**Human Rights and Social Responsibility: A Reflection** Dr Gaurav Gaur,2022-07-07 The book Human Rights and

Social Responsibility A Reflection edited by Dr Gaurav Gaur is a significant contribution in the body of knowledge that helps in understanding the challenges of today's society. The book touches upon the scope of human rights with respect to vulnerable sections of society like children, adolescents, women, the elderly and contractual labour. The collection of empirical and field studies on issues of mental health, adoption, environment, governance, drug abuse, water sanitation helps in not only understanding the existing and emerging areas of concern but is also a reflection on how governmental, non-governmental and particularly social workers can come together to provide the sustainable solutions for these challenges. Even in today's time, some of us understand the discipline and essence of Social Work. We sometimes interchangeably use the terms such as social work, social service and social welfare without understanding the basic difference.

**Violence Against Women and the Law** David L Richards, Jillienne Haglund, 2015-11-17 This book examines the strength of laws addressing four types of violence against women: rape, marital rape, domestic violence and sexual harassment in 196 countries from 2007 to 2010. It analyzes why these laws exist in some places and not others and why they are stronger or weaker in places where they do exist. The authors have compiled original data that allow them to test various hypotheses related to whether international law drives the enactment of domestic legal protections. They also examine the ways in which these legal protections are related to economic, political and social institutions and how transnational society affects the presence and strength of these laws. The original data produced for this book make a major contribution to comparisons and analyses of gender violence and law worldwide.

**Women, Law and Human Rights** Fareda Banda, 2005-10-04 Africa with its mix of statute, custom and religion is at the centre of the debate about law and its impact on gender relations. This is because of the centrality of the gender question and its impact on the cultural relativism debate within human rights. It is therefore important to examine critically the role of law broadly constructed in African societies. The book focuses on women's experiences in the family. This is because the lives of women continue to be lived out largely in the private domain where the right to privacy is used to conceal unequal treatment of women which is justified by invoking custom and tradition. The book shows how law and its interpretation is used to disenfranchise women resulting in their being deprived of land and other property which they may have helped to accumulate. It also considers issues of violence within the home, reproductive rights and examines the issue of female genital cutting. The role of women in development is explored as is their participation in politics and the NGO sector. A major theme of the book is a consideration of the linkages of constitutional and international human rights norms with local values. This is done using feminist tools of analysis. The book considers the provisions of the Protocol to the African Charter on Human and People's Rights on the Rights of Women which was adopted by the African Union in July 2003.

**Market-Led Agrarian Reform** Saturnino Borrás Jr., Cristóbal Kay, Edward Lahiff, 2013-09-13 Three fourths of the world's poor are rural poor. Most of the rural poor remain dependent on land-based livelihoods for their incomes and reproduction despite significant livelihood diversification in recent years. Land issue remains critical to any development discourse today. Market

led agrarian reform MLAR has gained prominence since the early 1990s as an alternative to state led land reforms This neoliberal policy is based on the inversion of what its proponents see as the features of earlier approaches and calls for redistribution via privatized decentralized transactions between willing sellers and willing buyers Its proponents especially those associated with the World Bank have claimed success where the policy has been implemented but such claims have been contested by independent scholars as well as by peasant movements who are struggling to gain access to land This book presents three thematic papers and six country studies The thematic papers address issues of formalisation of property rights gendered land rights and neoliberal enclosure These studies demonstrate the pervasive influence of neoliberal ideas on property rights and rural development debates well beyond the core question of land redistribution The country cases bring together experiences from Brazil Guatemala El Salvador Philippines South Africa and Egypt Common findings include the success of landowners in minimising the impact of reform and a lack of post transfer support translating into marginal impact on poverty The limitations of the market led approach and the implications of the studies presented here for the future of agrarian reform are considered in the editors introduction This book was a special issue of The Third World Quarterly

**Capabilities, Gender, Equality** Flavio Comim, Martha C. Nussbaum, 2014-04-17 Questions of gender injustice and equality pervade all our lives and as such the capabilities or human development approach to understanding well being and basic political entitlements continues to be debated In this thought provoking book a range of authors provide unique reflections on the capabilities approach and specifically Martha C Nussbaum s contributions to issues of gender equality and political liberalism Moreover the authors tackle a broad range of development issues including those of religion ecological and environmental justice social justice child care disability and poverty This is the first book to examine Nussbaum s work in political philosophy in such depth bringing together a group of distinguished experts with diverse disciplinary perspectives It also features a unique contribution from Nussbaum herself in which she offers reactions to the discussion and her latest thoughts on the capabilities approach Capabilities Gender Equality will interest a wide range of readers and policymakers interested in new human development policies

DIVCollection of essays on issues of women and development attempting to bridge theory and practice in the post 9 11 era to reflect debates in various realms from the environment land rights and identity to information technology employment and poverty div Gender Equality in Conditional Cash Transfer Designs Nora Nagels,2024-08-29 Few aspects of social policy have been more controversial than the effects of Conditional Cash Transfers CCTs on gender relations and policy outcomes on gender relations are linked to policy designs Development and social policy communities have recognized gender equality

as a cornerstone of development and social progress Nonetheless designing policy to integrate gender equality goals into social policies is rendered that much more complicated as and when these policies travel In Mexico in 1997 the first CCT Progresa looked quite different than CCTs look today Embedded in the design was Affirmative Action geared toward girls as was a clearly enunciated concern about the program s effects on female empowerment For the 2005 Peruvian CCT Juntos the story was very different Its design did not include any gender equality goals and it reproduced long standing social policy legacies of gendered exclusions Therefore this book is about the alteration of Conditional Cash Transfer designs in relation to gender equality goals as they have made their way through Latin America as well as through the World Bank This book aims to account for the fading goal of gender equality Jensen 2015 across time as part of this regional trajectory In short it tracks the how and the why of this trajectory in relation to gender equality goals     **Military Review** ,2017     *Professional Journal of the United States Army* ,2008
