Summary

In this chapter, we will examine the sociological and feminist foundations of feminist sociological theory. Feminists argue that that without gender as a central analytic category, social life—work, family, the economy, politics, education, religion—cannot be adequately studied. We will consider the way that sociology has been centered on the male, informed by male perspectives, and dominated by men until relatively recently. We will then take a brief glimpse at the feminist movements in Europe and North America and the way they may have affected the development of feminist sociological theory. At this point we will summarize European and English language feminist sociological theory in the early “Second Wave,” briefly examining how feminist sociologists go about studying social life, and how they explain gendered inequality. Finally, we will pay attention to the changing field of feminist sociological theory, with the contributions and transformations brought by postmodernism, the study of masculinities and sexuality, and transnational feminist scholars.

1. Introduction

Feminist sociological theory is both an academic and a political approach to the study of society. It is critical and didactic; it analyzes and informs. It is inseparable from method. Feminist sociology emerged as a response to the missing gender in classical sociology,

Engendering The Social Feminist Encounters With Sociological Theory

Engendering The Social Feminist Encounters With Sociological Theory:

EBOOK: Engendering the Social N/A Marshall, Anne Witz, 2004-03-16 This edited volume focuses on the problematic engendering of classical and contemporary sociological theory addressing questions such as How were the foundations of sociological theory shaped by an implicit masculinity Did classical sociology simply reflect or actively construct theories of sexual difference How were alternative accounts of the social suppressed in sociology's founding moments Feminist interventions in sociology are still seen as marginal to sociological theorizing This collection challenges this truncated vision of sociological theory In part one contributors interrogate the classical canon exposing the masculinist assumptions that saturate the conceptual scaffolding of sociology In part two contributors consider the long standing and problematic relationship between sociology and feminism retrieving voices marginalized within or excluded from canonical constructions of sociological theory In part three contributors engage with key contemporary debates explicitly engendering accounts of the social Engendering the Social is unique in that it not only critically interrogates sociological theory from a feminist perspective but also embarks on a politics of reconstruction working creatively at the interface of feminist and sociological theory to induce a more adequate conceptualisation of the social This is a key text for undergraduate and postgraduate students in sociology social theory and feminist theory

Engendering the Social Marshall, Anne Witz, 2004-03 This work focuses on the problematic engendering of classical and contemporary theory It considers the relation between sociology and feminism retrieving voices marginalized within or excluded from canonical constructions of sociological theory

The Sociology of Postmarxism Richard Howson, 2017-05-18 Postmarxism is often depicted as a point of intersection for a set of interdisciplinary theories that are in themselves complex and dense Bringing the postmarxist theory of Ernesto Laclau into the field of political sociology through a close reading and analysis of postmarxism and its relationship to the social A Sociology of Postmarxism develops key postmarxist arguments in an engaging and sociologically applicable way Indeed through a threefold method of analysis Howson first unpacks the relationship between the social and the political by analysing key allied theories to show where the points of connection occur This is then followed by an insightful analysis of the key features of postmarxist theory such as antagonism and the inevitability of social dislocation the political importance of hegemony and the empty signifier thesis and equivalence to show how such theory can be applied at a sociological level Finally through the use of sociological categories such as masculinities migration and social capital the foregoing theoretical analyses are synthesised to show the social nature of postmarxism and particularly in the context of aspiration and co-operation This enlightening volume will appeal to undergraduate and postgraduate students as well as postdoctoral researchers who are interested in fields such as Political Sociology Post Marxist Political Theory and Social Theory

Investigating Sociological Theory Charles Turner, 2010-03-30 This is an accessible enlivening introductory book that provides a shot in the arm for all those who maintain the relevance of sociology for understanding the modern world Charles

Turner provides a wealth of concrete examples which demonstrate what a sociological perspective can do to unpack and illuminate everyday life The book allows students to understand sociological theory from the inside It moves effortlessly beyond the mere parade of great names and core ideas to introduce concepts that can be used to understand the social world in which we live where this world has come from and where it might be heading Original informed and deftly written with the needs of students in mind this book is an antidote to arid theorizing and the dull recitation of the grand sociological tradition

The Politics of Making Kinship Erdmute Alber,David Warren Sabean,Simon Teuscher,Tatjana Thelen,2022-12-09 The long tradition of Western political thought included kinship in models of public order but the social sciences excised it from theories of the state public sphere and democratic order Kinship has however neither completely disappeared from the political cultures of the West nor played the determining social and political role ascribed to it elsewhere Exploring the issues that arise once the divide between kinship and politics is no longer taken for granted *The Politics of Making Kinship* demonstrates how political processes have shaped concepts of kinship over time and conversely how political projects have been shaped by specific understandings idioms and uses of kinship Taking vantage points from the post Roman era to early modernity and from colonial imperialism to the fall of the Berlin Wall and beyond this international set of scholars place kinship centerstage and reintegrate it with political theory

foregrounds the emotional dynamics of research relations and explores the personal the political and the situated nature of research journeys The book has been divided into two parts with the essays in the first part establishing a context specific framework for engaging philosophical and theoretical debates in contemporary tourism enquiry The second set of essays then present discuss and critique specific methodologies research techniques methods of interpretation and writing strategies all of which are in some sense illustrative of critical tourism research Contributors range from postgraduate students to established academics and are drawn from both the geopolitical margins and the powerbases of the tourism academy Their various relationships with the English speaking academy thus range from relative outsider to well positioned insider and as a result their essays are reflective of a range of locations within the complexly spun web of academic power relations and social divisions

Modern Motherhood and Women's Dual Identities Petra Bueskens, 2018-05-31
 Why do women in contemporary western societies experience contradiction between their autonomous and maternal selves What are the origins of this contradiction and the associated double shift that result in widespread calls to either lean in or opt out How are some mothers subverting these contradictions and finding meaningful ways of reconciling their autonomous and maternal selves In Modern Motherhood and Women's Dual Identities Petra Bueskens argues that western modernisation consigned women to the home and released them from it in historically unprecedented yet interconnected ways Her ground breaking formulation is that western women are free as individuals and constrained as mothers with the twist that it is the former that produces the latter Bueskens theoretical contribution consists of the identification and analysis of modern women's duality drawing on political philosophy feminist theory and sociology tracking the changing nature of discourses of women freedom and motherhood across three centuries While the current literature points to the pervasiveness of contradiction and double shifts for mothers very little attention has been paid to how some women are subverting contradiction and rewriting the sexual contract Bridging this gap Bueskens interviews ten revolving mothers to reveal how periodic absence exceeding the standard work day disrupts the default position assigned to mothers in the home and in turn disrupts the gendered dynamics of household work A provocative and original work Modern Motherhood and Women's Dual Identities will appeal to graduate students and researchers interested in fields such as Women and Gender Studies Sociology of Motherhood and Social and Political Theory

[G.D.H. Cole and British Sociology](#)
 Matt Dawson, 2024-12-01
 This book explores G D H Cole's significant yet often overlooked role in the history of British Sociology from 1920-1960 Eager to achieve a sense of scientific legitimacy following its institutionalisation in the early 1900s British sociology had no space for a scholar like Cole who saw sociology as an innately normative and political project which

in his case was dedicated to the development of socialism Conceptualising Cole's relationship to sociology as one of semi-alienation suggesting an openness to the principles of the discipline yet disagreement with the form it takes in the current day Dawson shows how Cole made a number of important sociological contributions which were grounded in an early form of structuration theory including the production of one of Britain's first sociology textbooks and an early monograph on the sociology of class A passionate advocate for what sociology could be Cole was a promoter of the sociological Marx and interrogator of Durkheim as part of his desire to develop sociology in Britain including at his own institute of the University of Oxford Cole also produced a distinctive corpus of public and creative sociology expressed in newspaper articles poems and songs Drawing on archival research Dawson reintegrates Cole into the history of British Sociology and in so doing offers valuable insight into sociology's history and its contemporary form emphasising a normative critical and public form of the discipline

Gender, Truth and State Power Anette Ballinger, 2016-07-01 This book is concerned with critically analysing the importance of the status of knowledge in establishing truth about female defendants convicted of murder during the 20th Century While the abolition of the death penalty in the UK has insured that the impact of this knowledge is no longer one of life and death modern cases such as that of Sally Clark whose guilty verdict

was eventually overturned nevertheless demonstrate the devastating impact that those with the power to define the truth still have on the lives of individuals who are unable to construct a dominant truth of their own during their trials Using the key themes of truth gender and power the book also focuses on agency and rationality in relation to female criminality masculinity and miscarriages of justice Challenging official discourse which historically has incorporated entrenched constructions of women who kill as mad bad or tragic victims this book argues for the creation of new subject positions and alternative discourses within which female violence can be understood

Outsiders Or Equals? Tanya Fitzgerald, 2009 Shortlisted for the Anne Bloomfield Prize 2010 Across the ninety years of its history the University of New Zealand 1871 1961 appointed four women professors to the academic staff From the outset while the woman professor was an insider to the Academy based on her qualifications and professional credentials on the basis of her gender she was a relative outsider to this deeply patriarchal institution Accordingly academic women and in particular this first generation of women professors were officially invisible both to their male colleagues and to the institution This is not to suggest that the presence of a woman professor was unproblematic or that she sat easily on the margins of men's scholarly worlds This book traces the personal and professional histories of each woman professor and examines their contribution to the expansion of higher education for women On the basis of extensive archival research in New Zealand England and the United States the author uses Bourdieu's notions of habitus field and capital to analyse this intellectual community of women and the professionalisation of academic work The book rehabilitates the woman professor from the margins of historical scholarship and offers an insight into a forgotten aspect of the history of women's higher education the history of women and the professoriate
