**The Mystery of the Grail** Julius Evola, 2018-07-13 In this important study of the meaning of the Grail one of Europe's greatest esoteric philosophers discloses the pre-Christian and initiatic sources of this symbolic motif that is so central to Western mythology and culture He demonstrates how the main features of the legend are from an older tradition analogous to the great heroic sagas and cycles of the North and that the Grail itself is a symbol of initiation Evola uncovers the hidden meaning in the often surreal adventures of the knights who searched for the Grail interpreting them as inner experiences and tests for the seeker He also explores the history of the myth in the Middle Ages its use by the Knights Templar and the Cathars its legacy during the decline of the Holy Roman Empire and its links with Rosicrucianism alchemy and Masonry This excursion into the realm of the Grail throws new light on an endlessly fascinating subject
