Patterson, 2012-03-02 Rev essays from a conference held in Apr 2010 at Georgetown University **Abel Gance and the End of Silent Cinema** Paul Cuff, 2016-11-10 This book explores the creation and destruction of Abel Gance's most ambitious film project and seeks to explain why his meteoric career was so nearly extinguished at the end of silent cinema By 1929 Gance was France's most famous director Acclaimed for his technical innovation and visual imagination he was also admonished for the excessive length and expense of his productions Gance's first sound film *La Fin du Monde* 1930 was a critical and financial disaster so great that it nearly destroyed his career But what went wrong Gance claimed it was commercial sabotage whilst critics blamed the director's inexperience with new technology Neither excuse is satisfactory Based on extensive archival research this book re-investigates the cultural background and aesthetic consequences of Gance's transition from silent filmmaking to sound cinema *La Fin du Monde* is revealed to be only one element of an extraordinary cultural project to transform cinema into a universal religion and propagate its power through the League of Nations From unfinished films to unrealized social revolutions the reader is given a fascinating tour of Gance's lost cinematic utopia

Berinsky,2013-12-03 Over the past century opinion polls have come to pervade American politics Despite their shortcomings the notion prevails that polls broadly represent public sentiment But do they In Silent Voices Adam Berinsky presents a provocative argument that the very process of collecting information on public preferences through surveys may bias our picture of those preferences In particular he focuses on the many respondents who say they don t know when asked for their views on the political issues of the day Using opinion poll data collected over the past forty years Berinsky takes an increasingly technical area of research public opinion and synthesizes recent findings in a coherent and accessible manner while building on this with his own findings He moves from an in depth treatment of how citizens approach the survey interview to a discussion of how individuals come to form and then to express opinions on political matters in the context of

such an interview to an examination of public opinion in three broad policy areas race social welfare and war He concludes that don t know responses are often the result of a systematic process that serves to exclude particular interests from the realm of recognized public opinion Thus surveys may then echo the inegalitarian shortcomings of other forms of political participation and even introduce new problems altogether Silent to Sound Geoff Brown,2024-10-22 Silent cinema was never silent But from the mid 1920s onwards the sound part of the cinema experience was transformed by the arrival of films long and short with clearly audible talk music and sound effects built in It marked the most fundamental shift in cinema technology since cinema s birth The first book devoted to Britain s conversion to talkies and the result of eight years research *Silent to Sound British Cinema in Transition* takes a lively and comprehensive look at the production side of the British sound revolution stretching from experimental efforts in the late 19th century through the sound shorts of the 1920s to the key year of 1929 the year of Hitchcock s *Blackmail* Britain s first home grown talkie feature and the industry turmoil that followed The narrative concludes in 1934 when John Grierson s GPO Film Unit finally acquired sound equipment prompting a late burst of experimentation just when commercial feature soundtracks had settled down Films familiar neglected and unknown are examined overripe melodramas the lost *Black Waters* local versions of Hollywood musicals *Harmony Heaven* visually elaborate science fiction *High Treason* plus newsreels documentaries amateur films and the last phase of British silent production The impact of sound on studio technique is examined along with the industry s complex relations with Britain s strong theatre traditions with Europe and above all cinema s superpower America It s also never forgotten that the sound transition was shaped not just by technology but by the talents foibles and follies of individual people Film history with a human face *Silent Killers* James P. Delgado,Clive Cussler,2011-06-20 *Silent Killers* is a triumph that is educational as well as highly entertaining Clive Cussler James P Delgado President and CEO of the Institute of Nautical Archaeology presents a detailed and visually stunning examination of the history and development of the modern nuclear submarine Calling on his training as a nautical archaeologist who was among the first explorers to dive the Titanic Delgado recreates the story of the submarine from the bottom up that is through eerie photographs of subs at the bottom of the sea In addition he explores submarine technology from wooden to iron to steel hulls from hand cranked to nuclear powered propulsion from candlelight to electricity from gunpowder torpedoes to nuclear missiles An esteemed underwater archaeologist and marine historian Jim Delgado has compiled an extraordinary history of the dragons of the deep **The Ascendancy of the Scientific Dictatorship , No Apology Necessary Atheism Refuted Eternal Causal Intelligence Affirmed A Comprehensive Compendium of Intelligent Refutations to Atheism** Gregory Lessing Garrett,2018-11-15 This book contains my writings other apologetics writers top scientists thinkers and scholars on the topics of Ontology Evolutionary Theory Theology Biogenesis Quantum Physics Philosophy Science Physics Scientism and Epistemology pertaining to the core topic of Refutations to Atheistic Materialism Crucial to consider is the idea that it is not any one refutation or data point of evidence

pointing to the plausibility of there being an Eternal Causal Intelligence that creates a case for the strong possibility of such an Eternal Causal Intelligence a Creator Rather it is the summation of ALL such robust data points and proofs that culminates in an over arching and inescapable conclusion that such a Creator is not only highly plausible and therefore worthy of serious scientific philosophic and theological consideration but moreover to reject such a conclusion based upon the cumulative data is tantamount to an overt confession of scientific malpractice and a glaring Naturalism biases The Different Drum M. Scott Peck,2010-05-11 The overall purpose of human communication is or should be reconciliation It should ultimately serve to lower or remove the walls of misunderstanding which unduly separate us human beings one from another Although we have developed the technology to make communication more efficient and to bring people closer together we have failed to use it to build a true global community Dr M Scott Peck believes that if we are to prevent civilization destroying itself we must urgently rebuild on all levels local national and international and that is the first step to spiritual survival In this radical and challenging book he describes how the communities work how group action can be developed on the principles of tolerance and love and how we can start to transform world society into a true community
