Gospel For The Cities A Socio Theology Of Urban Ministry:

Gospel for the Cities Benjamin Tonna, 2004-10-28 Traditionally the city has been the locus for the development of civilization The scholars the poets the persons of commerce and politics came to the city for inspiration and acceptance The city has been both an intriguing place and a place of intrigue For weal or woe the city fashions our culture while altering cultures The person who wishes to analyze with competence the sociological and theological dimensions of the city would do well to study thoroughly *Gospel for the Cities* It is a study for us who live and work in the urban centers of North America as well as for the missionary today who must bring deep insight biblical historical and sociological to the awesome task of working in the cities of the twenty first century across the world We have waited long for this book Msgr John J Egan University of Notre Dame Many books have been written about cities and urbanization But in an era of severe compartmentalization in knowledge they have come from specialists in one discipline Thus we have the sociology of the city the city in history or the challenge of the city to the church Now this unique volume provides a genuine and compelling interface between competent social analysis and historical description with first rate mission theology and a solid biblical perspective This difficult task has been accomplished with depth and comprehensiveness by Benjamin Tonna in a book of particular relevance to the Third World but useful to all of us committed to concern for the cities in God s world George W Webber President New York Theological Seminary

Ellis, Amanda J. Gregory, B.R. Mears-Young, Gillian Ragsdell, 2013-06-29 The systems movement now 40 years old is made up of many associations of systems thinkers from different disciplines all over the world The United Kingdom Systems Society UKSS was formed in 1978 Today it has over 300 members and is committed to the development and promotion of systems philosophy theory concepts and methodologies for improving decision making for the benefit of organizations and wider society The first UKSS International Conference was held at the University of Hull in July of Huddersfield 1989 Since then we have held International Conferences at the Universities 1991 and Paisley 1993 The UKSS International Conferences are now an established biannual event and this our fourth international conference will be jointly hosted by the Universities of Hull and Humberside Systems science is considered to be a trans discipline which promotes critical and effective intervention in complex organisational and social problem situations As such it traverses hard through soft to critical systems thinking and methodologies Yet despite the currently robust state of the UKSS the systems movement cannot be described as an international movement different subdisciplines are at different stages of development and are often engaged in pursuing their own particular interests and themes with little conversation between the subdisciplines despite their common interest in systems Mision en el camino Charles E.
