This study explores the plausibility of a sexual morality that was primarily intended to ensure the production of legitimate offspring in the traditional lifeworld With this goal in mind it is not surprising that adultery contraception homosexual relationships divorce and remarriage were subject to moral disapproval and in some cases even legal proscription In this context Christian theology followed its own path by drastically devaluing sexual lust and increasingly attempting to prohibit divorce and remarriage despite the fact that no models for this approach existed in either the biblical or the pagan world Both of these tendencies can be explained with reference to their socio historical origins which also necessarily include the establishment of the church as an organization In the process of tracing these histories it becomes clear that traditional sexual morality is a product of its time For this reason the book also includes a systematic section devoted to considering why this traditional sexual morality has largely lost its validity in modern society as well as which norms may take its place
