End Of The Modern World:

Ratio in Relatione Anthony Hollowell,2020-10-29 For nearly every important decision we often receive the same advice think for yourself Such a statement assumes that rational thought is a type of do it yourself project that what a person thinks is derived from one s independent human existence But there are some critical thinkers who challenge this assumption showing the ways in which rational thought is molded and determined in forceful ways by various elements that lie outside the free choices of an individual According to both Alexis de Tocqueville and Romano Guardini structural elements within various cultures exhibit a distinct power over rational thought and dispose human persons to specific patterns of logic and according to their evidence what a person thinks is inextricably bound to their relationships In this book the social dimensions of rational thought can be more clearly seen even by those conditioned to think that they can think for themselves

Tomorrow's Troubles Paul Scherz,2022 Probabilistic predictions of future risk govern much of society healthcare genetics social media national security and finance Both policy makers and private companies are increasingly working to design institutional structures that seek to manage risk by controlling the behavior of citizens and consumers using new technologies of predictive control that comb through past data to predict and shape future action These predictions not only control social institutions but also shape individual character and forms of practical reason Risk based decision theory shifts people s relationships to the future through knowledge of possible dangers and foregone opportunities thus inspiring anxious solicitude and deceptive hopes for total security This book uses virtue ethics to analyze these problems and to suggest ways to enjoy these technologies positive benefits while constraining their dangerous aspects through a better understanding of practical reasoning and a theological analysis of our responsibility for future risks

On Care for Our Common Home, Laudato Si' Pope Francis,McDonagh, Sean,2016-03-08 Brings together the full text of Laudato Si with reflections by Sean McDonagh one of the foremost Catholic proponents of ecological awareness In addition to an overview of the history of Catholic teaching and the environment he elaborates on several of the specific themes in the encyclical including climate change biodiversity water scarcity the threats to the ocean and the crisis of food He concludes with prescriptions about what must be done to turn the vision of Pope Francis into a program of effective action Each of us has a role to play As Pope Francis observes All it takes is one good person to restore hope

Laudato Si and Laudate Deum Pope Francis,2024-12-26 In this combined edition of the full texts of Laudato Si and Laudate Deum Pope Francis draws all Christians into a dialogue with every person on the planet about our common home As human beings we are united by concern for our planet and every living thing that dwells on it especially the poorest and most vulnerable Pope Francis second encyclical Laudato Si On Care for Our Common Home joins the body of the Church s social and moral teachings and draws on the best scientific research in calling for an integrated ecology between humanity and nature In his apostolic exhortation Laudate Deum Praise God Pope Francis expounds upon the theme of human ecology presented in Laudato Si and the idea that humans and the environment

are inextricably intertwined This follow up to Laudato Si looks at what has happened since the encyclical was released and what still needs to be done This edition includes discussion questions making it perfect for individual or group study

Renewing Theology J. Matthew Ashley, 2022-07-15 This comprehensive study investigates the role that Ignatian spirituality has played in the renewal of academic theology using three prominent Jesuits as case studies Over several centuries spirituality has come to define a field of concerns and themes increasingly treated separately from those of academic theology as if the latter had little relation to the former This raises the question for us today How is spirituality related to the practice of theology In *Renewing Theology* J Matthew Ashley provides an answer by turning to Ignatian spirituality and three prominent twentieth century theologians who embraced its spiritual resources Karl Rahner Ignacio Ellacur a and Jorge Mario Bergoglio that is Pope Francis Ashley begins his investigation by considering the historical origins of the widening separation between spirituality and academic theology in the Christian West He provides an initial overview of Ignatian spirituality focusing on the openness and multidimensionality of Ignatius of Loyola s Spiritual Exercises presented here as a text in which the conditions of modernity that defined its author s world are present at least incipiently Ashley then offers three case studies in order to show how each Jesuit Rahner Ellacur a and Pope Francis responded to the challenges of modernity in a way that is uniquely nourished and illuminated by themes constitutive of Ignatian spirituality Their theologies Ashley suggests evince a particular clarity and force when the Ignatian spirituality that animates them is foregrounded Providing new and productive avenues into understanding the theologies of these three individuals this sophisticated and enlightening book will interest scholars and students of systematic theology as well as readers who are interested in the future of theology and spirituality in a fragmented age

Cosmic Chastity in an Age of Technocratic Lust: A Song of Three Popes Jeremiah Barker, 2023-04-12 This book arises from the conviction that the ways in which John Paul II and Benedict XVI were confused as allies with American conservatism is as misleading unclear and confusing as any misapprehension of Francis s genuine orthodoxy As the author does not have a stake in reacting against a liberal Catholicism that he sees dying out anyway the bigger threat in his view sociologically for the North American church is falling into a right wing tribalism and Francis resists precisely that First Things editor R R Reno highly critical of Francis has called for a redemption of hints and suggestions of a cogent argument in the Francis message Jeremiah Barker reappropriates Reno s call as a call to draw out or highlight what he takes to be the underlying rationale of the Francis message That underlying rationale he compellingly argues is strikingly identical to that of the two previous popes Barker who has learned much from Reno is in fact inspired by Francis s call and teaching and it is the aim of this book to draw out what inspires him and to identify what he hopes Reno and fellow John Paul II Catholics don t miss in the Francis message the theological ethical and spiritual core of his social teaching which Francis shares with that of John Paul II and Benedict XVI

The Living God and the Fullness of Life Jürgen Moltmann, 2015-11-06 Modern humanity has accepted a truncated impoverished definition of

life Focusing solely on material realities we have forgotten that joy purpose and meaning come from a life that is both immersed in the temporal and alive to the transcendent We have in other words ceased to live in God In this book renowned theologian J rgen Moltmann shows us what that life of joy and purpose looks like Describing how we came to live in a world devoid of the ultimate he charts a way back to an intimate connection with the biblical God He counsels that we adopt a theology of life an orientation that sees God at work in both the mundane and the extraordinary and that pushes us to work for a world that fully reflects the life of its Creator Moltmann offers a telling critique of the shallow values of consumerist society and provides a compelling rationale for why spiritual sensibilities and encounter with God must lie at the heart of any life that seeks to be authentically human

Romano Guardini Romano Guardini,2023-03-01 This book is not just a history To be sure it offers an historical account of the life of Romano Guardini 1885 1968 as recounted by Guardini himself However it is not simply about the past Precisely because it deals with the life of a faithful and thoughtful person the book is also about the present and projects itself into the future For as Guardini always insisted leading a thoughtful and faithful life means being oriented toward the good life that is toward the vision of a just and loving community This orientation does not just happen by itself nor can it be imposed or dictated from above but has to be nurtured steadily by hearts open to the voice of the Spirit and the call of truth Seen in this way Romano Guardini occupies a crucial place in the world in his world in ours and in the world to come As he emphasizes beautifully at the end of his memoir Narratives of My Life Autobiographical Notes he never considered himself as an isolated individual nor as the spokesman of a dominant ideology or doctrine Rather his work was always energised by and in dialogue with a broader context a context which one of his mentors Max Scheler aptly called the life world

Spirituality and Society David Ray Griffin,1988-01-01 This book takes a genuinely new spiritual stance reflecting the emergence of a post modern science and differing from the relativistic nihilism that calls itself postmodern but is really modernism extended to its limit Based on a direct experience of reality as divine this postmodern spirituality transcends modernity s individualism and patriarchy its forced choices between dualism and materialism anthropocentrism and relativism supernaturalism and atheism intolerance and nihilism Bringing moral and ethical values back into rational discourse this book provides a critique of various aspects of modern society political economic social agricultural and technological aspects This criticism informed by the postmodern worldview points toward a more satisfying form of personal existence and a sustainable form of global order

Taking It Big Steven P. Dandaneau,2001-01-24 For use as a primary or supplemental text for Introductory Sociology Social Theory and senior capstone courses An unabashedly critical text for those who want to connect their students personal experiences with what is happening at the societal global level today The emphasis is on teaching the sociological imagination i e to instill in students a unique and radical form of consciousness that will allow them to conceptualize today s chief global and individual problems and the relations between them Dandaneau adopts a perspective like that of C Wright Mills and argues that the sociological imagination is the most

needed type of consciousness in the world today The author encourages students to think through a wide variety of topics from ecological crises to panic disorder from hyperreality to the sociology of disability from Generation X to Generation Next As Dandaneau says The point is not so much to learn the truth but to learn how to think about essential issues and troubles as sociologists themselves try to do to become a participant with others in facing down the challenges of our present epoch It is an elegant and profound meditation on thinking sociologically Written with a rare panache one seldom finds in sociology it is the product of a view of contemporary social life that is profoundly troubling What this adds up to is a distinctive sociological and moral voice Peter Kivisto Augustana College Rock Island Illinois *American Gnosis* Arthur

Versluis,2023-10-20 Drawing from the early Christian heretical category of Gnosticism *American Gnosis* explores the emergence of new forms of Gnostic religion throughout the Americas Arthur Versluis explores the concept of Gnosis and examines neo gnostic elements in contemporary American culture including in religion literature film and politics

Flannery O'Connor Ted R. Spivey,1997 This volume draws on the author s six year correspondence with Flannery O Connor in this evaluation of the Southern writer as an intellectual and as a student of the Western tradition in literature and religion He emphasizes her deep connection with writers such as Joyce and Bernanos in the context of the Modernist tradition and discusses how her study of these religious writers influenced her visions of world apocalypse and religious community The author studies the revealed tensions and interrelationships of O Connor s secular intellect versus her religious intellect Startling Figures Michael O'Connell,2023-08-01 *Startling Figures* is about Catholic fiction in a secular age and the rhetorical strategies Catholic writers employ to reach a skeptical indifferent or even hostile audience Although characters in contemporary Catholic fiction frequently struggle with doubt and fear these works retain a belief in the possibility for transcendent meaning and value beyond the limits of the purely secular Individual chapters include close readings of some of the best works of contemporary American Catholic fiction which shed light on the narrative techniques that Catholic writers use to point their characters and their readers beyond the horizon of secularity and toward an idea of transcendence while also making connections between the widely acknowledged twentieth century masters of the form and their twenty first century counterparts This book is focused both on the aspects of craft that Catholic writers employ to shape the reader s experience of the story and on the effect the story has on the reader One recurring theme that is central to both is how often Catholic writers use narrative violence and other similar disorienting techniques in order to unsettle the reader These moments can leave both characters within the stories and the readers themselves shaken and unmoored and this O Connell argues is often a first step toward the recognition and even possibly the acceptance of grace Individual chapters look at these themes in the works of Flannery O Connor J F Powers Walker Percy Tim Gautreaux Alice McDermott George Saunders and Phil Klay and Kirstin Valdez Quade *The Coming of God* Jürgen Moltmann,Margaret Kohl,2004-07-27 Winner of Grawemeyer Award In this remarkable and timely work in many ways the culmination of his systematic theology

world renowned theologian Jurgen Moltmann stands Christian eschatology on its head Moltmann rejects the traditional approach which focuses on the End an apocalyptic finale as a kind of Christian search for the final solution He centers instead on hope and God s promise of new creation for all things Christian eschatology he says is the remembered hope of the raising of the crucified Christ so it talks about beginning afresh in the deadly end Yet Moltmann s novel framework deeply informed by Jewish and messianic thought also fosters rich and creative insights into the perennially nettling questions of eschatology Are there eternal life and personal identity after death How is one to think of heaven hell and purgatory What are the historical and cosmological dimensions of Christian hope What are its social and political implications In a heartbreakingly fragile and fragment world Moltmann s comprehensive eschatology surveys the Christian vista bravely envisioning our horizons of expectation for personal social even cosmic transformation in God **The Ten Green**
