Guided By Voices' Bee Thousand Marc Woodworth, 2006-10-02 Marc Woodworth s book covers the album s long and unorthodox period of writing recording sequencing and editing It includes interviews with members of the band manager Pete Jamison web master and GBV historian Rich Turiel and Robert Griffin of Scat Records At least sixty five songs were recorded and considered for the album and five distinct concepts were rejected before the band hit upon the records final form One late version very nearly released contained only a few of Bee Thousand s definitive songs The rest were left out and nearly ended up in the boxes of cassette out takes cluttering up Robert Pollard s basement The story of Guided By Voices transformation from an occasional and revolving group of complete unknowns to indie rock heroes is very much part of the story behind the making of Bee Thousand In addition to providing a central account of how the record was made Woodworth devotes a substantial chapter to the album s lyrics Robert Pollard s lyrics are described by critics when they re described at all as a brand of tossed off surrealism as if his verbal sensibility is somehow incidental to the songs themselves Nothing could be further from the truth Woodworth offers a sustained discussion of Pollard s work as a writer of often sublime beautiful and very human lyrics The third key section of the book covers aesthetics Woodworth considers the great appeal of the do it yourself nature of Bee Thousand and reflects on the larger importance of the strain of alternative rock for which this record is a touchstone
