A Quantum City Ludger Hovestadt, Vera Bühlmann, 2015-06-16 We know the specific strengths of various cities are aware of their ranking, are able to discuss their density and growth. But what do all cities have in common? What do we know about the lowest common denominator? The city as a species, the primal genetic material of the city, this is the subject of A Quantum City. This colossal work is a love letter to the city and intellectual culture. We follow the fictional narrative figure Orlando beginning in 320 BC on his odyssey through the Western world up to the present time. The book is divided into four interrelated chapters and can be read page by page in a discursive manner; however, randomly browsing through the book also offers new and multi-faceted interpretations. Great intellectual achievements are compared with obscure and mundane events. A Quantum City offers an inspiring view of the city that is in us and around us.

Media/cultural Studies Rhonda Hammer, Douglas Kellner, 2009 This anthology is designed to assist teachers and students in learning how to better understand and interpret our common culture and everyday life. With a focus on contemporary media, consumer and digital culture, this book combines classic and original writings by both leading and rising scholars in the field. The chapters present key theories, concepts, and methodologies of critical cultural and media studies, as well as cutting-edge research into new media. Sections on teaching media, cultural studies, and concrete case studies provide practical examples that illuminate contemporary culture, ranging from new forms of digital media and consumer culture to artifacts from TV and film, including Barbie and Big Macs, soap operas, Talk TV, Facebook, and YouTube. The lively articles show that media cultural studies is an exciting and relevant arena, and this text should enable students and citizens to become informed readers and critics of their culture and society.
