Journalism's Roving Eye John Maxwell Hamilton, 2011-08-15 In all of journalism nowhere are the stakes higher than in foreign news gathering For media owners it is the most difficult type of reporting to finance for editors the hardest to oversee Correspondents roaming large swaths of the planet must acquire expertise that home based reporters take for granted facility with the local language for instance or an understanding of local cultures Adding further to the challenges they must put news of the world in context for an audience with little experience and often limited interest in foreign affairs a task made all the more daunting because of the consequence to national security In *Journalism's Roving Eye* John Maxwell Hamilton a historian and former foreign correspondent provides a sweeping and definitive history of American foreign news reporting from its inception to the present day and chronicles the economic and technological advances that have influenced overseas coverage as well as the cavalcade of colorful personalities who shaped readers perceptions of the world across two centuries From the colonial era when newspaper printers hustled down to wharfs to collect mail and periodicals from incoming ships to the ongoing multimedia press coverage of the Iraq War Hamilton explores journalism's constant and not always successful efforts at dishing the foreign news as James Gordon Bennett put it in the mid nineteenth century to describe his approach in the New York Herald He details the highly partisan coverage of the French Revolution the early emergence of special correspondents and the challenges of organizing their efforts the profound impact of the non yellow press in the run up to the Spanish American War the increasingly sophisticated machinery of propaganda and censorship that surfaced during World War I and the golden age of foreign correspondence during the interwar period when outlets for foreign news swelled and a large number of experienced independent journalists circled the globe From the Nazis intimidation of reporters to the ways in which American popular opinion shaped coverage of Communist revolution and the Vietnam War Hamilton covers every aspect of delivering foreign news to American doorsteps Along the way Hamilton singles out a fascinating cast of characters among them Victor Lawson the overlooked proprietor of the Chicago Daily News who pioneered the concept of a foreign

news service geared to American interests Henry Morton Stanley one of the first reporters to generate news on his own with his 1871 expedition to East Africa to find Livingstone and Jack Belden a forgotten brooding figure who exemplified the best in combat reporting Hamilton details the experiences of correspondents editors owners publishers and network executives as well as the political leaders who made the news and the technicians who invented ways to transmit it Their stories bring the narrative to life in arresting detail and make this an indispensable book for anyone wanting to understand the evolution of foreign news gathering Amid the steep drop in the number of correspondents stationed abroad and the recent decline of the newspaper industry many fear that foreign reporting will soon no longer exist But as Hamilton shows in this magisterial work traditional correspondence survives alongside a new type of reporting Journalism's Roving Eye offers a keen understanding of the vicissitudes in foreign news an understanding imperative to better seeing what lies ahead *This Time We Win* James Robbins, 2012-10-16 Most of what Americans have heard about the Tet Offensive is wrong The brief battles in early 1968 during the Vietnam conflict marked the dividing line between gradual progress toward possible victory and slow descent to a humiliating defeat That the enemy was handily defeated on the ground was considered immaterial that it could mount attacks at all was deemed a military triumph for the Communists This persistent view of Tet is a defeatist story line that continues to inspire America's foreign enemies and its domestic critics of the use of force abroad In *This Time We Win* James S Robbins at last provides an antidote to the flawed Tet mythology still shaping the perceptions of American military conflicts against unconventional enemies and haunting our troops in combat In his re-examination of the Tet Offensive Robbins analyzes the Tet battles and their impact through the themes of terrorism war crimes intelligence failure troop surges leadership breakdown and media bias The result is an explosion of the conventional wisdom about this infamous surge one that offers real lessons for today's unconventional wars Without a clear understanding of these lessons we will find ourselves refighting the Tet Offensive again and again **The Times They Were a-Changin'** Robert S McElvaine, 2022-06-07 An award winning historian on the transformative year in the sixties that continues to reverberate in our lives and politics for readers of Heather Cox Richardson If 1968 marked a turning point in a pivotal decade 1964 or rather the long 1964 from JFK's assassination in November 1963 to mid 1965 was the time when the sixties truly arrived It was then that the United States began a radical shift toward a much more inclusive definition of American with a greater degree of equality and a government actively involved in social and economic improvement It was a radical shift accompanied by a cultural revolution The same month Bob Dylan released his iconic ballad *The Times They Are a-Changin'* January 1964 President Lyndon Johnson announced his War on Poverty Spurred by the civil rights movement and a generation pushing for change the Civil Rights Act the Voting Rights Act and the Immigration and Nationality Act were passed during this period This was a time of competing definitions of freedom Freedom from racism freedom from poverty White youth sought freedoms they associated with black culture captured imperfectly in the phrase sex drugs and rock n roll Along with freedom from racist oppression black

Americans sought the opportunities associated with the white middle class white freedom Women challenged rigid gender roles And in response to these freedoms the changing mores and youth culture the contrary impulse found political expression in such figures as Barry Goldwater and Ronald Reagan proponents of what was presented as freedom from government interference Meanwhile a nonevent in the Tonkin Gulf would accelerate the nation s plunge into the Vietnam tragedy In narrating 1964 s moment of reckoning when American identity began to be reimagined McElvaine ties those past battles to their legacy today Throughout he captures the changing consciousness of the period through its vibrant music film literature and personalities

From Coveralls to Zoot Suits Elizabeth R. Escobedo, 2013-03-21 During World War II unprecedented employment avenues opened up for women and minorities in U S defense industries at the same time that massive population shifts and the war challenged Americans to rethink notions of race At this extraordinary historical moment Mexican American women found new means to exercise control over their lives in the home workplace and nation In *From Coveralls to Zoot Suits* Elizabeth R Escobedo explores how as war workers and volunteers dance hostesses and zoot suiters respectable young ladies and rebellious daughters these young women used wartime conditions to serve the United States in its time of need and to pursue their own desires But even after the war as Escobedo shows Mexican American women had to continue challenging workplace inequities and confronting family and communal resistance to their broadening public presence Highlighting seldom heard voices of the Greatest Generation Escobedo examines these contradictions within Mexican families and their communities exploring the impact of youth culture outside employment and family relations on the lives of women whose home front experiences and everyday life choices would fundamentally alter the history of a generation
