Gothic Passages Justin D. Edwards, 2003 This groundbreaking study analyzes the development of American gothic literature alongside nineteenth century discourses of passing and racial ambiguity By bringing together these areas of analysis Justin Edwards considers the following questions How are the categories of race and the rhetoric of racial difference tied to the language of gothicism What can these discursive ties tell us about a range of social boundaries gender sexuality class race etc during the nineteenth century What can the construction and destabilization of these social boundaries tell us about the development of the U S gothic The sources used to address these questions are diverse often literary and historical fluidly moving between representation and reality Works of gothic literature by Edgar Allan Poe Herman Melville Frances Harper and Charles Chesnutt among others are placed in the contexts of nineteenth century racial science and contemporary discourses about the formation of identity Edwards then examines how nineteenth century writers gothicized biracial and passing figures in order to frame them within the rubric of a demonization of difference By charting such depictions in literature and popular science he focuses on an obsession in antebellum and postbellum America over the threat of collapsing racial identities threats that resonated strongly with fears of the transgression of the boundaries of sexuality and the social anxiety concerning the instabilities of gender class ethnicity and nationality *Gothic Passages* not only builds upon the work of Americanists who uncover an underlying racial element in U S gothic literature but also sheds new light on the pervasiveness of gothic discourse in nineteenth century representations of passing from both sides of the color line This fascinating book will be of interest to scholars of American literature cultural studies and African American studies

Tropical Gothic in Literature and Culture Justin D. Edwards, Sandra

Vasconcelos,2016-01-13 Tropical Gothic examines Gothic within a specific geographical area of the South of the Americas In so doing we structure the book around geographical coordinates from North to South and move between various national traditions of the gothic Mexico Argentina Brazil etc alongside regional manifestations of the Gothic the US south and the Caribbean as well as transnational movements of the Gothic within the Americas The reflections on national traditions of the Gothic in this volume add to the critical body of literature on specific languages or particular nations such as Scottish Gothic American Gothic Canadian Gothic German Gothic Kiwi Gothic etc This is significant because while the Southern Gothic in the US has been thoroughly explored there is a gap in the critical literature about the Gothic in the larger context of region of the South in the Americas This volume does not pretend to be a comprehensive examination of tropical Gothic in the Americas rather it pinpoints a variety of locations where this form of the Gothic emerges In so doing the transnational interventions of the Gothic in this book read the flows of Gothic forms across borders and geographical regions to tease out the complexities of Gothic cultural production within cultural and linguistic translations Tropical Gothic includes but is by no means limited to a reflection on a region where European colonial powers fought intensively against indigenous populations and against each other for control of land and resources In other cases the vast populations of African slaves were transported endowing these regions with a cultural inheritance that all the nations involved are still trying to comprehend The volume reflects on how these histories influence the Gothic in this region **Herman Melville** Corey Evan

Thompson,2021-06-24 This reference work covers both Herman Melville s life and writings It includes a biography and detailed information on his works on the important themes contained therein and on the significant people and places in his life The appendices include suggestions for further reading of both literary and cultural criticism an essay on Melville s lasting cultural influence and information on both the fictional ships in his works and the real life ones on which he sailed

Berlatsky, 2021-04-16 American culture has long represented mixed race identity in paradoxical terms On the one hand it has been associated with weakness abnormality impurity transgression shame and various pathologies however it can also connote genetic superiority exceptional beauty and special potentiality This ambivalence has found its way into superhero media which runs the gamut from Ant Man and the Wasp s tragic mulatta villain Ghost to the cinematic depiction of Aquaman as a heroic half breed The essays in this collection contend with the multitude of ways that racial mixedness has been presented in superhero comics films television and literature They explore how superhero media positions mixed race characters within a genre that has historically privileged racial purity and propagated images of white supremacy The book considers such iconic heroes as Superman Spider Man and The Hulk alongside such lesser studied characters as Valkyrie Dr Fate and Steven Universe Examining both literal and symbolic representations of racial mixing this study interrogates how we might challenge and rewrite stereotypical narratives about mixed race identity both in superhero media and beyond **“Like some damned Juggernaut”** Johannes Weber, 2015-10-06 **Ecogothic in Nineteenth-Century American Literature** Dawn Keetley, Matthew Sivils, 2017-11-15 First Published in 2017 The first of its kind to address the ecogothic in American literature this collection of fourteen articles illuminates a new and provocative literacy category one that exists at the crossroads of the gothic and the environmental imagination of fear and the ecosystems we inhabit *Runaway Genres* Yogita Goyal, 2019-10-29 Winner 2021 Ren Wellek Prize given by the American Comparative Literature Association Winner 2021 Barbara Perkins and George Perkins Award given by the International Society for the Study of Narrative Honorable Mention 2020 James Russell Lowell Prize given by the Modern Language Association Argues that the slave narrative is a new world literary genre In *Runaway Genres* Yogita Goyal tracks the emergence of slavery as the defining template through which current forms of human rights abuses are understood The post black satire of Paul Beatty and Mat Johnson modern slave narratives from Sudan to Sierra Leone and the new Afropolitan diaspora of writers like Teju Cole and Chimamanda Ngozi Adichie all are woven into Goyal s argument for the slave narrative as a new world literary genre exploring the full complexity of this new ethical globalism From the humanitarian spectacles of Kony 2012 and BringBackOurGirls through gothic literature *Runaway Genres* unravels for instance how and why the African child soldier has now appeared as the afterlife of the Atlantic slave Goyal argues that in order to fathom forms of freedom and bondage today from unlawful detention to sex trafficking to the refugee crisis to genocide we must turn to contemporary literature which reveals how the literary forms used to tell these stories derive from the antebellum genre of the slave narrative Exploring the ethics and aesthetics of globalism the book presents alternative conceptions of human rights showing that the revival and proliferation of slave narratives offers not just an occasion to revisit the Atlantic past but also for re narrating the global present In
