Socially Responsible Investment Law Benjamin J

Richardson,2008-06-30 Environmental harm is commonly associated with companies that extract consume and pollute our shared natural resources Rarely are the unseen polluters the financiers that sponsor and profit from eco damaging corporations placed at the forefront of the environmental debate By focusing on these unseen polluters Benjamin Richardson provides a comprehensive examination of socially responsible investment SRI and offers a guide to possible reform Richardson proposes that greater regulatory supervision of SRI will help ensure that the financial sector prioritizes ethically based investments In Socially Responsible Investment Law he suggests that new governmental reforms should encourage companies to participate in socially responsible investments by providing a better mix of standards and incentives for SRI through measures that include redefining the fiduciary responsibilities of institutional investors to incorporate environmental concerns By doing so Richardson posits that corporate financiers including banks hedge funds and pension plans will become more accountable to the goals of ensuring sustainable development

The European Dimension of Germany's Energy Transition Erik Gawel,Sebastian Strunz,Paul Lehmann,Alexandra Purkus,2019-02-07

This book addresses the interactions between Germany s energy transition and the EU s energy policy framework It seeks to analyze the manifold connections between the prospects of the proclaimed Energy Union and the future of Germany s energy transition and identifies relevant lessons for the transformation at the EU level that can be learned from the case of Germany as a first mover of transforming energy systems towards renewables The various repercussions political economic and systemic from the national transition are explored within the EU context as it responds to the German transition taking into account both existing frictions and potential synergies between predominantly national sustainability policies and the EU s push towards harmonized policies within a common market The book s overall aim is to identify the most critical issues in order to avoid pitfalls and capitalize on opportunities

Real and Financial Economic Dynamics in Russia and Eastern Europe Timothy Lane,2003-06-18 Russia and many other transition countries are now facing the challenges of opening up restructuring and modernizing their economies which requires addressing numerous institutional weaknesses and supply side distortions From a regional perspective drawing on the experience of other reforming countries the papers examine these issues Aspects addressed

include the implications of trade and capital flows the process of labor market reform financial market development productivity growth and innovation dynamics The dynamics of the reform process are also studied in the context of new political economy models *Internationalization of the Economy and Environmental Policy Options* Paul J.J. Welfens, 2001-08-15 Internationalization of the economy accelerated at the turn of the century Growing national regional and global environmental problems associated with globalization present new challenges for policy makers and international cooperation Crucial problems concern air pollution environmental problems from trade and transportation and global warming This book based on theoretical and empirical analysis comes up with new and innovative policy options including proposals related to the Kyoto protocol *Integration in Asia and Europe* Paul J.J. Welfens, Franz Knipping, Suthiphand Chirathivat, 2006-01-16 Broadening and deepening of economic and political integration are hallmarks of the EU and ASEAN This book critically analyses the economic and institutional changes in both Europe and Asia There is considerable potential for instability but one also finds regional growth opportunities Comparative policy analysis and evaluation of various cooperation strategies are presented Emphasis is on banking financial market dynamics ICT and macroeconomic policies as well as trade energy and environmental issues Legal aspects are combined with historical and economic perspectives Due emphasis also is on the impact of China and the role of international organisations The comparative analysis of EU and ASEAN integration suggests important policy choices including those at the multilateral level **Energy Subsidies: Lessons Learned in Assessing their Impact and Designing Policy Reforms**, 2003 **Energy Efficiency and Renewable Energy Supply for the G-7 Countries, with Emphasis on Germany** Mr. Jon Strand, 2007-12-01 This paper discusses structure impact costs and efficiency of renewable energy supply in the eight largest advanced economies the G 7 plus Spain with focus on Germany Renewables production costs are compared to benefits defined as reductions in net carbon emissions technological innovation and increased energy security The latter part of the paper centers on Germany the main European producer of non traditional renewables We question whether the level of subsidies can be justified relative to other means to increase energy security and reduce carbon emissions We also find an excessive emphasis on current productive activity relative to development of new technologies **Germany's Uncertain Power** H. Maull, 2006-01-26 This comprehensive in depth assessment of the German foreign policy record under the Red Green government of Gerhard Schröder and Joschka Fischer from 1998 to 2005 produced by a team of German and international experts explores the idea of continuity and the sources depths and directions of German foreign policy *50 Years of EU Economic Dynamics* Richard Tilly, Paul J.J. Welfens, Michael Heise, 2007-11-09 On the occasion of the 50th anniversary of the European Union experts present their analyses of historical developments and new economic challenges for the EU After a reflection on historical dynamics the contributors point out the dramatic economic shifts between Europe Asia and the US Representatives from major central banks including the ECB other leading banks and academia analyze the dynamics of the Eurozone and financial

market integration in the context of globalization and economic growth Furthermore the authors discuss the challenges of information and communication technologies by means of various country analyses Moreover the Schumpeterian prospects for Europe and the Lisbon Agenda the long term challenges of EU pension reforms emission trading systems in the EU and options for a new EU constitution are highlighted At the bottom line of this EU analysis are major implications for investors managers policy makers and the public at large in both the EU and the global economy Taxation, Innovation and the Environment OECD,2010-10-13 This report draws on case studies to explore the relationship between environmentally

related taxation and innovation to see whether taxation can spur innovation and if so what types **Economic Opening Up and Growth in Russia** Evgeny Gavrilentov,Paul J.J. Welfens,Ralf Wiegert,2013-03-19 After a decade of sharp economic decline Russia switched to an impressive period of economic growth Yet the economic record is still mixed and many key problems remain unresolved both in the economic sphere and the political system The focus is on economic dynamics in Russia reasons for its hesitant opening up process as well as the special role of the natural resources sector which is expected to continue to grow This analysis highlights the existing deficiencies of the Russian economic system and raises doubts about the sustainability of growth Twin focus is on required reforms and endogenous forces that impair liberalizing trade and investment in an orderly way Russian discussions on WTO and other international topics are reflected

Environmental Sustainability in Transatlantic Perspective Manuela Achilles,Dana Elzey,2013-09-12 Experts from business academia governmental agencies and non profit think tanks to form a transnational and multi disciplinary perspectives on the combined challenges of environmental sustainability and energy security in the United States and Germany

Greening of the European Union Jon Burchell,Simon Lightfoot,2001-01-01 This book critically examines the European Union s developing relationship with the green agenda identifying links between the emerging pattern of green politics and patterns of EU policy making It examines why and how the environment has become such a significant part of the EU s activities and assesses the extent of the greening of the Union In particular it examines to what extent green politics have impacted upon the EU institutions its other policies and its progress towards sustainability In tackling these questions the book questions whether these aims can be effectively instigated given the underlying economic rationale that has been the driving force behind the EU s development so far New Environmental Policy Instruments in the European Union Ian Bailey,2017-07-05 The use of legislation by EU governments to define environmental standards for industry has been criticised for its poor track record in arresting the decline in the quality of Europe s environment Environmental economists in particular have proposed that legislation should be supplemented or replaced by New Environmental Policy Instruments NEPIs such as eco taxes environmental charges tradable permits and voluntary agreements This book focuses on practical experiences with NEPIs in the EU and tests their application using the case study of the Packaging and Packaging Waste Directive It traces the ways in which member states have adapted NEPIs to suit their preferred styles of environmental policy

then assesses their performance and how NEPIs have both assisted and hindered the EU environmental programme It suggests options for ensuring that the environmental programme does not become fragmented by the use of NEPIs and discusses the implications of EU enlargement *Climate Change Policy and Global Trade* Christoph Böhringer, 2004-05-18

This book synthesises several studies on the potential global impacts of two fundamental international policy initiatives i multilateral agreements on climate protection strategies and ii trade agreements towards global trade liberalisation Although these initiatives are not directly linked they interrelate in subtle yet important ways Based on theoretical analyses and numerical simulations the book provides guidelines on efficient strategies for climate change mitigation implementing the framework of the Kyoto Protocol and the provided flexibility instruments hereby accounting for interrelationships with existing and possible trade agreements on various levels The analyses incorporate important real world features such as imperfect market structures trade liberalisation settings risk or transaction costs that may substantially influence the magnitude and even the sign of policy impacts
