service world you'll never view your call center encounters in quite the same way. Since customer service has a role in just about every industry on earth, Yellin travels the country and the world meeting a wide range of customer service reps: corporate decision makers, industry watchers, and Internet-based consumer activists. She spends time at outsourced call centers for Office Depot in Argentina and Microsoft in Egypt. She gets to know the Mormon wives who answer JetBlue's customer service calls from their homes in Salt Lake City and listens in on calls from around the globe at a FedEx customer service center in Memphis. She meets with the creators of the yearly Customer Rage Study, customer experience specialists at Credit Suisse in Zurich, the founder and CEO of FedEx, and the CEO of the rising Internet retailer Zappos.com. Yellin finds out which country complains about service the most. Sweden interviews an actress who provides the voice for automated answering systems at many big corporations and talks to the people who run a website GetHuman.com that posts codes for bypassing automated voices and getting to an actual human being at more than five hundred major companies. Yellin weaves her vast reporting into an entertaining narrative that sheds light on the complex forces that create our infuriating experiences. She chronicles how the Internet and global competition are forcing businesses to take their customers' needs more seriously and offers hope from people inside and outside the globalized corporate world fighting to make customer service better for us all. *Your Call Is Not That Important to Us* cuts through corporate jargon and consumer distress to provide an eye-opening and animated account of the way companies treat their customers, how customers treat the people who serve them, and how technology, globalization, class, race, gender, and culture influence these interactions. Frustrated customers, smart executives, and dedicated customer service reps alike will find this lively examination of the crossroads of world commerce the point where businesses and their customers meet illuminating and essential.

Cooperative

Commonwealth Steven James Keillor, 2000. By 1940 Minnesota was known as one of the most cooperative-minded states in the Union. More than 600 cooperative creameries, 150 township mutual fire insurance companies, hundreds of rural telephone associations, and 270 farmers' elevators were proof of the power of economic cooperation, and they made Minnesota into a cooperative commonwealth.

The Changing Image of the City Janet Rose Daly Bednarek, 1992-01-01. The Changing Image of the City describes urban planning and development from the end of World War II to 1973, when major elements of the design of Nebraska's largest city were in place. Janet Daly Bednarek shows how the approaches to planning shifted during a period that saw Omaha change from a hub of food processing and transportation to a postindustrial center dominated by insurance and by educational, medical, and other services. Finally, she surveys recent developments such as the Central Park Mall and the Old Market area in light of earlier plans and their implementation. In considering the changes that have occurred in Omaha, this book reveals much about the growth of professional urban planning in America. In Omaha, as elsewhere, planners dealt with power brokers, coped with rampant suburbanism, and sprawling shopping malls searched for ways to reverse the inner-city decay and concerned themselves with historic preservation, beautification, and quality of life.
