**Before Jackie Robinson** Gerald R. Gems,2017-02 While the accomplishments and influence of Jack Johnson Joe Louis Jesse Owens Jackie Robinson and Muhammad Ali are doubtless impressive solely on their merits these luminaries of the Black sporting experience did not emerge spontaneously Their rise was part of a gradual evolution in social and power relations in American culture between the 1890s and 1940s that included athletes such as jockey Isaac Murphy barnstorming pilot Bessie Coleman and golfer Teddy Rhodes The contributions of these early athletes to our broader collective history and their heroic confrontations with the entrenched racism of their times helped bring about the incremental changes that after 1945 allowed for sports to be more fully integrated Before Jackie Robinson details and analyzes the lives of these lesser known but important athletes within the broader history of Black liberation These figures not only excelled in their given sports but also transcended class and racial divides in making inroads into popular culture despite the societal restrictions placed on them They were also among the first athletes to blur the line between athletics entertainment and celebrity culture This volume presents a more nuanced account of early Black American athletes lives and their ongoing struggle for acceptance relevance and personal and group identity

**The Slums of Aspen** Lisa Sun-Hee Park,David Pellow,2013-07-22 Winner Allan Schnaiberg Outstanding Publication Award presented by the Environment Technology section of the American Sociological Association How the elite ski resort reshaped the socio economic and demographic landscape in pursuit of profit and pleasure Environmentalism usually calls to mind images of peace and serenity a oneness with nature and a shared sense of responsibility But one town in Colorado under the guise of

environmental protection passed a resolution limiting immigration bolstering the privilege of the wealthy and scapegoating Latin American newcomers for the area's current and future ecological problems. This might have escaped attention save for the fact that this wasn't some rinky dink backwater. It was Aspen, Colorado, playground of the rich and famous and the West's most elite ski town. Tracking the lives of immigrant laborers through several years of exhaustive fieldwork and archival digging, *The Slums of Aspen* tells a story that brings together some of the most pressing social problems of the day: environmental crises, immigration, and social inequality. Park and Pellow demonstrate how these issues are intertwined in the everyday experiences of people who work and live in this wealthy tourist community. Offering a new understanding of a little known class of the super elite of low wage immigrants mostly from Latin America who have become the foundation for service and leisure in this famous resort and of the recent history of the ski industry, Park and Pellow expose the ways in which Colorado boosters have reshaped the landscape and altered ecosystems in pursuit of profit and pleasure. Of even greater urgency, they frame how environmental degradation and immigration reform have become inextricably linked in many regions of the American West, a dynamic that interferes with the efforts of valorous environmental causes, often turning away from conservation and toward insidious racial privilege.

*Covert Racism* Rodney D. Coates, 2011-06-09 *Covert Racism* subtle, often hidden form of racism is explored through a multi-disciplinarian lens. The volume challenges the notion of a post-racial America.

*The Hamptons Dictionary* Miles Jaffe, 2008-04-01 A Devil's Dictionary for the modern age. *The Hamptons Dictionary* is a wicked social satire and hysterical lexical send-up of the rich and famous who flock to the Hamptons each summer and the locals who count the minutes until Labor Day when they leave. While Eastern Long Island, New York's swanky beach community is the inspiration for Miles Jaffe's hilariously scathing look at the misadventures of the overloaded, it will be thoroughly enjoyed by anyone who has experienced what happens wherever the uber-rich set up camp.

*Wealth, Whiteness, and the Matrix of Privilege* Jessica Holden Sherwood, 2012-07-10 Exclusive social clubs are traditionally an important site for the consolidation of upper class power. *Wealth, Whiteness, and the Matrix of Privilege* shows that while the particulars of admission have changed, these clubs remain socially significant incubators. Having interviewed typically inaccessible members of exclusive clubs in the Northeast, Jessica Holden Sherwood reports and analyzes what they have to say about who is in, who is out, and why. The members talk frankly about their exclusiveness based on money and style, but they are quick to point out that ethnically based exclusion is a thing of the past. Club members also address the status of their women members, which is at times distinctly second class. The talk of country club members is shown to draw on elements in popular discourse. And even if it's not their intention, as club members exclude and account for their exclusion, they contribute to reproducing class, race, and gender inequalities.

*Billy Joel* Joshua S. Duchan, 2017-06-16 Despite his tremendous success, Billy Joel's gifts as a composer and commentator on American life are long overdue for a thorough investigation. In *Billy Joel: America's Piano Man*, music historian Joshua S. Duchan looks at the career and music of this remarkable singer.

songwriter exploring the unique ways Joel channels and transforms the cultural life of a changing America over four decades into bestselling song after song and album after album Billy Joel has not always enjoyed the acclaim of music critics who have characterized his music as inauthentic and lacking a uniqueness of style Duchan corrects this misunderstanding by exploring the depth and degree to which Joel's songs engage with social cultural political and economic issues Organized by major themes and including original interviews with Joel himself Duchan's book delves into Joel's endeavors as a musician lyricist and commentator on questions of geography and regionalism politics working and middle class culture human relationships and the history of music itself Duchan draws on key songs from Joel's career to explore each theme from his folk like lament for Long Island's changing industry and lifestyle in The Downeaster Alexa to his emotional ode to Vietnam veterans in Goodnight Saigon Original interviews with Billy Joel blend with Duchan's engaging analysis to provide readers of all backgrounds and ages a new look at these unforgettable songs Music lovers and historians of both the academic and armchair variety will find this exploration of Joel's work a rewarding adventure into America's social cultural political economic and above all musical history

**A Place to Call Home** Ernesto Castañeda,2018-05-29 As immigrants settle in new places they are faced with endless uncertainties that prevent them from feeling that they belong From language barriers to differing social norms to legal boundaries separating them from established residents they are constantly navigating shifting and contradictory expectations both to assimilate to their new culture and to honor their native one In *A Place to Call Home* Ernesto Castañeda offers a uniquely comparative portrait of immigrant expectations and experiences Drawing on fourteen years of ethnographic observation and hundreds of interviews with documented and undocumented immigrants and their children Castañeda sets out to determine how different

locations can aid or disrupt the process of immigrant integration Focusing on New York City Paris and Barcelona immigration hubs in their respective countries he compares the experiences of both Latino and North African migrants and finds that subjective understandings local contexts national and regional history and religious institutions are all factors that profoundly impact the personal journey to belonging

**In Levittown's Shadow** Tim Keogh, 2023-11-03 Named one of the best nonfiction books of 2023 by Publishers Weekly There is a familiar narrative about American suburbs after 1945 white residents left cities for leafy affluent subdivisions and the prosperity they seemed to embody In *Levittown's Shadow* tells us there's more to this story offering an eye opening account of diverse poor residents living and working in those same neighborhoods Tim Keogh shows how public policies produced both suburban plenty and deprivation and why ignoring suburban poverty doomed efforts to reduce inequality Keogh focuses on the suburbs of Long Island home to Levittown often considered the archetypal suburb Here military contracts subsidized well paid employment welding airplanes or filing paperwork while weak labor laws impoverished suburbanites who mowed lawns built houses scrubbed kitchen floors and stocked supermarket shelves Federal mortgage programs helped some families buy orderly single family homes and enter the middle class but also underwrote landlord efforts to cram poor families into suburban attics basements and sheds Keogh explores how policymakers ignored suburban inequality addressing housing segregation between cities and suburbs rather than suburbanites demands for decent jobs housing and schools By turning our attention to the suburban poor Keogh reveals poverty wasn't just an urban problem but a suburban one too In *Levittown's Shadow* deepens our understanding of suburbia's history and points us toward more effective ways to combat poverty today

*Privileging Place* Meaghan Stiman, 2024-06-18 How second homeowners strategically leverage their privilege across multiple spaces In recent decades Americans have purchased second homes at unprecedented rates In *Privileging Place* Meaghan Stiman examines the experiences of predominantly upper middle class suburbanites who bought second homes in the city or the country Drawing on interviews with more than sixty owners of second homes and ethnographic data collected over the course of two years in Rangeley Maine and Boston Massachusetts Stiman uncovers the motivations of these homeowners and analyzes the local consequences of their actions By doing so she traces the contours of privilege across communities in the twenty first century Stiman argues that for the upper middle class residents of suburbia who bought urban or rural second homes the purchase functioned as a way to balance a desire for access to material resources in suburban communities with a longing for a more meaningful connection to place in the city or the country The tension between these two contradictory aims explains why homeowners bought second homes how they engaged with the communities around them and why they ultimately remained in their suburban hometowns The second home is a place identity project a way to gain a sense of place identity they don't

find in their hometowns while still holding on to hometown resources Stiman's account offers a cautionary tale of the layers of privilege within and across geographies in the twenty first century

**Investing in Enchantment** Michelle Janning, 2024-08-06 Should we keep the family cabin or list it on Airbnb U S second homes are formally classified as investment properties used primarily for financial gain or vacation homes primarily reserved for personal use but what have families actually been doing with them before during and after COVID 19 lockdowns Today's desire for authenticity and family connectedness has made family vacation homes a compelling site to examine how we think of labor and leisure whom we include as family members and neighbors and how all of this is represented both spatially and materially Framed as a magical place for family members to look back on nostalgically the family vacation home remains an enchanted and memory filled site that is artificially removed from the marketplace even if it is rented to others for their family vacations It is meant to be a magical escape from the challenges of work and family stress politics and social inequalities In reality the family vacation home requires labor has financial value as a piece of family wealth and the magic is not accessible to all In *Investing in Enchantment* Michelle Janning tells a new story about the cultural meanings and structural outcomes surrounding family vacation homes today

**September 12** Gregory Smithson, 2011 The collapse of the World Trade Center shattered windows across the street in Battery Park City throwing the neighbourhood into darkness and smothering homes in debris Residents fled In the months and years after they returned they worked to restore their community Until September 11 Battery Park City had been a secluded wealthy enclave just west of Wall Street in downtown Manhattan one with all the opulence of the surrounding corporate headquarters yet with a gated suburban feel After the towers fell it became the most visible neighbourhood in New York Suddenly everyone had an opinion about what should be rebuilt there The dramatic changes in their surroundings forced Battery Park City residents to step into the spotlight and fight to control their exclusive enclave Smithson's look at an elite planned community near the heart of New York City's financial district examines both the struggles and shortcomings of one of the city's wealthiest neighbourhoods In doing so *September 12* discovers the vibrant exclusivity that makes Battery Park City an unmatched place to live for the few who can gain entry Focusing on both the global forces that shape local landscapes and the exclusion that segregates American urban development Smithson shows the tensions at work as the neighbourhood's residents mobilized to influence reconstruction plans *September 12* reveals previously unseen conflicts over the redevelopment of Lower Manhattan providing a new understanding of the ongoing reciprocal relationship between social conflicts and the spaces they
