## **End Of Life Nursing Care:**

**Nursing Care at the End of Life** Joyce V Zerwekh, 2005-12-28 *Nursing Care at the End of Life* Palliative Care for Patients and Families explores the deep issues of caring for the dying and suffering. The book is based on the Hospice Family Caregiving Model previously published by the author and focuses on the practice implications of care for the dying. The book is written in a clear and user friendly style and is ideal for undergraduate nursing students learning about dying, suffering and caring for individuals and their families. [Palliative Care Nursing](#) Marianne Matzo, Deborah Witt Sherman, 2006

Annotation: Offering a blend of holistic and humanistic caring coupled with aggressive management of pain and symptoms associated with advanced disease, this resource is organized around 15 competencies in palliative care developed by the American Association of Colleges of Nursing, with each chapter outlining specific skills needed to achieve each competency.

*Palliative and End of Life Nursing Care* Beth Hardy, Kate Flemming, 2023-05-05 Mapped to the 2018 NMC Standards and written with the support of a student advisory board, this is the ultimate resource for developing students' confidence and competence in end of life care. **Nursing Care at the End of Life** Ginny Wacker Guido, 2010

*Nursing Care at the End of Life* by Ginny Wacker Guido incorporates many of the chapter features in *High Acuity Nursing* 5th ed by Kathleen Dorman Wagner. Using this format, the author presents material ranging from the legal and ethical aspects that affect care to the clinical issues nurses face when dealing with acute illness, pain, and dying, to communication and family dynamics. Case studies give readers an opportunity to process and apply the chapter material. The role of the nurse is highlighted throughout the book, and each chapter is followed by NCLEX style review questions. This is a perfect reference for anyone studying to become a nurse or a nurse needing a professional resource for career success. **Palliative Care Nursing** Marianne

Matzo, Marianne L. Matzo, Deborah Witt Sherman, 2018-06-28 This 5th edition is an important achievement; it is a symbol of commitment to the field of palliative nursing where we have been and where we are going. Betty Rolling Ferrell PhD MA FAAN FPCN CHPN From the Foreword: The aging population has only grown since the first edition of this comprehensive and seminal publication nearly 20 years ago. Based on the need to humanize rather than medicalize the illness experience for patients, this text delves into palliative care beyond the specific diseases affecting the patient. Instead, content focuses on the whole person and family. Palliative patients struggle with chronic debilitating and painful conditions and grapple with the fact that life as they knew it has already passed away. Families and friends reciprocally suffer, not knowing how to help and therefore become the secondary victims of the disease. This is not the challenge of a lone nurse or a single physician, therapist, or social worker. Rather, palliative and hospice care requires the expertise and unique roles of an interprofessional team to help the patient and family strengthen their resilience, continue to find meaning and purpose in life, and cure what can be cured. *Palliative Care Nursing* Fifth Edition delivers advanced empirical, aesthetic, ethical, and personal knowledge. This new edition brings an increased focus on outcomes, benchmarking progress, and goals of care. It expounds upon the importance of

the cross disciplinary collaboration introduced in the previous edition Every chapter in Sections I II and III includes content written by a non nursing member of the interprofessional team Based on best evidence and clinical practice guidelines this text presents comprehensive targeted interventions responsive to the needs of palliative and hospice patients and family Each chapter contains compassionate timely appropriate and cost effective care for diverse populations across the illness trajectory Key Features The expanded new edition offers current comprehensive one stop source of highly relevant clinical information on palliative care Life span approach age appropriate nursing considerations e g geriatric pediatric and family Includes disease specific and symptom specific nursing management chapters Promotes a holistic and interdisciplinary approach to palliative care Offers important legal ethical and cultural considerations related to death and dying Case Studies with Case Study Conclusion in each clinical chapter New to The Fifth Edition An expanded chapter on Palliative Care incorporates most up to date scope and standards information on Basic and Advanced HPNA certification self reflection and self care for nurses A chapter on Interprofessional Collaboration Instructor Resources Power points and Test bank
