Gossip And Subversion In Nineteenth Century Novel:

Gossip and Subversion in Nineteenth-Century British Fiction J. Gordon,1996-11-27 Jan Gordon proposes that a reviled communicational interest in gossip and its purveyors be given its proper due in the development of the novel in Britain Commencing with Sir Walter Scott's historically persecuted but economically and politically necessary androgynous voices in caves and concluding with Oscar Wilde's premature celebration of gossip at the very moment it is transformed from public opinion to public judgment the author finds gossip to be both deforming and shaping nineteenth century letters in surprising ways Like the ignominious orphan figure of nineteenth century fiction gossip is the unacknowledged reproduction searching for a political antecedence which might lend a legitimacy to its often discontinuous testimony for a culture historically resistant to obtrusive voices

The Brontes Patricia Ingham,2014-06-11 The novels of Charlotte and Emily Bronte have become canonical texts for the application of twentieth century literary and cultural theory Along with the work of their sister Anne their texts are regarded as a sources of diversity in themselves full of conflictual material which different schools of criticism have analysed and interpreted This book shows how the Brontes writings engage with the major issues which dominate twentieth century theoretical work The essays are grouped under broad schools of theory biographical feminist marxist psychoanalytical and postcolonial

Time, Space, and Gender in the Nineteenth-Century British Diary R. Steinitz,2011-10-24 Through close examinations of diaries diary publication and diaries in fiction this book explores how the diary's construction of time and space made it an invaluable and effective vehicle for the dominant discourses of the period it also explains how the genre evolved into the feminine emotive private form we continue to privilege today **London**

Clubland A. Milne-Smith,2011-11-15 This work is the first to study the gentlemen's clubs that were an important feature of the Late Victorian landscape and the first to discover the secret history of clubmen and their world placing them at centre stage detailing how clubland dramatically shaped 19th and early 20th century ideas about gender power class and the city

Conrad, Language, and Narrative Michael Greaney,2001-11-15 In this re evaluation of the writings of Joseph Conrad Michael Greaney places language and narrative at the heart of his literary achievement A trilingual Polish expatriate Conrad brought a formidable linguistic self consciousness to the English novel tensions between speech and writing are the defining obsessions of his career He sought very early on to develop a writing of the voice based on oral or communal modes of storytelling Greaney argues that the yarns of his nautical raconteur Marlow are the most challenging expression of this voice centred aesthetic But Conrad's suspicion that words are fundamentally untrustworthy is present in everything he wrote The political novels of his middle period represent a breakthrough from traditional storytelling into the writerly aesthetic of high modernism Greaney offers an examination of a wide range of Conrad's work which combines recent critical approaches to language in post structuralism with an impressive command of linguistic theory **The Idea of Europe in Literature**

Susanne Fendler,Ruth Wittlinger,1999-09-11 The relevance of culture has recently enjoyed increasing recognition for the

study of European integration and a European identity Appeals to a common European culture as well as appeals to different national cultures have been used respectively as a means to pursue political ends Paying tribute to literature's role as an important constituent part of a culture this collection of essays explores literary representations of Europe and its nation states and should be of particular value to anyone who is interested in cultural political or literary studies in the European context

Victorian Servants, Class, and the Politics of Literacy Jean Fernandez, 2009-09-10 Utilizing an array of cultural texts fiction servant autobiography diaries and pamphlets this study examines the debate on mass literacy as it developed around the figure of the Victorian servant as well as its significance for understanding the nexus between class and narrative power in nineteenth century literature

Middle English Paul Strohm, 2007-04-19 These original essays mean to provoke rather than reassure to challenge rather than codify Instead of summarizing existing knowledge after the fashion of the now ubiquitous literary companions these essays aim at opening fresh discussion instead of emphasizing settled consensus they direct their readers to areas of enlivened and unresolved debate Although major authors such as Chaucer and Langland are richly represented many little known and neglected texts are considered as well Analysis is devoted not only to self-sufficient works but to the general conditions of textual production and reception Contributors to this collection include some recognized and admired names but also a good many newer faces younger scholars whose groundbreaking research is just coming into full view and whose perspectives will influence the terms of literary discussion in the decades to come Encouraged to speculate they have addressed topics that unsettle previous categories of investigation Each is oriented toward the emergent the unfinished the yet to be done Each essay stirs new questions and concludes with suggestions for further reading and investigation that will allow readers to extend their own research into the questions it has raised

Symbolism 2020 Rüdiger Ahrens, Florian Klaeger, Klaus Stierstorfer, 2020-12-07 This special anniversary volume of Symbolism explores the nexus between symbolic signification and the future from an interdisciplinary perspective How contributors ask has the future been variously rendered in symbolic terms How do symbols and symbolic reference shape our ideas of the future To what extent are symbols constitutive of futures and to what extent do they restrain communication about what is possible and the imagination of fundamental change Moreover how have symbolic practices shaped not only artistic representations of the future but also scientific attempts at forecasting and modelling it What then is the relevance of symbolism for negotiations of the future in cultural and academic production In essays ranging from literary and film studies to the philosophy of art and ecological modelling the volume seeks to lay groundwork in theorizing and historicising symbols of the future as much as the future of symbolism

Transforming Talk Susan E. Phillips, 2011-04-01 In recent decades scholars have shown an increasing interest in gossip's social psychological and literary functions The first book-length study of medieval gossip Transforming Talk shifts the current debate and argues that gossip functions primarily as a transformative discourse influencing not only social interactions but also literary and religious practices Known as jangling in Middle

English gossip was believed to corrupt parishioners disturb the peace and cause civil and spiritual unrest But gossip was also a productive cultural force it reconfigured pastoral practice catalyzed narrative experimentation and restructured social and familial relationships Transforming Talk will appeal to a diverse audience including scholars interested in late medieval culture religion and society Chaucer and women in the Middle Ages *The Invention of Telepathy, 1870-1901* Roger Luckhurst, 2002 The Invention of Telepathy explores one of the enduring concepts to emerge from the late nineteenth century Telepathy was coined by Frederic Myers in 1882 He defined it as the communication of any kind from one mind to another independently of the recognised channels of sense By 1901 it had become a disputed phenomenon amongst physical scientists yet was the royal road to the unconscious mind Telepathy was discussed by eminent men and women of the day including Sigmund Freud Thomas Huxley Henry and William James Mary Kingsley Andrew Lang Vernon Lee W T Stead and Oscar Wilde Did telepathy signal evolutionary advance or possible decline Could it be a means of binding the Empire closer together or was it used by natives to subvert imperial communications Were women more sensitive than men and if so why Roger Luckhurst investigates these questions in an exciting and accessible study that mixes history of science with cultural history and literary analysis **Mr. and Mrs. Disraeli** Daisy Hay, 2015-02-17 Originally published Great Britain Chatto Windus 2015 *The Body and Physical Difference* David T.
