Energy in Europe, 1945-1980 Walter Godfried Jensen, 1967 **Energy in Europe, 1945-1980** Walter Godfried Jensen, 1967 Geological Survey Circular Geological Survey (U.S.), 1970 **The Geography of Energy** Gerald Manners, 2019-06-26 Originally published in 1964 and revised in 1971 This is an examination of the three principal factors which influence energy production and consumption and the associated trade in fuel and power market transport and politics Topics discussed include the economics of oil pipelines and tankers the location of electricity generation and of gas manufacture inter fuel competition and national and international energy policies *Energy Security* Sanam S. Haghighi, 2007-08-31 This book offers the first comprehensive assessment of the various internal and external measures undertaken by the European Union to guarantee security of oil and gas supply It sets out and analyses in a coherent and thorough manner those aspects of EU external policy that are relevant in establishing a framework for guaranteeing energy security for the Union What makes the book unique is that it is the first of its kind to bridge the gap between EU energy and EU external policy The book discusses EU policy towards the major oil and gas producing countries of Russia the Mediterranean and the Persian Gulf at the bilateral as well as regional and multilateral level It brings together not only the dimensions of trade and investment but also other important aspects of external policy namely development and foreign policy The author argues that the EU's energy security cannot be achieved through adopting a purely internal approach to energy issues but that it is necessary to adopt a holistic approach to external policy covering efficient economic relations as well as development co operation and foreign policies towards energy producing countries The book will be a valuable resource for students of EU law WTO law or international energy law as well as scholars and practitioners dealing with energy issues Handbook of OPEC and the Global Energy Order Dag Harald Claes, Giuliano Garavini, 2020-01-20 The Organization of the Petroleum Exporting Countries OPEC celebrating its 60th anniversary in 2020 is one of the most recognizable acronyms in international politics The organization has undergone decades of changing importance from political irrelevance to the spotlight of world attention and back and from economic boom for its members to deep political and financial crisis This handbook with chapters provided by scholars and analysts from different backgrounds and specializations discusses and analyzes the history and development of OPEC its global importance and the role it has played and still plays in the global energy market Part I focuses on the relationship between OPEC and its member states Part II examines the relationship between OPEC and its customers the consuming countries and their governments while Part III addresses the relationship between OPEC and its competitors and potential partners the non OPEC producers and the international oil companies The final section Part IV looks at OPEC and the governance of international energy Chapter 20 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license *Selected Sources of Information on United States*
