American Caesars Nigel Hamilton, 2010-09-07 An insightful portrait of U S presidents from Franklin D Roosevelt to George W Bush Hamilton examines their unique characters their paths to Pennsylvania Avenue their effectiveness as global leaders and their lessons in governance both good and bad **Sputnik** Paul Dickson, 2019-12-27 On October 4 1957 the day Leave It to Beaver premiered on American television the Soviet Union launched the space age Sputnik all of 184 pounds with only a radio transmitter inside its highly polished shell became the first artificial satellite in space while it immediately shocked the world its long term impact was even greater for it profoundly changed the shape of the twentieth century Paul Dickson chronicles the dramatic events and developments leading up to and resulting from Sputnik's launch Supported by groundbreaking original research and many declassified documents Sputnik offers a fascinating profile of the early American and Soviet space programs and a strikingly revised picture of the politics and personalities behind the facade of America's fledgling efforts to get into space The U S public reaction to Sputnik was monumental In a single weekend Americans were wrenched out of a mood of national smugness and postwar material comfort Initial shock at and fear of the Soviets intentions galvanized the country and swiftly prompted innovative developments that define our world today Sputnik directly or indirectly influenced nearly every aspect of American life from an immediate shift toward science in the classroom to the arms race that defined the Cold War the competition to reach the moon and the birth of the internet By shedding new light on a pivotal era Dickson expands our knowledge of the world we now inhabit and reminds us that the story of Sputnik goes far beyond technology and the beginning of the space age and that its implications are still being felt today **Ibss: Political**

Science: 1992 British Library of Political and Economic Science, 1993 The IBSS is the essential tool for librarians university departments research institutions and any public or private institution whose work requires access to up to date and comprehensive knowledge of the social sciences **New Cosmic Horizons** David Leverington, 2000 New Cosmic Horizons tells the extraordinary story of space based astronomy since the Second World War Starting with the launch of the V2 rocket in 1946 this book explores the triumphs of space experiments and spacecraft designs and the amazing astronomical results that they have produced It also examines the fascinating way in which the changing political imperatives of the USA USSR and Western Europe have modified their space astronomy programmes This history of astronomy from space is extensively illustrated and unique in its coverage of such a broad range of topics in language accessible to amateur and professional astronomers and other technically minded readers All major astronomy missions of the first fifty years of space research are covered the Soviet Sputnik and American Explorer projects the subsequent race to the moon solar and planetary missions and the wonders of modern astrophysics culminating in the exciting results of the Hubble Space Telescope to Global Security Hussein Solomon, 2007-10-24 Ours is an age of great upheaval where change sometimes appears to be the only constant Three of the most important forces driving such change are globalization regionalization and democratization This substantial work makes a concerted attempt to understand these forces and to show how they impact on the vitally important question of global security The volume brings together a wide range of scholars who hold diverse views and who collectively make a very significant contribution to current discourses within international relations and contemporary geopolitics Such is the book s breadth that it covers every region of the world addressing in turn security problems in the USA Latin America South Asia South East Asia Europe Russia and environs the Middle East and Africa Each discourse receives substantial coverage from economics and politics to religion religious fundamentalism and human rights Challenges to Global Security offers one of the richest comparative volumes yet to be published on the subject and will have strong appeal to students scholars and policymakers in the fields of international relations ethics and politics The American Century Norman F. Cantor, 1997 Varieties of Culture in Modern Times Vietnamese Communists' Relations with China and the Second Indochina Conflict, 1956-1962 Ang Cheng Guan, 2024-12-18 According to the final declaration of the 1954 Geneva Conference general elections were to be held in July 1956 that would lead to the reunification of North and South Vietnam The Geneva agreement was however doomed from the start as the South Vietnamese leaders did not suscribe to it and the leaders of the Communist North saw its value primarily as propaganda By 1956 it was obvious that reunification was impossible and the North Vietnamese looked to China for advice and assistance Based on Vietnamese Chinese American and British sources many only recently made available this work examines Sino Vietnamese relations in the early stages of the second Indochina conflict and reveals that the Hanoi government was remarkably in control of its own decision making **Rethinking International Relations** Fred Halliday, 1994-10-26 International Relations as an academic discipline is

faced with three major convergent challenges a historical challenge from the end of the Cold War and from new forms of internationalism and fragmentation an institutional challenge from the growing preoccupation of other social sciences with the international and a theoretical challenge both from these cognate disciplines and from within Ranging widely over the discipline Fred Halliday's book powerfully reaffirms the specificity of International Relations and lays the basis for a long overdue reformulation The Fifty-year War Norman Friedman,2000 Did the West win or did inherent flaws doom the Soviet system from the start BOOK JACKET Thomas Friedman, 2019-05-01 Contemporary Authors New Revision Series, 2001-08 In response to the escalating need for up to date information on writers Contemporary Authors New Revision Series brings researchers the most recent data on the world's most popular authors.
