England An Oxford Archaeological Guide To Sites From Earliest Times To Ad 16:

England Timothy Darvill, Jane Timby, Paul Stamper, 2002 Traveling around England is in many senses a journey back in time On all sides and sometimes even under the road or footpath itself there are fragments of the ancient past alongside the clutter of the modern world Medieval villages castles ancient churches and Roman villas are commonplace and take us back to the time of Christ And far older yet equally abundant are the barrows hillforts stone circles camps standing stones trackways and other relics of prehistoric times Now thanks to these three archaeologists each a specialist in one of the three periods covered by the Guide prehistoric Roman and medieval readers have the chance to not only explore but to understand in context these fascinating sites and ruins In addition to reporting on such well known sites as Stonehenge and Hadrian's Wall and cities such as London and York which themselves offer a wealth of archaeological remains the book also covers smaller lesser known sites throughout the country An introductory section provides background to the monuments and a reference section provides definitions further reading and information about museum collections Finally there are 200 photographs plans and maps that depict and describe these ancient remains in detail

Animals and Sacred Bodies in Early Medieval Ireland John Soderberg, 2022-01-04 Clonmacnoise was among the busiest most economically complex and intensely sacred places in early medieval Ireland In Animals and Sacred Bodies in Early Medieval Ireland Religion and Urbanism at Clonmacnoise John Soderberg argues that animals are the key to understanding Clonmacnoise's development as a thriving settlement and a sacred space At this sanctuary city on the River Shannon animal bodies were an essential source of food and raw materials They were also depicted extensively on religious objects Drawing from new theories about the intersections between religion and economics John Soderberg explores how transformations emerging from animal encounters made Clonmacnoise a sacred settlement and created the sacred bodies of early medieval Ireland

Cattle in Ancient and Modern Ireland Fergus Kelly, James H. McAdam, Michael O'Connell, 2016-04-26 Cattle have been the mainstay of Irish farming since the Neolithic began in Ireland almost 6000 years ago Cattle and especially cows have been important in the life experiences of most Irish people directly and or through legends such as the T in B Cuailnge The Cattle raid of Cooley In this book diverse aspects of cattle in Ireland from the circumstances of their first introduction to recent and ongoing developments in the management of grasslands still the main food source for cattle in Ireland are explored in thirteen essays written by experts New information is presented and several aspects relating to cattle husbandry and the interactions of cattle and people that have hitherto received little or no attention are discussed

The Daily Discoveries of a Bible Scholar and Manuscript Hunter: A Biography of James Rendel Harris (1852-1941) Alessandro Falcetta, 2018-05-31 This is the first full biography of James Rendel Harris 1852-1941 Bible and patristic scholar manuscript collector Quaker theologian devotional writer traveller folklorist and relief worker Drawing on published and unpublished sources gathered in the United States Europe and the Middle East many of which were previously unknown Alessandro

Falchetta tells the story of Harris's life and works set against the background of the cultural and political life of contemporary Britain. Falchetta traces the development of Harris's career from Cambridge to Birmingham, the story of his seven journeys to the Middle East and of his many campaigns from religious freedom to conscientious objection. The book focuses upon Harris's innovative contributions in the field of textual and literary criticism, his acquisitions of hundreds of manuscripts from the Middle East, his discoveries of early Christian works, in particular the Odes of Solomon, his Quaker beliefs and his studies in the cult of twins. His enormous output and extensive correspondence reveal an indefatigable genius in close contact with the most famous scholars of his time, from Hort to Harnack, Nestle, the Sisters of Sinai and Frazer.

Excavations at Tlachtga, Hill of Ward, Co. Meath, Ireland Stephen Davis, Caitríona Moore, 2024-04-30. Initial remote sensing survey at Tlachtga Co. Meath in 2011-12 highlighted the presence of multiple partially overlapping phases of enclosure at the site. Three subsequent seasons of excavation provided critical interpretive evidence with over 15,000 fragments of animal bone, human remains, charred plant material, evidence of metalworking and a hoard of Anglo-Saxon silver coins dating to the late 10th century AD. The main activity at the site spans four broad periods and two main phases of monumental construction: a late Bronze Age to early Iron Age Hillfort Phase (1100-400 BC) and a late Iron Age to early medieval AD 400-600 ringfort phase associated with a smaller foundation enclosure, the Southern Enclosure. This ringfort phase was remodeled later in the early medieval period (9th-10th century AD) and augmented by a phase of mound construction in the mid 10th century AD. This is contemporary with the deposition of the coin hoard east of the main complex in an apparent craft working area. The final phase of the central mound indicates the construction of a timber stockade most likely in the 12th century, again with significant craft activity. This volume represents the excavation of at least four loci within the broader monumental landscape of Tlachtga, charting its progression from Bronze Age hillfort to pre-Anglo-Norman power display mound. The excavations at the Hill of Ward and this publication were made possible through funding by the National Monuments Service via the Royal Irish Academy archaeological research excavation grants and by Meath County Council with additional support by the Office of Public Works and the Heritage Council.

The Hammer and the Cross Robert Ferguson, 2009. Now with the chamber boarded up, came what was probably the heart of the proceedings. Four or five dogs and two more oxen were slaughtered, as well as fifteen horses that had first been run to exhaustion. The furniture, tools and carriages scattered across the foredeck were bathed in their blood. Stones were then piled over the ship, breaking many of the grave

goods and rendering them unusable The sights and sounds accompanying such an orgy of blood letting we might perhaps be able to imagine the atmosphere conjured by it probably not As the mourners then set about completing the mound the sight before them must have been eerie and awe inspiring the blood spattered ship with its cargo of dead women seeming to lurch forward across the field in a last attempt to shake off the engulfing wave of dark earth rising behind it The meadow flowers preserved from this stage of the proceedings were autumnal showing that the whole process from the opening of the furrow to the closing of the mound must have taken about four months Clearly at least one of the women had died long before the burial took place

Digging Through the Bible Richard A Freund,2023-06-14 A masterful and eminently readable journey through the fascinating insights and revelations of Biblical archeology Publishers Weekly starred review Many of our religious beliefs are based on faith alone but archaeology gives us the opportunity to find evidence about what really happened in the distant past evidence that can have a dramatic impact on what and how we believe In Digging Through the Bible archaeologist and rabbi Richard Freund takes readers through digs he has led in the Holy Land searching for evidence about key biblical characters and events Digging Through the Bible presents overviews of the evidence surrounding figures such as Moses Kings David and Solomon and Mary the mother of Jesus as well as new information that can help us more fully understand the life and times in which these people would have lived Freund also presents new evidence about finding the grave of the Teacher of Righteousness mentioned in the Dead Sea Scrolls and gives a compelling argument about how the Exodus of the Israelites may have taken place in three separate waves over time rather than in a single event as presented in the Bible

Lincolnshire Past & Present ,2002 Ireland's First Settlers Peter Woodman,2015-12-31 Ireland s First Settlers tells the story of the archaeology and history of the first continuous phase of Ireland s human settlement It combines centuries of search and speculation about human antiquity in Ireland with a review of what is known today about the Irish Mesolithic This is in part provided in the context of the author s 50 years of personal experience searching to make sense of what initially appeared to be little more than a collection of beach rolled and battered flint tools The story is embedded in how the island of Ireland its position distinct landscape and ecology impacted on when and how Ireland was colonized It also explores how these first settlers evolved their technologies and lifeways to suit the narrow range of abundant resources that were available The volume concludes with discussions on how the landscape should be searched for the often ephemeral traces of these early settlers and how sites should be excavated It asks what we really know about the thoughts and life of the people themselves and what happened to them as farming began to be introduced

The New Cambridge Bibliography of English Literature: Volume 1, 600-1660 George Watson, Ian Roy Willison, 1974-08-29 More than fifty specialists have contributed to this new edition of volume 1 of The Cambridge Bibliography of English Literature The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis articulation and coordination that it has been retained in all its essentials for the new edition The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries **Scenes from Prehistoric Life** Francis Pryor, 2021-08-05 An invigorating journey through Britain's prehistoric landscape and an insight into the lives of its inhabitants Highly compelling Spectator Books of the Year An evocative foray into the prehistoric past BBC Countryfile Magazine Vividly relating what life was like in pre Roman Britain Choice Magazine Makes life in Britain BC often sound rather more appealing than the frenetic and anxious 21st century Daily Mail In Scenes from Prehistoric Life the distinguished archaeologist Francis Pryor paints a vivid picture of British and Irish prehistory from the Old Stone Age about one million years ago to the arrival of the Romans in AD 43 in a sequence of fifteen profiles of ancient landscapes Whether writing about the early human family who trod the estuarine muds of Happisburgh in Norfolk c 900 000 BC the craftsmen who built a wooden trackway in the Somerset Levels early in the fourth millennium BC or the Iron Age denizens of Britain's first towns

Pryor uses excavations and surveys to uncover the daily routines of our ancient ancestors. By revealing how our prehistoric forebears coped with both simple practical problems and more existential challenges, Francis Pryor offers remarkable insights into the long and unrecorded centuries of our early history and a convincing, well-attested and movingly human portrait of prehistoric life as it was really lived.
