Enduring Voices:

The Last Speakers K. David Harrison, 2010-09-21 Part travelogue and part scientist's notebook *The Last Speakers* is the poignant chronicle of author K. David Harrison's expeditions around the world to meet with last speakers of vanishing languages. The speakers' eloquent reflections and candid photographs reveal little-known lifeways as well as revitalization efforts to teach disappearing languages to younger generations. Thought-provoking and engaging, this unique book illuminates the global language extinction crisis through photos, graphics, interviews, traditional wisdom, never before translated into English, and first-person essays that thrillingly convey the adventure of science and exploration. **American Voices** Bernard K. Duffy, Richard Leeman, 2005-08-30 Contemporary public speaking remains an important part of our national life and a substantial force in shaping current events. Many of America's most important moments and issues, such as wars, scandals, election campaigns, September 11, 2001, have been defined by oratory. Here, over 50 essays cover a substantial and interesting group of major American social, political, economic, and cultural figures from the 1960s to the present. Each entry explains the biographical forces that shaped a speaker and his or her rhetorical approach, focuses mainly on a discussion of the orator's major speeches within the context of historical events, and concludes with an appraisal of the speaker and his or her contribution to American political and social life. All entries incorporate chronologies of major speeches, bibliographies including primary sources, biographies, and critical studies, and archival collections or Web sites appropriate for student research. Entries include high-profile individuals such as John D. Ashcroft, Elizabeth Dole, Jerry Falwell, Anita Hill, Ralph Nader, Ronald Reagan, Janet Reno, Gloria Steinem, Malcolm X, and many others. Excerpts of major speeches and sidebars complement the text. Ideal for researchers and students in public speaking classes, American history classes, American politics classes, contemporary public address classes, and rhetorical theory/criticism classes. **Funding the Enemy** Douglas A. Wissing, 2012-03-20 With the vague intention of winning hearts and minds in Afghanistan, the US government has mismanaged billions of development and logistics dollars, bolstered the drug trade, and dumped untold millions into Taliban hands. That is the sobering message of this scathing critique of our war effort in Afghanistan. According to this book, America has already lost the war. While conducting extensive research and fieldwork in Afghanistan's war zones, a drumbeat of off-the-record and offhand remarks pointed the author to one conclusion: We blew it. The sentiment was even blazoned across a US military fortification as the author saw at Forward Operating Base Mehtar Lam in insurgency-racked Laghman Province. I glanced over at a concrete blast barrier while waiting for a helicopter, Wissing says. Someone had spray-painted in jagged letters: THE GAME YOU LOST IT. The author's vivid narrative takes the reader down to ground level in frontline Afghanistan. It draws on the voices of hundreds of combat soldiers, ordinary Afghans, private contractors, aid workers, international consultants, and government officials. From these contacts, it became glaringly clear, as the author details, that American taxpayer dollars have been flowing into Taliban coffers courtesy of scandalously mismanaged US development and

counterinsurgency programs with calamitous military and social consequences This is the first book to detail the toxic embrace of American policymakers and careerists Afghan kleptocrats and the opportunistic Taliban The result US taxpayers have been footing the bill for both sides of a disastrous Afghanistan war *U.S. Marines in Afghanistan, 2010-2014*, 2017

Excerpt from *U S Marines in Afghanistan 2010 2014 Anthology and Annotated Bibliography* This volume second part of a series focusing on Marine Corps Actions in Afghanistan presents a collection of 21 articles interviews and speeches describing many aspects of the U S Marine Corps participation in Operation Enduring Freedom from 2010 to 2014 This work is intended to serve as a general overview and provisional reference to inform both Marines and the general public until the U S Marine Corps History Division completes monographs covering major Marine Corps operations during the campaign The accompanying annotated bibliography provides a detailed look at selected sources that currently exist and should be sufficient until new scholarship and archival materials become available This anthology is organized into six parts one section for each year and a final section devoted to a broader overview of Marine participation in the Afghanistan conflict This work is not meant to be an authoritative history but rather a selected record of Marine contributions to the Afghan war effort as captured by the media and other sources Related items United States Marine Corps USMC History publications can be found here <https://bookstore.gpo.gov/catalog/united-states-marine-corps-usmc-history> Afghanistan War publications can be found here <https://bookstore.gpo.gov/catalog/afghanistan-war> Global War on Terror publications can be found here <https://bookstore.gpo.gov/catalog/global-war-terror>

Documenting Endangered Languages Geoffrey Haig, Nicole Nau, Stefan Schnell, Claudia Wegener, 2011-11-30 The rapid decline in the world's linguistic diversity has prompted the emergence of documentary linguistics While documentary linguistics aims primarily at creating a durable accessible and comprehensive record of languages it has also been a driving force in developing language annotation

To Change a Mind John A. McKinnon, 2011 In this companion to his first book *An Unchanged Mind* Dr McKinnon provides invaluable advice to all parents of teenagers and young adults Using case studies gathered from his years helping parents with troubled adolescents the author explores the ways that adolescent development can be derailed in today's complex culture and how parents can prevent this from happening in the first place Dr McKinnon writes about how parents need to recognize their children as individuals with their own feelings and opinions as they start to establish their separate identities as young people and begin to negotiate their way through high school and beyond He also

makes clear that parents must continue to establish limits These allow children to flourish and further their goals within boundaries that enable them to learn the consequences of their actions both good and bad thus providing a fundamental lesson of being an adult The book explains that parental recognition and limit setting work together to promote maturity Packed with examples and sensible and practical advice for parents of pre teens and teenagers To Change a Mind is an essential guidebook for parents seeking to make their lives and the lives of their children richer and more fulfilling as the family navigates together the potentially treacherous seas of adolescence Epimethean Imaginings Raymond

Tallis,2014-09-11 These essays written in the spirit of Goethe s Epimetheus who traces the quick deed to the dim realm of form combining possibilities display the depth and breadth of Tallis s fascination with our lives Whether discussing philosophical hardy perennials like time or a mundane artefact like ink Tallis challenges us to think differently about who we are and why we are The first part of the book Analysis dives into the deep end to explore some of the big questions in philosophy perception knowledge and belief time the relationship between mathematics and reality and probability and causation The middle section Tetchy Interludes takes a wry look at some aspects of contemporary art stupidity including the author s own and Christmas The third part Celebration is more experimental in both its subject matter and treatment It celebrates the complexity of ordinary everyday consciousness by contemplating the miracle of speech artefacts that have transformed our lives and what they reveal about our cognition such as the wheel the sail and ink and snapshots of the author s own consciousness on an ordinary day of past consciousness as captured in historical memory Notwithstanding their diversity in theme and style these essays share the common aim of discovering and celebrating the submerged riches in the quick deeds of our everyday lives and perceptions *People of Kituwah* John D.
