underpinnings to practical techniques      Work Without Wages Jane L. Collins, Martha E. Gimenez, 1990-03-22 production for family consumption and for the wider market While the importance of women's domestic labor has been generally recognized the complex articulation between household activities and the changing nature of the economy has rarely been examined in greater depth than in this volume The authors explore theoretically and empirically the relationships between household labor wage levels markets economic change and the status of women in the context of both first and third world countries In the process narrowly defined debates are expanded suggesting ways in which our understanding of domestic activities is relevant to studies of petty commodity production and vice versa      **Women in Early Imperial China** Bret

Hinsch, 2010-08-16 After a long spell of chaos the Qin and Han dynasties 221 BCE 220 CE saw the unification of the Chinese Empire under a single ruler government and code of law During this era changing social and political institutions affected the ways people conceived of womanhood New ideals were promulgated and women's lives gradually altered to conform to them And under the new political system the rulers consorts and their families obtained powerful roles that allowed women unprecedented influence in the highest level of government Recognized as the leading work in the field this introductory survey offers the first sustained history of women in the early imperial era Now in a revised edition that incorporates the latest scholarship and theoretical approaches the book draws on extensive primary and secondary sources in Chinese and Japanese to paint a remarkably detailed picture of the distant past Bret Hinsch's introductory chapters orient the nonspecialist to early imperial Chinese society subsequent chapters discuss women's roles from the multiple perspectives of kinship wealth and work law government learning ritual and cosmology An enhanced array of line drawings a Chinese character glossary and extensive notes and bibliography enhance the author's discussion Historians and students of gender and early China alike will find this book an invaluable overview      Caribbean Women Writers and Globalization Helen C.

Scott, 2016-04-08 Caribbean Women Writers and Globalization offers a fresh reading of contemporary literature by Caribbean women in the context of global and local economic forces providing a valuable corrective to much Caribbean feminist literary criticism Departing from the trend towards thematic diasporic studies Helen Scott considers each text in light of its national historical and cultural origins while also acknowledging regional and international patterns Though the work of Caribbean women writers is apparently less political than the male dominated literature of national liberation Scott argues that these women nonetheless express the sociopolitical realities of the postindependent Caribbean providing insight into the dynamics of imperialism that survive the demise of formal colonialism In addition she identifies the specific aesthetic qualities that reach beyond the confines of geography and history in the work of such writers as Oonya Kempadoo Jamaica Kincaid Edwidge Danticat Pauline Melville and Janice Shinebourne Throughout Scott's persuasive and accessible study sustains the dialectical principle that art is inseparable from social forces and yet always strains against the limits they impose Her book will be an indispensable resource for literature and women's studies scholars as well as for those interested in postcolonial

cultural and globalization studies      **The Battle for Britain** Mary Evans, David Morgan, 2002-09-11 It is generally accepted that Britain was held together during the second world war by a spirit of national democratic consensus But whose interests did the consensus serve And how did it unravel in the years immediately after victory This well observed and powerfully argued book overturns many of our assumptions about the national spirit of 1939-45 It shows that the current return to right wing politics in Britain was prefigured by ideologies of change during and immediately after the war      *Creating the Couple* Virginia Wright Wexman, 1993-06-21 This examination of the changing relationships between men and women in modern culture argues that Hollywood film has often been a powerful mirror of American romance and sexuality The author notes also how changing acting styles have led to new types of relationships being depicted on screen      **Subordination of Woman** Mrs. M. A. Kelkar, 1995 Many debates in feminism centre round the issue of subordination of woman Anthropologists and sociologists have tried to trace the origin of subordinate position of woman by giving various explanatory theories The author examines the reductionist and constructionist theories and using a hermeneutic device of the Beejakshetra model explores the images of femininity to be found in the Mahabharata and in the rules of conduct in the Manusmriti She shows how these models of femininity have shaped the life experiences and self interpretation of woman down to present day The last part attempts formulation of a feminist ethic of friendship and raises the discussion beyond protest and recrimination
