The End is NEAR!

VISIONS OF APOCALYPSE, MILLENNIUM AND UTOPIA

What is Now? poses the same question the human race continues to ask themselves in the Millennium's final hour approach. Will it mean the dawning of a new utopia or a horrifying descent into apocalyptic chaos? An international group of visual thinkers, from the Midwest to Asia Minor and beyond, have joined forces to present *Millennium and Beyond*, the most important exhibition of contemporary art dealing with the subject.

Remember the works of artists who often dealt with the shadowy depths of society, like Maxfield Parrish, the American artist, or Gustav Klimt, the Viennese painter. Although they brought hope to society, Roger Brody, in his opening exhibition at the *Millennium and Beyond*, the world's largest art festival, on the origins of American civilization and chaos.

Contemporary illustration with futuristic representations throughout. *Millennium and Beyond*, a contemporary art exhibition dealing with myriad aspects of our changing times.

The End That Does Cathy Gutierrez,Hillel Schwartz,2014-12-18 Millennial movements have had a significant impact on history and lie behind many artistic and scientific views of the world The End that Does tracks the interplay of the arts sciences and millennial imagination across 3000 years The volume presents essays ranging across the study of ancient ritualistic sacrifice utopian technology and the American millennial dream science fiction and the apocalypse of the tabloids The End that Does will be invaluable to any student or scholar interested in the history of millennialism **Apocalypse and Reform from Late Antiquity to the Middle Ages**

Matthew Gabriele,James T. Palmer,2018-09-03 Apocalypse and Reform from Late Antiquity to the Middle Ages provides a range of perspectives on what reformist apocalypticism meant for the formation of Medieval Europe from the Fall of Rome to the twelfth century It explores and challenges accepted narratives about both the development of apocalyptic thought and the way it intersected with cultures of reform to influence major transformations in the medieval world Bringing together a wealth of knowledge from academics in Britain Europe and the USA this book offers the latest scholarship in apocalypse studies It consolidates a paradigm shift away from seeing apocalypse as a radical force for a suppressed minority and towards a fuller understanding of apocalypse as a mainstream cultural force in history Together the chapters and case studies capture and contextualise the variety of ideas present across Europe in the Middle Ages and set out points for further comparative study of apocalypse across time and space Offering new perspectives on what ideas of reform and apocalypse meant in Medieval Europe Apocalypse and Reform from Late Antiquity to the Middle Ages provides students with the ideal introduction to the study of apocalypse during this period **The approaching end of the age viewed in the light of history, prophecy and science** Henry Grattan Guinness,1882

possess the whole of the continent which Providence has given us for the development of Liberty and federated self government entrusted to us he coined a phrase that aptly describes how Americans from colonial days and into the twentieth century perceived their privileged role Anders Stephanson examines the consequences of this idea over more than three hundred years of history as Manifest Destiny drove the westward settlement to the Pacific defining the stubborn belief in the superiority of white people and denigrating Native Americans and other people of color He considers it a component in Woodrow Wilson s campaign to make the world safe for democracy and a strong factor in Ronald Reagan s administration
