Ender's Game Orson Scott Card, 2017-10-17 This engaging collectible miniature hardcover of the Orson Scott Card classic and worldwide bestselling novel *Ender's Game* makes an excellent gift for anyone's science fiction library. *Ender's Game* is an affecting novel. New York Times Book Review: "Once again Earth is under attack. An alien species is poised for a final assault. The survival of humanity depends on a military genius who can defeat the aliens. But who? Ender Wiggin. Brilliant. Ruthless. Cunning. A tactical and strategic master. And a child. Recruited for military training by the world government, Ender's childhood ends the moment he enters his new home, Battle School. Among the elite recruits, Ender proves himself to be a genius among geniuses. He excels in simulated war games. But is the pressure and loneliness taking its toll on Ender? Simulations are one thing. How will Ender perform in real combat conditions? After all, Battle School is just a game. Isn't it? In order to develop a secure defense against a hostile alien race's next attack, government agencies breed child geniuses and train them as soldiers. A brilliant young boy, Andrew Ender Wiggin, lives with his kind but distant parents, his sadistic brother Peter, and the person he loves more than anyone else, his sister Valentine. Peter and Valentine were candidates for the soldier training program but didn't make the cut. Young Ender is drafted to the orbiting Battle School for rigorous military training. Ender's skills make him a leader in school and respected in the Battle Room where children play at mock battles in zero gravity. Yet growing up in an artificial community of young soldiers, Ender suffers greatly from isolation, rivalry from his peers, pressure from the adult teachers, and an unsettling fear of the alien invaders. His psychological battles include loneliness, fear that he is becoming like the cruel brother he remembers, and fanning the flames of devotion to his beloved sister. Is Ender the general Earth needs? But Ender is not the only result of the genetic experiments. The war with the Buggers has been raging for a hundred years, and the quest for the perfect general has been underway for almost as long. Ender's two older siblings are every bit as unusual as he is, but in very different ways. Between the three of them lie the abilities to remake a world. If that is the world that survives, Orson Scott Card's *Ender's Game* is the winner of the 1985 Nebula Award for Best Novel and the 1986 Hugo Award for Best Novel. Ender's Game opens in the last desperate days of Earth's war against the implacable insectoid aliens. In order to develop a secure defense against a hostile alien race's next attack, government agencies breed child geniuses and train them as soldiers. Ender Wiggin: Brilliant, Ruthless, Cunning. A tactical and strategic master. And a child. Ender's Shadow tells the parallel story of Bean, Bean's desperate struggle to live, and his success brought him to the attention of the Battle School's recruiters: those people scouring the planet for leaders, tacticians, and generals to save Earth from the threat of alien invasion. Bean was sent into orbit to the Battle School. And there he met Ender. Shadow of Hegemon takes us to the period after the War is over, won by Ender Wiggin and his team of brilliant child warriors. The enemy is destroyed, the human race is saved. Ender himself refuses to return to the planet, but his crew has gone home to their families scattered across the globe. The battle school is no more. Ender's Game Orson Scott Card, 1994-07-01. An expert at simulated war games, Andrew Ender Wiggin believes that he is engaged in one more computer war game when in truth he is commanding the last Earth fleet against an alien race seeking Earth's complete destruction.

Ender in Exile Orson Scott Card, 2008-11-11. After twenty-three years, Orson Scott Card returns to his acclaimed best-selling series with the first true direct sequel to the classic *Ender's Game*. In *Ender's Game*, the world's most gifted children were taken from their families and sent to an elite training school. At Battle School, they learned combat strategy and secret intelligence to fight a dangerous war on behalf of those left on Earth. But they also learned some important and less definable lessons about life. After the life-changing events of those years, these children, now teenagers, must leave the school and readapt to life in the outside world. Having not seen their families or interacted with other people for years, where do they go now? What can they do? Ender fought for humanity, but he is now reviled as a ruthless assassin. No longer allowed to live on Earth, he enters into exile. With his sister Valentine, he chooses to leave the only home he's ever known to begin a relativistic and revelatory journey beyond the stars. What happened during the years between *Ender's Game* and *Speaker for the Dead*? What did Ender go through from the ages of 12 through 35? The story of those years has never been told. Taking place 3000 years before Ender finally receives his chance at redemption in *Speaker for the Dead*, this is the long lost story of Ender. For twenty-three years, millions of readers have wondered, and now they will receive the answers. *Ender in Exile* is Orson Scott Card's moving return to all the action and the adventure, the profound exploration of war and society, and the characters one never forgot. On one of these ships, there is a baby that just may share the same special gifts as Ender's old friend Bean.
