions from leading urban design theorists and practitioners explore how Masterplanning and infrastructure provision encourage high quality design Design codes reconcile developers needs for certainty and flexibility Clear policy combined with firm regulation can transform developer behaviour Intelligent parcelisation can craft the character of successful new urban districts Powerful real estates interests can capture regulatory initiatives Stimulus instruments can encourage good design Development competitions need careful management Design review can foster developer commitment to design excellence Speculative housebuilders respond in varied ways to the brownfield design challenge Physical financial models could help in assessing the benefits of design investment Urban design can add value to the benefit of developers and cities as a whole

**The Architects' Journal** ,2003      **Urban forests: a global perspective** Borelli, S., Conigliaro, M., Di Cagno, F., 2023-10-16 Urban forestry is not a one size fits all solution each city and region with its own unique set of challenges and opportunities requires tailored strategies In recognition of the diversity and distinctiveness of urban forestry issues and their potential for mitigating environmental and socioeconomic inequality across the globe FAO has asked experts around the world to share their views on how urban forests and trees are perceived and managed in their respective geographical areas bringing together a broad range of regional perspectives The primary goal of this publication is to provide a comprehensive overview of the current state of urban forestry worldwide By showcasing the regional perspectives insights experiences and case studies in urban and peri urban forestry UPF we hope to inspire individuals communities and policymakers to reimagine their relationships with urban green spaces      [Race, Faith and Planning in Britain](#) Richard Gale, Huw Thomas, 2020-09-21 Race Faith and Planning in Britain adopts a Critical Race Theory perspective to analyse and discuss challenges of planning in contemporary multi ethnic Britain Exploring how planning is affected by and affects the racialisation of social relations this book charts the history of the UK planning system s approach in terms of the spatial consequences of immigration and

discourses of diversity cohesion citizenship and belonging Authors Richard Gale and Huw Thomas pay special attention to the experiences of minority groups in Britain including Gypsies and Travellers and British Muslims They underline that the struggle over planning in racialised societies must be construed as part of a wider political struggle over equality This book is an essential read for students and practitioners of planning in multi cultural contexts **Trees in Towns and Cities** Mark Johnston,2015-08-31

This is the first book on the history of trees in Britain s towns and cities and the people who have planted and cared for them It is a highly readable and authoritative account of the trees in our urban landscapes from the Romans to the present day including public parks private gardens streets cemeteries and many other open spaces It charts how our appreciation of urban trees and woodland has evolved into our modern understanding of the many environmental economic and social benefits of our urban forests A description is also given of the various threats to these trees over the centuries such as pollution damage during the Industrial Revolution and the recent ravages of Dutch elm disease Central and local government initiatives are examined together with the contribution of civic and amenity societies However this historical account is not just a catalogue of significant events but gives a deeper analysis by exploring fundamental issues such as who owned those treed landscapes why they were created and who had access to them The book concludes with the fascinating story of how trees have contributed to efforts to improve urban conditions through various visions of urban green such as the model villages garden cities garden suburbs and the new towns Studies in garden and landscape history have often been preoccupied with those belonging to the rich and powerful This book focuses particularly on working people and the extent to which they have been able to enjoy urban trees and greenspace It will appeal to a general readership especially those with an interest in garden history heritage landscapes and the natural and built environment Its meticulous referencing will also ensure it is much appreciated by students and academics pursuing further reading and research It is written by an internationally renowned arboriculturist who combines a passion for trees with a sound understanding of British social and cultural history **The Value of Housing Design and Layout** Great Britain. Commission for Architecture and the Built Environment,2003

National opinion surveys consistently show that a significant section of the house buying public would never consider purchasing a new house preferring more established neighbourhoods and building stock House builders must therefore look to offer more attractive designs Innovative thinking integration with existing communities and investment in quality are the key elements that will persuade people that they want to live in modern housing **Urban Design and the British Urban Renaissance** John Punter,2009-10

An insightful exploration of the strengths weaknesses and implications of New Labour s urban renaissance agenda experts in urban design and planning critically review the development and application of the strategy in Britain s largest cities People Making Places Robert Powell,2004 Approaches to Water Sensitive Urban Design Ashok Sharma,Ted Gardner,Don Begbie,2018-10-03
