Enemies of Rome Iain Ferris, 2003-11-18 The artists of Ancient Rome portrayed the barbarian enemies of the empire in sculpture reliefs metalwork and jewellery *Enemies of Rome* shows how the study of these images can reveal a great deal about the barbarians as well as Roman art and the Romans view of themselves **Enemies of Rome** I. M. Ferris, 2000 The history of the Roman Empire was one of conflict with victory over the various barbarian peoples whose lands lay adjacent to the Roman empire The enemies of Rome were a recurring theme in Roman art There are countless surviving sculptures reliefs pieces of metalwork jewelry which take as their subject these barbarian peoples The book examines the literary historical background to these works exposing the deep seated Roman fear of the barbarian or primitive Analyzes the development of an artistic tradition that reflected the increasing power of barbarians within the empire demonstrates that as the empire declined the savage characteristics of the barbarians came to be portrayed as virtues rather than vices Ill

Gruen, 2011 Cultural identity in the classical world is explored from a variety of angles *Illiterate Geography in Classical Athens and Rome* Daniela Dueck, 2020-11-26 This study is devoted to the channels through which geographic knowledge circulated in classical societies outside of textual transmission It explores understanding of geography among the non elites as opposed to scholarly and scientific geography solely in written form which was the province of a very small number of learned people It deals with non literary knowledge of geography geography not derived from texts as it was available to people educated or not who did not read geographic works This main issue is composed of two central questions how if at all was geographic data available outside of textual transmission and in contexts in which there was no need to write or read And what could the public know of geography In general three groups of sources are relevant to this quest oral communications preserved in writing public non textual performances and visual artefacts and monuments All of these are examined as potential sources for the aural and visual geographic knowledge of Greco Roman publics This volume will be of interest to anyone working on geography in the ancient world and to those studying non elite culture *The Greeks and Romans in the Black Sea and the Importance of the Pontic Region for the Graeco-Roman World (7th century BC-5th century AD): 20 Years On (1997-2017)* Gocha R. geography and power in the Roman world most particularly the visualisation of geographical knowledge in myriad forms of geography products geographical treatises histories poems personifications landscape representations images of barbarian peoples maps itineraries and imported foodstuffs *Barbarians in the Greek and Roman World* Erik Jensen,2018-09-15

What did the ancient Greeks and Romans think of the peoples they referred to as barbari Did they share the modern Western conception popularized in modern fantasy literature and role playing games of barbarians as brutish unwashed enemies of civilization Or our related notion of the noble savage Was the category fixed or fluid How did it contrast with the Greeks and Romans conception of their own cultural identity Was it based on race In accessible jargon free prose Erik Jensen addresses these and other questions through a copiously illustrated introduction to the varied and evolving ways in which the ancient Greeks and Romans engaged with and thought about foreign peoples and to the recent historical and archaeological scholarship that has overturned received understandings of the relationship of Classical civilization to its others The Antonine Wall: Papers in Honour of Professor Lawrence Keppie David J. Breeze,William S. Hanson,2020-04-03 32 papers present research on the Antonine Wall in honour of Lawrence Keppie Papers cover a wide variety of aspects the environmental and prehistoric background structure planning and construction military deployment associated artefacts and inscriptions logistics of supply the people of the Wall including womenfolk and children **Enslaved Leadership in Early Christianity** Dr. Katherine A. Shaner,2018-03-01 Enslaved Leadership in Early Christianity challenges readers to re think common perceptions about how enslaved persons participated in first and second century CE Christian communities Using archaeology and ancient literature the book destabilizes structures of domination and reimagines early Christian communities through the ambiguities of power *Roman Britain Through its Objects* Iain Ferris,2012-09-15 An alternative history of Roman Britain **The Emperor and the World** Alicia Walker,2012-04-30 Byzantine imperial imagery is commonly perceived as a static system In contrast to this common portrayal this book draws attention to its openness and responsiveness to other artistic traditions Through a close examination of significant objects and monuments created over a 350 year period from the ninth to the thirteenth century Alicia Walker shows how the visual articulation of Byzantine imperial power not only maintained a visual vocabulary inherited from Greco Roman antiquity and the Judeo Christian tradition but also innovated on these artistic precedents by incorporating styles and forms from contemporary foreign cultures specifically the Sasanian Chinese and Islamic worlds In addition to art and architecture this book explores historical accounts and literary works as well as records of ceremonial practices thereby demonstrating how texts ritual and images operated as integrated agents of imperial power Walker offers new ways to think about cross cultural interaction in the Middle Ages and explores the diverse ways in which imperial images employed foreign elements in order to express particularly Byzantine meanings *The Oxford Dictionary of Late Antiquity* Oliver Nicholson,2018-04-19 The Oxford Dictionary of Late Antiquity is the first comprehensive reference book covering every aspect of history culture religion and

life in Europe the Mediterranean and the Near East including the Persian Empire and Central Asia between the mid 3rd and the mid 8th centuries AD the era now generally known as Late Antiquity This period saw the re establishment of the Roman Empire its conversion to Christianity and its replacement in the West by Germanic kingdoms the continuing Roman Empire in the Eastern Mediterranean the Persian Sassanian Empire and the rise of Islam Consisting of over 1 5 million words in more than 5 000 A Z entries and written by more than 400 contributors it is the long awaited middle volume of a series bridging a significant period of history between those covered by the acclaimed Oxford Classical Dictionary and The Oxford Dictionary of the Middle Ages The scope of the Dictionary is broad and multi disciplinary across the wide geographical span covered from Western Europe and the Mediterranean as far as the Near East and Central Asia it provides succinct and pertinent information on political history law and administration military history religion and philosophy education social and economic history material culture art and architecture science literature and many other areas Drawing on the latest scholarship and with a formidable international team of advisers and contributors The Oxford Dictionary of Late Antiquity aims to establish itself as the essential reference companion to a period that is attracting increasing attention from scholars and students worldwide

The Rape of Eve Celene Lillie, 2017-01-01 Sex violence power and redemption In recent decades scholars of New Testament and early Christian traditions have given new attention to the relationships between gender and imperial power in the Roman world In this surprising work Celene Lillie examines core passages from three Gnostic texts from Nag Hammadi On the Origin of the World The Reality of the Rulers and the Secret Revelation of John in which Eve is portrayed as having been humiliated by the cosmic powers yet experiencing restoration Lillie compares that pattern with Gnostic savior motifs concerning Jesus and Seth then sets it in the broader context of Roman cosmogonic myths at play in imperial ideology The Nag Hammadi texts she argues offer us a window into symbolic forms of Christian resistance to imperial ideology This groundbreaking study highlights the importance of the Nag Hammadi writings for our fuller appreciation of the currents of Christian response to the Roman Empire and the culture of rape pervasive within it

The Arch of Constantine Iain Ferris, 2013-12-15 The history of one of the most impressive surviving monument in Rome

Beyond Boundaries Susan E. Alcock, Mariana Egri, James F. D. Frakes, 2016-05-01 The Roman Empire had a rich and multifaceted visual culture which was often variegated due to the sprawling geography of its provinces In this remarkable work of scholarship a group of international scholars has come together to find alternative ways to discuss the nature and development of the art and archaeology of the Roman provinces The result is a collection of nineteen compelling essays accompanied by carefully curated visual documentation seven detailed maps and an extensive bibliography organized around the four major themes of provincial contexts tradition and innovation networks and movements and local accents in an imperial context Easy assumptions about provincial dependence on metropolitan models give way to more complicated stories Similarities and divergences in local and regional responses to Rome appear but not always in predictable places and in far from predictable

patterns The authors dismiss entrenched barriers between art and archaeology center and provinces even good art and bad art extending their observations well beyond the empire's boundaries and examining phenomena sites and monuments not often found in books about Roman art history or archaeology The book thus functions to encourage continued critical engagement with how scholars study the material past of the Roman Empire and indeed of imperial systems in general

Claudian the Poet Clare Coombe, 2018-03-22 This comprehensive reassessment of the *carmina maiora* of the fourth century poet Claudian contributes to the growing trend to recognize that Late Antique poets should be approached as just that poets Its methodology is developed from that of Michael Roberts seminal *The Jeweled Style* It analyzes Claudian's poetics and use of story telling to argue that the creation of a story world in which Stilicho his patron becomes an epic hero and the barbarians are giants threatening both the borders of Rome and the order of the very universe is designed to convince his audience of a world view in which it is only the Roman general who stands between them and cosmic chaos The book also argues that Claudian uses the same techniques to promote the message that Honorius young hero though he may seem is not yet fit to rule and that Stilicho's rightful position remains as his regent

Mapping Gender in Ancient Religious Discourses Todd C. Penner, Caroline Vander Stichele, 2007 A collection of essays on early Christian Jewish and Greco Roman religious discourses in antiquity focusing on the construction of gender in relationship to broader cultural and religious themes argumentation and identity formation in the early centuries of the common era

Boudica Britannia Miranda Aldhouse-Green, 2014-05-01 When Roman troops threatened to seize the wealth of the Iceni

people their queen Boudica retaliated by inciting a major uprising allying her tribe with the neighbouring Trinovantes The ensuing clash is one of the most important and dramatic events in the history of Britain standing testament to what can happen when an insensitive colonial power meets determined resistance from a subjugated people head on In this fascinating account of a legendary figure Miranda Aldhouse Green raises questions about female power colonial oppression and whether Boudica would be seen today as a freedom fighter terrorist or martyr
