Gorbachev's Failure In Lithuania:

Gorbachev's Failure in Lithuania Alfred Erich Senn, 1995-06-19 The world watched first in fascination then in horror and eventually in amazement From 11 to 14 January 1990 Mikhail Gorbachev went to Lithuania to persuade the leaders of that rebel Soviet republic to remain within the traditional Soviet system from 11 to 13 January 1991 Soviet troops killed unarmed civilians in Vilnius in an effort to persuade the people of Lithuania to overthrow their leaders then in September 1991 Gorbachev presiding over the collapse of the Soviet Union recognized Lithuanian independence It was Lithuania above all that demonstrated to the world the empire's bankruptcy The book takes the reader into the maelstrom of politics in three different capitals during the period 1988-91 In Vilnius Lithuanians surged forward in what they called their national rebirth in Moscow Gorbachev struggled to maintain his position in a crumbling empire and in Washington the administration doggedly supported Gorbachev as the foundation of its East European policy In the end the Lithuanians in a remarkable display of peaceful non violent resistance were the only ones to achieve their ambitions

Nationalist Mobilization and the Collapse of the Soviet State Mark R. Beissinger, 2002-02-04 This 2002 study examines the process of the disintegration of the Soviet state

Gorbachev's export of Perestroika to Eastern Europe Helen Hardman, 2024-06-04 This book available for the first time in paperback looks at the liberalisation process in Central and Eastern Europe CEE during the period 1987-89 focusing on Gorbachev's initiative to encourage perestroika in all the fraternal regimes of CEE outside the Soviet Union Archival materials interviews and textual analysis identify a joint initiative among these fraternal communist parties to perpetuate the one party system For this purpose fraternal parties were expected to follow the example of the CPSU in convening the national party conference an all party meeting on a similar scale to the five yearly congress and yet mysteriously one which was barely described in the Party Statutes and rarely convoked Gorbachev made use of CEE dependence on the Soviet Union for energy supplies to ensure that at least some fraternal parties followed his line This book will be of interest to those studying the transition process in CEE democratisation comparative politics more generally and students of research methods

The Cambridge History

of the Cold War: Volume 3, Endings Melvyn P. Leffler, Odd Arne Westad, 2012-01-26 Volume III of The Cambridge History of the Cold War examines the evolution of the conflict from the Helsinki Conference of 1975 until the Soviet collapse in 1991. A team of leading scholars analyzes the economic, social, cultural, religious, technological, and geopolitical factors that ended the Cold War and discusses the personalities and policies of key leaders such as Brezhnev, Reagan, Gorbachev, Thatcher, Kohl, and Deng Xiaoping. The authors show how events throughout the world shaped the evolution of Soviet-American relations and they explore the legacies of the superpower confrontation in a comparative and transnational perspective. Individual chapters examine how the Cold War affected and was affected by environmental issues, economic trends, patterns of consumption, human rights, and non-governmental organizations. The volume represents the new international history at its best, emphasizing broad social, economic, demographic, and strategic developments while keeping politics and human agency in focus.

Lietuvybe Down Under Grazina Pranauskas, 2018-08-31 *Lietuvybe Down Under* is a book about the experiences of Lithuanian migrants to Australia and specifically about the desire of migrants to feel and be Lithuanian while living away from their homeland. *Lietuvybe* embraces the desire to be visible both within and outside the Lithuanian community through language and their traditions of song, dance, music, and the arts. This book should be read far and wide in Australia; it provides an opportunity to understand the hopes and expectations of migrants as well as the pain, fear, racism, challenges, loss, nostalgia, and confusion about where is my true home that migrants experience.

Vilnius between Nations, 1795-2000 Theodore R. Weeks, 2015-12-04 The inhabitants of Vilnius, the present-day capital of Lithuania, have spoken various languages and professed different religions while living together in relative harmony over the years. The city has played a significant role in the history and development of at least three separate cultures: Polish, Lithuanian, and Jewish, and until very recently no single cultural-linguistic group composed the clear majority of its population. *Vilnius between Nations 1795-2000* is the first study to undertake a balanced assessment of this particularly diverse city. Theodore Weeks examines Vilnius as a physical entity where people lived, worked, and died; as the object of rhetorical struggles between disparate cultures; and as a space where the state attempted to legitimize a specific version of cultural politics through street names, monuments, and urban planning. In investigating these aspects, Weeks avoids promoting any one national narrative of the history of the city while acknowledging the importance of national cultures and their opposing myths of the city's identity. The story of Vilnius as a multicultural city and the negotiations that allowed several national groups to inhabit a single urban space can provide lessons that are easily applied to other diverse cities. This study will appeal to scholars of Eastern Europe, urban studies, and multiculturalism, as well as general readers interested in the region.

[A History of the Baltic States](#) Andres Kasekamp, 2017-10-26 In this key textbook, Andres Kasekamp masterfully traces the development of Estonia, Latvia, and Lithuania from the northern crusades against Europe's last pagans and

Lithuania's rise to become one of medieval Europe's largest states to their incorporation into the Russian Empire and the creation of their modern national identities. Employing a comparative approach, a particular emphasis is placed upon the last one hundred years during which the Baltic states achieved independence, endured occupation by the Soviet Union and Nazi Germany, and transformed themselves into members of the European Union. This is an essential textbook for undergraduate students taking modules on Eastern or Central European History, Communism and Post Communism, the Soviet Union or Baltic Culture and Politics. Engaging and accessible, this is also an ideal introduction to the Baltic States for general readers.

The USSR In 1990 Vera Tolz, Melanie Newton, 2019-07-11 A unique day by day chronology of important events and trends related to the USSR. This reference annual draws from a wide variety of sources including Soviet and international media reports. The volume's comprehensive indexes to persons and places provide easy access to specific information being sought. Entries are brief but substantial, providing the context necessary in order to understand current developments. Eastern Europe Richard Frucht, 2004-12-22 A contemporary analysis of the people, cultures, and society within the regions that make up Eastern Europe. Eastern Europe: An Introduction to the People, Lands, and Culture sheds light on modern day life in the 16 nations comprising Eastern Europe. Going beyond the history and politics already well documented in other works, this unique three volume series explores the social and cultural aspects of a region often ignored in books and curricula on Western civilization. The volumes are organized by geographic proximity and commonality in historical development, allowing the countries to be both studied individually and juxtaposed against others in the region. The first volume covers the northern tier of states, the second looks at lands that were once part of the Hapsburg empire, and the third examines the Balkan states. Each chapter profiles a single country, its geography, history, political development, economy, and culture, and gives readers a glimpse of the challenges that lie ahead. Vignettes on various topics of interest illuminate the unique character of each country. *Post-Industrial Landscape Scars* A. Storm, 2014-10-22 Post industrial landscape scars are traces of 20th century utopian visions of society; they relate to fear and resistance expressed by popular movements and to relations between industrial workers and those in power. The metaphor of the scar pinpoints the inherent ambiguity of memory work by signifying both positive and negative experiences as well as the contemporary challenges of living with these physical and mental marks. In this book, Anna Storm explores post industrial landscape scars caused by nuclear power production, mining, and iron and steel industry in Malmberget, Kiruna, Barsebäck, and Ävesta in Sweden; Ignalina and Visaginas in Lithuania; former Soviet Union; and Duisburg in the Ruhr district of Germany. The scars are shaped by time and geographical scale; they carry the vestiges of life and work, of community spirit and hope of betrayed dreams, and repressive hierarchical structures. What is critical, Storm concludes, is the search for a legitimate politics of memory. The meanings of the scars must be acknowledged. Past and present experiences must be shared in order to shape new understandings of old places.

Dissolution Edward W. Walker, 2003 In December 1991 the Soviet Union passed into history as a legal entity, breaking

apart into 15 successor states This clear and convincing book explains why It emphasizes the critical role of Soviet ethno federalism as well as the normative claims and legitimizing myths of Soviet nationality policy Institutional constraints and legitimizing myths Walker argues empowered the anti union opposition even in republics where it had limited popular support He also shows how they helped bring about an outcome the full dissolution of the USSR that surprisingly few desired

The Baltic Transformed Walter C. Clemens Jr., 2001-06-06 Why isn t the Baltic region like the Balkans Why have the Baltic republics not experienced ethnic cleansing border wars authoritarian rule and social chaos Instead peace democracy and market economies have taken root since the fall of communism Walter C Clemens Jr here uses complexity theory which analyzes the role of self organization in complex adaptive systems to explain the Baltic miracle He argues that the theory is a vital tool for understanding the remarkable strides made by Estonia Latvia and Lithuania since 1991 in coping with the transition to partnership with the new Europe The Baltic peoples have adapted well to the demands of democracy a market economy and a constructive role in world affairs The achievements of Estonia Latvia and Lithuania in the past decade are the more amazing when considered against the hundreds of years they were dominated by Teutonic knights Hanseatic merchants Sweden Russia and the USSR Clemens uses this history as a springboard to analyze how Balts self organize today to meet the challenges of transition One of the first books to apply complexity theory to a major sphere of world politics The Baltic Transformed will provoke constructive debate with its ambitious and well grounded analysis of not only Baltic developments but European security more generally Despite its theoretical foundation the book is written in a clear and accessible style that will make it invaluable for courses on comparative politics political
