Japanese audiences expected literature to tell and those they did not The book concludes with a classic of Japanese science fiction a description of present day crises writers face in a Japan hobbled by a changing economy and unprecedented natural and manmade catastrophes The Rise and Fall of Japanese Literature reinterprets the end of literature a phrase heard often in Japan as a clarion call to understand how literary culture worldwide now teeters on a historic precipice one at which Japan's writers may have arrived just a moment before the rest of us **Arthur Danto and the End of Art** Raquel

Cascales,2019-08-20 To get a comprehensive understanding of the core concept of the end of art this book analyses the intellectual trajectory of Arthur Danto highlighting his successive achievements in philosophy of action philosophy of history and philosophy of art If as Danto says everything is extensively associated with everything else it is impossible to avoid putting the philosophy of art in relation with his whole philosophical system *Cross and Khôra* Marko Zlomislíć,Neal DeRoo,2010-01-01 This volume poses the question of the relationship between the two main influences on the thought of John D Caputo one of the most well known philosophers of religion working in North America today Jacques Derrida and Jesus Christ Given the seemingly abstract character of Derrida's account of the messianic how can one reconcile deconstruction and the concrete messianism of Christianity as Caputo tries to do over and over again How can one hold together the love of a God willing to be crucified and the dry desert khora which doesn't care This collection of essays from world renowned scholars seeks to illuminate the difficulties inherent in this seemingly contradictory pair of influences With his trademark wit and humor Caputo responds to his interlocutors while clarifying his position on numerous matters of interest to the church and in the academy In addition to dealing with the concern for issues of hermeneutics phenomenology and negative theology for which Caputo has become famous these essays also evaluate Caputo's legacy in fields previously not thought to be affected by his deconstructive version of religion feminism sacramental theology Analytic philosophy of religion and Christology **European Cinema after 1989** L. Rivi,2007-12-09 The book examines cinema in post 1989 Europe by

looking at how the new post Cold War cinematographic co productions articulate the political and cultural objectives of a new Europe as they redefine a European identity *After the Future* Gary Shapiro,1990-01-01 This book brings together diverse aspects of postmodernism by philosophers literary critics historians of architecture and sociologists It addresses the nature of postmodernism in painting architecture and the performing arts and explores the social and political implications of postmodern theories of culture The book raises the question of whether postmodernism is to be seen as one more epoch or period within a succession of eras or as a challenge to the modernist practice of periodization itself The nature of the subject and of subjectivity is explored in order to resituate and contextualize the autonomous subject of the modern literary traditions Postmodern approaches to philosophy both analytical and continental including the work of Deleuze Derrida Foucault Rorty and Cavell are scrutinized and compared with a view to the question of foundationalism and with respect to philosophy's historical reflection on its own exclusionary practices After the Future discusses the ramifications of technology

and programs for the renewal of community in a radically pluralistic society It also discusses the question of language and the diverse ways of distinguishing the articulate from the inarticulate **Existential Hermeneutics** Andrzej

Wiercinski, 2020-03-10 Existential hermeneutics is phronetic existence with the aim of cultivating practical wisdom in human life It comes from life influences life and transforms life Understanding what is happening in life requires reaching the hermeneutic truth which is the truth of understanding The experience of hermeneutic truth calls for personal commitment and existential response and thus expresses the hermeneutic moral imperative Referring to Heidegger's phenomenological analytics of Dasein Gadamer emphasizes that understanding is not only one of the human capabilities but a way of Dasein's being in the world The Beauty of the Infinite David Bentley Hart, 2004-10-29 The Beauty of the Infinite is a splendid extended essay in theological aesthetics David Bentley Hart here meditates on the power of a Christian understanding of beauty and sublimity to rise above the violence both philosophical and literal characteristic of the postmodern world The book begins by tracing the shifting use and nature of metaphysics in the thought of Kant Hegel Nietzsche Heidegger Lyotard Derrida Deleuze Nancy Levinas and others Hart pays special attention to Nietzsche's famous narrative of the will to power a narrative largely adopted by the world today and he offers an engaging revision though not rejection of the genealogy of nihilism thereby highlighting the significant interruption that Christian thought introduced into the history of metaphysics This discussion sets the stage for a retrieval of the classic Christian account of beauty and sublimity and of the relation of both to the question of being Written in the form of a dogmatica minora this main section of the book offers a pointed reading of the Christian story in four moments or parts Trinity creation salvation and eschaton Through a combination of narrative and argument throughout Hart ends up demonstrating the power of Christian metaphysics not only to withstand the critiques of modern and postmodern thought but also to move well beyond them Strikingly original and deeply rewarding The Beauty of the Infinite is both a constructively critical account of the history of metaphysics and a compelling contribution to it

The Rise of Eurocentrism Vassilis Lambropoulos, 1992-12-14 In the controversy over political correctness the canon and the curriculum the role of Western tradition in a post modern world is often debated To clarify what is at stake Vassilis Lambropoulos traces the ideology of European culture from the Reformation focusing on a key element of Western tradition the act of interpretation as a distinct practice of understanding and a civil right Championed by Protestants insisting on independent interpretation of scripture this ideal of autonomy ushered in the era of modernity with its essentialist philosophy of universal man and his aesthetic understanding of the world After explaining the dominance of European culture through the combined archetypes of Hebraism reason and morality and Hellenism spirit and art Lambropoulos shows how the rule of autonomy has been transformed into the aesthetic disinterested contemplation of things in themselves Arguing that it is time to restore the socio political dimension to the movement of autonomy he proposes that a genealogy of the Hebraic Hellenic archetypes can help us evaluate more recent models like the Afrocentric one and redefine the controversy surrounding

education Eurocentrism and cultural politics
