End Of The Tiger:

Blood of the Tiger J. A. Mills, 2015-11-24 Blood of the Tiger takes readers on a wild ride to save one of the world's rarest animals from a band of Chinese billionaires. Many people think wild tigers are on the road to recovery but they are in greater danger than ever from a menace few experts saw coming. There may be only three thousand wild tigers left in the entire world. More shocking is the fact that twice that many, some six thousand, have been bred on farms not for traditional medicine but to supply a luxury goods industry that secretly sells tiger bone wine, tiger skin, and exotic cuisine enjoyed by China's elite. Two decades ago international wildlife investigator J. A. Mills went undercover to expose bear farming in China and discovered the plot to turn tigers into nothing more than livestock. Thus begins the story of a personal crusade in which Mills mobilizes international forces to awaken the world to a conspiracy so pervasive that it threatens every last tiger in the wild. In this memoir of triumph, heartbreak, and geopolitical intrigue, Mills and a host of heroic comrades try to thwart a Chinese cadre's plan to launch billion-dollar industries banking on the extinction of not just wild tigers but also elephants and rhinos. Her journey takes her across Asia into the jungles of India and Nepal to Russia and Africa, traveling by means from elephant back to presidential motorcade in the company of man-eaters, movie stars, and world leaders. She also journeys to the US where we meet people like Carole Baskin of Big Cat Rescue who work tirelessly to end cub petting and ban private ownership and breeding of tigers and other big cats. She finds reason for hope in the increasing number of Chinese who do not want the blood of the last wild tigers to stain their beloved culture and motherland. Set against the backdrop of China's ascendance to world dominance, Blood of the Tiger tells of a global fight to rein in the forces of greed on behalf of one of the world's most treasured and endangered animals. *Princeton Alumni Weekly*, 1953

The Culture of Fengshui in Korea Hong-key Yoon, 2008-01-01 Hong Key Yoon's book explores the nature of geomantic principles, fengshui, and the culture of practicing them in Korean cultural contexts. He clearly analyzes the nature and historical background of geomancy, the principles for selecting auspicious sites, and provides an extensive interpretation of geomantic principles as practiced in Korea. The impacts of geomancy on traditional cartography, religion, urban development, and finally iconographical warfare are all discussed in great detail.

End of the Tiger and Other Stories John D. MacDonald, 2013-06-11 End of the Tiger and Other Stories, a classic collection of short fiction from crime writer John D. MacDonald, the beloved author of Cape Fear and the Travis McGee series, is now available as an eBook. As prolific a novelist as John D. MacDonald was in his time, his output as a short story writer is simply astonishing. All told, just a fraction of the five hundred pieces he produced as a working writer were anthologized, and End of the Tiger and Other Stories is the first of just a few such collections. Although renowned primarily as a noir author, these fifteen handpicked gems showcase MacDonald's tremendous range. Written between 1947 and 1966 during the golden age of short fiction in America and appearing in such national magazines as Cosmopolitan, The Saturday Evening Post, Collier's, and Ladies Home Journal, these stories are a timeless testament to a writer at the top of his craft.
