authors and dyspeptic artists from a variety of fields including law film science history philosophy political science aesthetics architecture and the classics become for a brief and inspiring instance legislators of impossible norms The collection provides an extra ordinary range of inspired imaginings of other laws This momentary community of radial thought conceives of a wild variety of novel critical perspectives The contributions aim to inspire reflection on the role of imagination in the study and writing of law Verse collage artworks short stories harangues lists and other pleas reports and pronouncements revivify the sense of law as the vehicle of poetic justice and as an art that instructs and constructs life Aimed at an intellectual audience disgruntled with the negativity of critique and the narrowness of the disciplines this book will appeal especially to theorists lawyers scholars and a general public concerned with the future of decaying laws and an increasingly derelict legal system **Music in Print Master Composer Index** ,1995 **Reference Guide to English Literature** D.
