

THE END OF ELITISM?

The Democratisation of the West German University System

It is a truism that the German university system has been the subject of much discussion and controversy. The system has been criticised for being too elitist, too bureaucratic, and too slow to respond to the needs of the economy. It has also been praised for its high standards of academic excellence and its commitment to research. In this book, Rosalind M. O. Pritchard examines the changes that have taken place in the West German university system since the end of the Second World War. She argues that the system has become more democratic and more responsive to the needs of the economy, but that it still has a long way to go. She discusses the role of the state in the university system, the role of the universities in society, and the role of the universities in the economy. She also discusses the role of the universities in the cultural life of the country. The book is a valuable contribution to the understanding of the German university system and its role in society.

ROSALIND M. O. PRITCHARD

End Of Elitism The Democratisation Of The West German University System

**Christopher Flockton, Eva
Kolinsky, Rosalind M. O. Pritchard**

End Of Elitism The Democratisation Of The West German University System:

The End of Elitism? Rosalind M. O. Pritchard,1990 The study examines the reform programme in Germany which in response to the crisis of the 1960s merged different types of institution at and below university level as a means of introducing greater flexibility within existing structures promoting social and regional equality and stimulating curricular innovation The impressive achievements of such Gesamthochschulen are examined as are the attendant difficulties which militate against comprehensivisation in Germany today

The End of Elitism? Rosalind M. O. Pritchard,1990 The study examines the reform programme in Germany which in response to the crisis of the 1960s merged different types of institution at and below university level as a means of introducing greater flexibility within existing structures promoting social and regional equality and stimulating curricular innovation The impressive achievements of such Gesamthochschulen are examined as are the attendant difficulties which militate against comprehensivisation in Germany today

Germany - The Tides of Power Michael Balfour,2004-03-01 In Germany The Tides of Power Michael Balfour sets out to explain the factors which have shaped the German social political and economic character Tracing the movement of power from the Middle Ages onwards he seeks to lead the reader to an understanding of modern Germany why Germany precipitated and lost two major wars this century how the astonishing growth of wealth over the last half century was achieved the meaning behind the recent unification of Germany As German economic expansion continues into the 1990 s Professor Balfour discusses the power held by this technologically advanced nation and considers the acceptance of this power by the rest of the world

Protestant Theology and the Making of the Modern German University Thomas Albert

Howard,2006-02-23 Publisher description Japan and Germany under the U.S. Occupation Masako Shibata,2005-09-20 Focusing on the post war reconstruction of the education systems in Japan and Germany under U S military occupation after World War II this book offers a comparative historical investigation of education reform policies in these two war ravaged and ideologically compromised countries While in Japan large scale reforms were undertaken swiftly after the end of the war the U S zone in Germany maintained most of the traditional aspects of the German education system Why did Japan so readily accept ideas and values developed in the allied countries while Germany resisted Masako Shibata explores this question arguing that the role of the university and the pattern of elite formation which can be traced back to the period of the formation of Meiji Japan and the Kaiserreich created the conditions for differing reactions from educational leaders in each country this had a decisive impact on the proposed reforms By examining these reactions through a sociological cultural and historical frame an explanation emerges Japan and Germany under the U S Occupation will prove to be a valuable resource both to scholars of history and education reform

American Higher Education in a Global Context Cristina González,2022-02-14 American Higher Education in a Global Context Historical Perspectives describes the current state of universities on each continent providing a comprehensive analysis of the numerous factors that have affected higher

education systems around the world This book studies higher education from its emergence in antiquity to the establishment of the American research university model and its adoption around the globe through the current Covid 19 pandemic and concomitant economic and political crisis The author pays special attention to the shortcomings of the neoliberal trend of the last four decades which increased social stratification at institutions of higher learning Calling for an expansion of access to tertiary education and in particular to research universities this book examines the competition between China and the United States in the field of higher education stressing the importance of academic freedom without which there can be no true academic excellence

Routledge International Handbook of Working-Class Studies Michele Fazio,Christie Launius,Tim Strangleman,2020-12-30 The Routledge International Handbook of Working Class Studies is a timely volume that provides an overview of this interdisciplinary field that emerged in the 1990s in the context of deindustrialization the rise of the service economy and economic and cultural globalization The Handbook brings together scholars teachers activists and organizers from across three continents to focus on the study of working class peoples cultures and politics in all their complexity and diversity The Handbook maps the current state of the field and presents a visionary agenda for future research by mingling the voices and perspectives of founding and emerging scholars In addition to a framing Introduction and Conclusion written by the co editors the volume is divided into six sections Methods and principles of research in working class studies Class and education Work and community Working class cultures Representations and Activism and collective action Each of the six sections opens with an overview that synthesizes research in the area and briefly summarizes each of the chapters in the section Throughout the volume contributors from various disciplines explore the ways in which experiences and understandings of class have shifted rapidly as a result of economic and cultural globalization social and political changes and global financial crises of the past two decades Written in a clear and accessible style the Handbook is a comprehensive interdisciplinary anthology for this young but maturing field foregrounding transnational and intersectional perspectives on working class people and issues and focusing on teaching and activism in addition to scholarly research It is a valuable resource for activists as well as working class studies researchers and teachers across the social sciences arts and humanities and it can also be used as a textbook for advanced undergraduate or graduate courses

Historical Dictionary of Contemporary Germany Derek Lewis,Ulrike Zitzlsperger,2016-10-18 This second edition of Historical Dictionary of Contemporary Germany provides a comprehensive overview of most aspects of life and institutions in contemporary Germany It also introduces the reader to the historical development of both East and West Germany between 1949 and 1990 and addresses the various issues arising from reunification This second edition of Historical Dictionary of Contemporary Germany contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 500 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Germany

Education in Germany since

Unification David Phillips,2000-01-01 This volume is concerned with aspects of education in Germany over the 10 years prior to 2000 focusing on schools teachers vocational training and higher education in those eastern parts of the Federal Republic which formerly constituted the territory of the German Democratic Republic The articles deal with notions of transition and adaptation at a time of considerable upheaval and rapid change There is a particular focus in some contributions on the problems involved in conducting research on the views of teachers involved in complex processes of adjustment to a new status quo Democrats, Authoritarians and the Bologna Process Judith Marquand,2018-04-06 This book sets the extraordinary phenomenon of The Bologna Process in its historical and political context Four contrasting country case studies Germany Russia England Wales illustrate some of the varying responses adopted when faced with a similar framework *The Transformation of the Student Career* Michael Nugent,2004-09 This study examines the transformation of the structural characteristics and ideological assumptions of university study in these three countries between the mid 1950s and the early 1990s **The German Example** David Phillips,2011-05-26 Over the past two hundred years German education policy and practice has attracted interest in England Policy makers have used the German example both to encourage change and development and to warn against certain courses of action This monograph provides the first major analysis of the rich material from government reports including work by Matthew Arnold the press travel accounts memoirs scholarly publications and the archives to uncover the nature of the English fascination with education in Germany from 1800 to the end of the twentieth century David Phillips traces this story and uses recent work in theories of educational policy borrowing to analyze the reception of the German experience and its impact on the development of English education policy The Cross-cultural Transfer of Educational Concepts and Practices Masahiro Tanaka,2005-05-16 This book analyses comparatively the creation of American and Japanese universities on the model of German universities largely in the late nineteenth century and the reform of German and Japanese universities on the model of American universities after the end of the Second World War The argument is that transferring educational concepts and practices from one cultural context to another involves not merely a transfer but a transformation How and why this transformation occurs is what this book is about More precisely it is suggested that transformation of educational concepts and practices during their cross cultural movement can be understood within a theoretical perspective that is proposed and developed in the book This book is divided into six chapters Chapter One as the introduction analyses several scholars approaches to the aspects of educational transfer then attempts to construct a theoretical perspective for the book on the processes of change in educational concepts and practices during their movement across cultures Chapters Two and Three offer two narratives to investigate how German university concepts and practices were transmuted as a consequence of local actors efforts to import these concepts and practices into Japan and the United States Chapters Four and Five provide another two narratives to examine how American university concepts and practices were altered as a result of American actors attempts to export these concepts and practices

to Japan and Germany Chapter Six as the conclusion through reflecting on the four narratives given in the main chapters re examines the ways in which the theoretical perspective of this book is useful to understand the processes of transformation of educational concepts and practices during their movement from one culture to another The New Germany in the East Christopher Flockton, Eva Kolinsky, Rosalind M. O. Pritchard, 2000 Produced with the International Peace Academy in New York this volume focuses largely on the conflicts of the 1990s and future projects examining multifaceted issues involved in conflict management suggesting new approaches and tools for future conflict management *The Design of the University* Heinz-Dieter Meyer, 2016-10-04 What is the reason for the American university's global preeminence How did the American university succeed where the development of the German university from which it took so much stalled In this closely argued book Meyer suggests that the key to the American university's success is its institutional design of self government Where other university systems are dependent on the patronage of state church or market the American university is the first to achieve true autonomy which it attained through an intricate system of engagements with societal actors and institutions that simultaneously act as amplifiers of its impact and as checks on the university's ever present corrosive tendencies Built on a searching analysis of the design thinking of Wilhelm von Humboldt and Adam Smith and closely tracing the learning process by which Americans adapted the German model The Design of the University dismisses efforts to copy superficial features of the American university in order to achieve world class rank Calling attention to the design details of the university and the particulars of its institutional environment this volume identifies the practices and choices that produced the gold standard for today's world class higher education **Resources in education**, 1991 **Diversity and Excellence in Higher Education** Rosalind M. O. Pritchard, Matthias Klumpp, Ulrich Teichler, 2015-11-03 Diversity and excellence in Higher Education seem to be conflicting concepts Nevertheless they are dynamic and closely intertwined indeed they may even require each other The book brings together insights from ten different countries to analyse these multi faceted phenomena and discuss how they may be reconciled within higher education To set the overall context it critically addresses markets and managerialism whilst foregrounding the dangers of certain behavior that European countries are currently though often unwisely copying from the U S In a mass Higher Education system the social basis of the student body diversifies a fact that creates new challenges for planners and managers The authors study of diversity concentrates particularly upon issues of equity and justice for students addressing their life cycle transitions from school to higher education degree completion postgraduate education and employability It also considers challenges posed by diversification at the institutional level encompassing changes in management leadership governance and performance assessment It addresses attempts to achieve excellence by selectivity thereby contributing to the stratification of university systems and it explores attempts to achieve excellence by merging smaller institutions to form larger entities The book's overall conclusion is that diversity and excellence are not necessarily enemies but relatives who cannot escape the bond

between them **Routledge Library Editions: Higher Education** Various, 2021-03-29 The volumes in this set originally published between 1964 and 2002 draw together research by leading academics in the area of higher education and provide a rigorous examination of related key issues The volume examines the concepts of learning teaching student experience and administration in relation to the higher education through the areas of business sociology education reforms government educational policy business and religion whilst also exploring the general principles and practices of higher education in various countries This set will be of particular interest to students and practitioners of education politics and sociology

Jean Sibelius Glenda Dawn Goss, 1998 First Published in 1998 This book is a comprehensive annotated bibliography of writings about the life times and music of Jean Sibelius 1865 1957 Over 1 000 sources in 11 different languages are represented from the earliest writings which appeared in the 1890s to studies published through 1994 Historical information and background are supplied together with an indication of the reliability of each source Translations of studies into English German and French are noted particularly important in a field where so many items are in Finnish and Swedish Introductory essays to each section discuss Sibelius in different contexts for example vis vis his contemporaries in Scandinavia in relation to folk music in reception history and in the scholarly literature Individual musical compositions have their own sections with bibliography Comprehensive indexes cover the musical works authors and people and subjects mentioned *Down from Olympus* Suzanne L. Marchand, 2020-06-30 Since the publication of Eliza May Butler s *Tyranny of Greece over Germany* in 1935 the obsession of the German educated elite with the ancient Greeks has become an accepted if severely underanalyzed cliché In *Down from Olympus* Suzanne Marchand attempts to come to grips with German Graecophilia not as a private passion but as an institutionally generated and preserved cultural trope The book argues that nineteenth century philhellenes inherited both an elitist normative aesthetics and an ascetic scholarly ethos from their Romantic predecessors German neohumanists promised to reconcile these intellectual commitments and by so doing to revitalize education and the arts Focusing on the history of classical archaeology Marchand shows how the injunction to imitate Greek art was made the basis for new state funded cultural institutions Tracing interactions between scholars and policymakers that made possible grand scale cultural feats like the acquisition of the Pergamum Altar she underscores both the gains in specialized knowledge and the failures in social responsibility that were the distinctive products of German neohumanism This book discusses intellectual and institutional aspects of archaeology and philhellenism giving extensive treatment to the history of prehistorical archaeology and German orientalism Marchand traces the history of the study excavation and exhibition of Greek art as a means to confront the social cultural and political consequences of the specialization of scholarship in the last two centuries

End Of Elitism The Democratisation Of The West German University System Introduction

In this digital age, the convenience of accessing information at our fingertips has become a necessity. Whether its research papers, eBooks, or user manuals, PDF files have become the preferred format for sharing and reading documents. However, the cost associated with purchasing PDF files can sometimes be a barrier for many individuals and organizations. Thankfully, there are numerous websites and platforms that allow users to download free PDF files legally. In this article, we will explore some of the best platforms to download free PDFs. One of the most popular platforms to download free PDF files is Project Gutenberg. This online library offers over 60,000 free eBooks that are in the public domain. From classic literature to historical documents, Project Gutenberg provides a wide range of PDF files that can be downloaded and enjoyed on various devices. The website is user-friendly and allows users to search for specific titles or browse through different categories. Another reliable platform for downloading End Of Elitism The Democratisation Of The West German University System free PDF files is Open Library. With its vast collection of over 1 million eBooks, Open Library has something for every reader. The website offers a seamless experience by providing options to borrow or download PDF files. Users simply need to create a free account to access this treasure trove of knowledge. Open Library also allows users to contribute by uploading and sharing their own PDF files, making it a collaborative platform for book enthusiasts. For those interested in academic resources, there are websites dedicated to providing free PDFs of research papers and scientific articles. One such website is Academia.edu, which allows researchers and scholars to share their work with a global audience. Users can download PDF files of research papers, theses, and dissertations covering a wide range of subjects. Academia.edu also provides a platform for discussions and networking within the academic community. When it comes to downloading End Of Elitism The Democratisation Of The West German University System free PDF files of magazines, brochures, and catalogs, Issuu is a popular choice. This digital publishing platform hosts a vast collection of publications from around the world. Users can search for specific titles or explore various categories and genres. Issuu offers a seamless reading experience with its user-friendly interface and allows users to download PDF files for offline reading. Apart from dedicated platforms, search engines also play a crucial role in finding free PDF files. Google, for instance, has an advanced search feature that allows users to filter results by file type. By specifying the file type as "PDF," users can find websites that offer free PDF downloads on a specific topic. While downloading End Of Elitism The Democratisation Of The West German University System free PDF files is convenient, its important to note that copyright laws must be respected. Always ensure that the PDF files you download are legally available for free. Many authors and publishers voluntarily provide free PDF versions of their work, but its

essential to be cautious and verify the authenticity of the source before downloading End Of Elitism The Democratisation Of The West German University System. In conclusion, the internet offers numerous platforms and websites that allow users to download free PDF files legally. Whether its classic literature, research papers, or magazines, there is something for everyone. The platforms mentioned in this article, such as Project Gutenberg, Open Library, Academia.edu, and Issuu, provide access to a vast collection of PDF files. However, users should always be cautious and verify the legality of the source before downloading End Of Elitism The Democratisation Of The West German University System any PDF files. With these platforms, the world of PDF downloads is just a click away.

FAQs About End Of Elitism The Democratisation Of The West German University System Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. End Of Elitism The Democratisation Of The West German University System is one of the best book in our library for free trial. We provide copy of End Of Elitism The Democratisation Of The West German University System in digital format, so the resources that you find are reliable. There are also many Ebooks of related with End Of Elitism The Democratisation Of The West German University System. Where to download End Of Elitism The Democratisation Of The West German University System online for free? Are you looking for End Of Elitism The Democratisation Of The West German University System PDF? This is definitely going to save you time and cash in something you should think about.
