Endymion Spring Matthew Skelton,2006-08-22 You ve stumbled on to something much larger than you can possibly imagine In the dead of night a cloaked figure drags a heavy box through snow covered streets The chest covered in images of mythical beasts can only be opened when the fangs of its serpent s head clasp taste blood Centuries later in an Oxford library a boy touches a strange book and feels something pierce his finger The volume is blank wordless but its paper has fine veins running through it and seems to quiver as if it s alive Words begin to appear on the page words no one but the boy can see And so unfolds a timeless secret Endymion Spring Matthew Skelton,2008-08-01 A boy in an Oxford library touches a

fantasy Arthurian dark fantasy animals and dragons **Landscape in Children's Literature** Jane Carroll,2012-08-06 This book provides a new critical methodology for the study of landscapes in children s literature Treating landscape as the integration of unchanging and irreducible physical elements or topoi Carroll identifies and analyses four kinds of space

sacred spaces green spaces roadways and lapsed spaces that are the component elements of the physical environments of canonical British children s fantasy Using Susan Cooper s The Dark Is Rising Sequence as the test case for this methodology the book traces the development of the physical features and symbolic functions of landscape topoi from their earliest inception in medieval vernacular texts through to contemporary children s literature The identification and analysis of landscape topoi synthesizes recent theories about interstitial space together with earlier morphological and topoanalytical studies enabling the study of fictional landscapes in terms of their physical characteristics as well as in terms of their

relationship with contemporary texts and historical precedents Ultimately by providing topoanalytical studies of other children s texts Carroll proposes topoanalysis as a rich critical method for the study and understanding of children s literature and indicates how the findings of this approach may be expanded upon In offering both transferable methodologies and detailed case studies this book outlines a new approach to literary landscapes as geographical places within socio historical contexts
