Gordion Ahsap Eserler:

The Archaeology of Phrygian Gordion, Royal City of Midas C. Brian Rose, 2013-03-16 Some of the most dramatic new discoveries in Asia Minor have been made at Gordion the Phrygian capital that controlled much of central Asia Minor for close to two centuries The most famous ruler of the kingdom was Midas who regularly negotiated with Greeks in the west and Assyrians in the east during his reign Excavations have been conducted at Gordion over the course of the last 60 years all under the auspices of the University of Pennsylvania Museum of Archaeology and Anthropology In spite of the economic and political importance of Gordion and the Phrygians the site is consistently omitted from courses in Old World archaeology primarily because Gordion lies too far to the west for many Near Eastern archaeologists and too far to the east for classical archaeologists Moreover there is no book that offers a comprehensive and up to date assessment of the material culture of Gordion during the Phrygian period a gap that will be filled by this volume The chapters cover all aspects of Gordion s Phrygian settlement topography from the arrival of the Phrygians in the tenth century B C through the arrival of Alexander the Great in 333 B C focusing on the site s changing topography and the consistently fluctuating interaction between the inhabitants and the landscape A reexamination of the material culture of Phrygian Gordion is particularly timely given the dramatic recent changes in the site s chronology wherein the dates of many discoveries have changed by as much as a century The authors are among the leading experts in Near Eastern archaeology historic preservation paleobotany and ancient furniture and their articles highlight the interdisciplinary nature of the Gordion project A significant component of the book is a new color phase plan of the site that succinctly presents the topography in diachronic perspective University Museum Monograph 136

Sheftel,2023-07-18 Gordion is a paramount site for understanding the culture of central Anatolia over more than 3 000 years from the Bronze Age to the Medieval period but is most renowned for its Iron Age horizon when it was royal capital of the mighty Phrygian kingdom The hundreds of bone and ivory artifacts excavated at Gordion constitute a highly diverse body of material and this publication presents one of the largest and most important assemblages of its kind in the Near East The artifacts give remarkable insight into the tools used in crafts and manufacturing processes a variety of decorative items the artistic developments among local craftspeople as well as indications of trading connections with other regions to the east and west Ivory was a highly valued material used for decorative pieces in many areas around the eastern Mediterranean The objects from Gordion are a significant addition to this corpus and illustrate both widely dispersed features common in other contemporary ivory working centers as well as the singular motifs and styles that developed in the Phrygian milieu A unique assemblage of ivory horse trappings from the Early Phrygian Citadel are an important illustration of this cultural confluence While bone was primarily used for strictly utilitarian objects there are numerous pieces that show this lowly material could be used for high quality items such as inlays set into the wooden furniture exceptionally attested at Gordion Even the sheep knuckle bone astragal decorated with incised designs and letters gives a glimpse into the daily life in the community
