**Gothic Sculpture, 1140-1300** Paul Williamson, 1995-01-01 This study examines the development of Gothic sculpture throughout Europe It discusses the most famous monuments such as the cathedrals of Chartres Amiens and Reims Westminster Abbey and the Siena Duomo and less familiar buildings in France England Italy Germany Spain and Scandinavia

Early Gothic Column-Figure Sculpture in France Janet E. Snyder, 2017-07-05 Richly illustrated Early Gothic Column Figure Sculpture in France is a comprehensive investigation of church portal sculpture installed between the 1130s and the 1170s At more than twenty great churches beginning at the Royal Abbey of Saint Denis and extending around Paris from Provins in the east south to Bourges and Dijon and west to Chartres and Angers larger than life size statues of human figures were arranged along portal jambs many carved as if wearing the dress of the highest ranks of French society This study takes a close look at twelfth century human figure sculpture describing represented clothing defining the language of textiles and dress that would have been legible in the twelfth century and investigating rationale and significance The concepts conveyed through these extraordinary visual documents and the possible motivations of the patrons of portal programs with column figures are examined through contemporaneous historical textual and visual evidence in various media Appendices include analysis of sculpture production and the transportation and fabrication in limestone from Paris Janet Snyder's new study considers how patrons used sculpture to express and shape perceived reality employing images of textiles and clothing that had political economic and social significances The Murthly Hours John Higgitt, British Library, 2000-01-01 Accompanying CD ROM contains digital facsimile of the Murthly Hours with commentary **The Grove Encyclopedia of Medieval Art and Architecture** Colum Hourihane, 2012 This volume offers unparalleled coverage of all aspects of art and architecture from medieval Western Europe from the 6th century to the early 16th century Drawing upon the expansive scholarship in the celebrated Grove Dictionary of Art and adding hundreds of new entries it offers students researchers and the general public a reliable up to date and convenient resource covering this field of major importance in the development of Western history and international art and architecture A History of the Church in the Middle Ages F Donald Logan, 2012-07-26 Conceptually well organized stylistically clear intellectually thoughtful and pedagogically useful Thomas Head Speculum For its humane and learned approach to its enormous canvas as well as for the cogency with which it penetrates at speed to the essentials of a vanished historical epoch this History of the Church in the Middle Ages deserves a very wide audience indeed Barrie Dobson English Historical Review To have written a scholarly and very readable history of the Western Church over a millennium is a remarkable tour de force for which Donald Logan is to be warmly congratulated C H Lawrence The Tablet A feat of historical synthesis most confident in its telling of the coming of Christianity Books like Logan's are needed more than ever before Miri Rubin TLS In this fascinating survey F Donald Logan introduces the reader to the Christian church from the conversion of the Celtic and Germanic peoples to the discovery of the New World He reveals how the church unified the

people of Western Europe as they worshipped with the same ceremonies and used Latin as the language of civilized communication From remote rural parish to magnificent urban cathedral A History of the Church in the Middle Ages explores the role of the church as a central element in determining a thousand years of history This new edition brings the book right up to date with recent scholarship and includes an expanded introduction exploring the interaction of other faiths particularly Judaism and Islam with the Christian church

*Medieval Art* Gale R. Owen-Crocker, Timothy Graham, 1998 To honor the late renowned art historian C R Dodwell a collection of papers by leading scholars are combined to provide an illuminating perspective on a richly varied selection of topics not the least of which recognizes Dodwell s significant achievement in restoring Lambeth Palace Library during the 1950s 8 color and 101 bandw illustrations

*Reading the Reverse Fa?e of Reims Cathedral* DonnaL. Sadler, 2017-07-05 Though long recognized as one of the most beautiful works from the second half of the thirteenth century the magnificent sculptural program of the reverse fa e at Reims Cathedral has received little in the way of scholarly attention Interpreting the iconography in the light of Latin texts associated with the building its history and its ceremonial use Donna Sadler assesses the significance of the reverse fa e in light of other thirteenth century visual programs associated with the court of Louis IX The book s chapters deal with the history of the cathedral and its architectural antecedents the iconographic message of the visual program the meaning of the reverse fa e and how it intersects with the overall iconography the function of the verso and how it is enhanced by the marriage of form and content and a consideration of contemporary works linked to the court of Saint Louis concluding with a brief look at the new roles sculpture assumes as it migrates inside cathedrals Ultimately this book reveals how the imagery on the reverse fa e not only conforms to a system of memory and mode of medieval narratology but also articulates a dominant ideological position regarding the interdependence of ecclesiastical and royal powers

**Nicola Pisano's Arca Di San Domenico and Its Legacy** Anita Fiderer Moskowitz, 2010-11-01 Moskowitz begins with a brief discussion of the history and concerns of the Dominican Order particularly during the decades spanning the death of Dominic and the initiation of the Arca project

*The Art of Gothic* Rolf Toman, 1999 Gift of the FLORENCE R HALLAM MEMORIAL FUND 1999

**The Medieval World of Nature** Joyce E. Salisbury, 2019-06-26 Originally published in 1993 The Medieval World of Nature looks at how the natural world was viewed by medieval society The book presents the

argument that the pragmatic medieval view of the natural world of animals and plants existed simply to serve medieval society. It discusses the medieval concept of animals as food, labour and sport and addresses how the biblical charge of assuming dominion over animals and plants was rooted in the medieval sensibility of control. The book also looks at the idea of plants and animals as not only pragmatic but as allegories within the medieval world, utilizing animals to draw morality tales which were viewed with as much importance as scientific information. This book provides a unique and interesting look at the everyday medieval world.

Stone Conservation: Principles and Practice Alison Henry, 2015-12-08 Winner of the RIBA Book Award, this important and timely publication brings together contributions from leading stone conservation practitioners. It discusses the philosophical principles on which stone conservation is founded and the need to understand the full history and development of a building before starting work. Other topics covered in this book include consolidation, cleaning and the replacement of stone, conservation of different stone types including limestone, sandstone and marble, problems of dealing with polychrome stone and finally issues relating to church monuments and graveyards, taking account of the need for good maintenance and health and safety requirements. The book is illustrated with the author's own examples of stone conservation in practice. Architects, surveyors and craftsmen involved in the conservation of stone structures will find this both a practical and useful reference work.

Medieval Architecture Nicola Coldstream, 2002 Medieval architecture comprises much more than the traditional image of Gothic cathedrals and the castles of chivalry. A great variety of buildings, synagogues, halls and barns testify to the diverse communities and interests in western Europe in the centuries between 1150 and 1550. This book looks at their architecture from an entirely fresh perspective, shifting the emphasis away from such areas as France towards the creativity of other regions including central Europe and Spain. Treating the subject thematically, Coldstream seeks out what all buildings, both religious and secular, have in common and how they reflect the material and spiritual concerns of the people who built and used them. Furthermore, the author considers how and why, after four centuries of shaping the landscapes and urban patterns of Europe, medieval styles were superseded by classicism.

*Art and Architecture of the World's Religions* Leslie D. Ross, 2009-06-04 Two abundantly illustrated volumes offer a vibrant discussion of how the divine is and has been represented in art and architecture the world over. Beginning with the ancient worlds of Mesopotamia, Egypt, Greece and Rome and moving forward through time, *Art and Architecture of the World's Religions* explores the major faiths from countries and continents around the globe, helping readers better understand the creations their beliefs have inspired. After tracing the history and development of a religion, the book provides a general overview of its principal beliefs and key practices. It then offers specific examples of how works of art, architecture, statues, paintings and other works of art and architecture created by believers. Each representative work of art or architecture is examined in terms of its history, materials, symbols, colors and patterns as its significance is explained to the reader. With extensive illustrations, these volumes

are the definitive reference work on art and architecture of the world's religions      **The Rare Art Traditions** Joseph Alsop, 2023-08-15 A cultural and social history of art collecting art history and the art market In *The Rare Art Traditions* Joseph Alsop offers a wide ranging cultural and social history of art collecting art history and the art market He argues that art collecting is the basic element in a remarkably complex and historically rare behavioral system which includes the historical study of art the market for buying and selling art museums forgery and the astonishing prices commanded by some works of art *The Rare Art Traditions* tells the story of three important traditions of art collecting the classical tradition that began in Greece the Chinese tradition and the Western tradition The result is a major original contribution to art history

Frame Work Alison Wright, 2019-01-01 *Frame Work* explores how framing devices in the art of Renaissance Italy respond and appeal to viewers in their social religious and political context      Stone on Stone Imogen Corrigan, 2018-12-31 Standing in the nave of a cathedral it is hard not to wonder how ordinary human beings could have created sky scraping dizzyingly high buildings on which even the top most parts were delicately decorated in an age before even the simplest of power tools *Stone on Stone* presents the full story of the men who built the cathedrals of the medieval era who they were how they lived and how with the simplest of hand tools they created the astonishing buildings that hundreds of years later still stand as monuments to their ingenuity and skill Topics covered include the context for building such huge places of worship the men who built who they were and the challenges they had to face finding the materials construction techniques building control and finally who paid for it all      Medieval Architecture and Its Intellectual Context E. C. Fernie, Paul Crossley, 1990-01-01

*Medieval Architecture and its Intellectual Context* reflects the range of Peter Kidson's own interests and are united in following his approach to medieval architecture and art a determination to see buildings and objects in the intellectual terms of the time in which they were created      **Arts of the Medieval Cathedrals** Kathleen Nolan, Dany Sandron, 2016-12-05 The touchstones of Gothic monumental art in France the abbey church of Saint Denis and the cathedrals of Chartres Reims and Bourges form the core of this collection dedicated to the memory of Anne Prache The essays reflect the impact of Prache's career both as a scholar of wide ranging interests and as a builder of bridges between the French and American academic communities Thus the authors include scholars in France and the United States both academics and museum professionals while the thematic matrix of the book divided into architecture stained glass and sculpture reflects the multiple media explored by Prache during her long career The essays employ a varied range of methodologies to explore Gothic monuments The chapters in the architectural section include an intensive archeological analysis of the foundations of Reims Cathedral the close reading of a late medieval literary text for a symbolic understanding of Paris and essays that explore the medieval use of practical geometry in designing entire buildings and their components Saint Denis Reims and Chartres all monuments studied by Prache are discussed in the next part on stained glass These chapters demonstrate how old problems can be clarified by new evidence whether from the accessibility of previously unknown archival information for Reims or through

revelations that arise from restoration at Chartres These essays also include a study showing the complexity of making attributions for the storied glass of Saint Denis The final set of essays likewise takes different approaches to sculpture whether constructing links to the liturgy at Reims or discussing the meaning of a sculptural ensemble studied by Prache early in her career the cloister of Notre Dame en Vaux in Ch lons en Champagne or scrupulously examining the fa ade sculpture at Bourges Cathedral for insights into the design process As a whole the volume provides a window onto key directions in the study of

**Stairway to Heaven** Toby Huitson, 2014-03-26 Medieval stairs galleries and upper chambers in cathedrals abbeys and parish churches have been an enduring source of fascination to historians and archaeologists since the eighteenth century but their practical purposes have long been shrouded in mystery and speculation From libraries to lights clocks to dovecotes from secret games of skittles played over the vaults to the daring exploits of the twelfth century Flying Monk Toby Huitson explores the lofty spaces nooks and crannies of medieval upper spaces though the interrogation of a wide range of documentary visual and archaeological materials Evidence is revealed for over 30 different functions during the period from around AD 1000 to 1550 Generously illustrated and fully referenced the text is accompanied by a set of special features and a quick reference section making it indispensable to all those interested in medieval history and architecture Dr Toby Huitson teaches at the University of Kent Canterbury
