An Informal History of the Hugos Jo Walton, 2018-08-07 Engaged passionate and consistently entertaining *An Informal History of the Hugos* is a book about the renowned science fiction award for the many who enjoyed Jo Walton's previous collection of writing from Tor.com the Locus Award winning *What Makes This Book So Great* The Hugo Awards named after pioneer science fiction publisher Hugo Gernsback and voted on by members of the World Science Fiction Society have been presented since 1953 They are widely considered the most prestigious awards in science fiction Between 2010 and 2013 Jo Walton wrote a series of posts for Tor.com surveying the Hugo finalists and winners from the award's inception up to the year 2000 Her contention was that each year's full set of finalists generally tells a meaningful story about the state of science fiction at that time Walton's cheerfully opinionated and vastly well informed posts provoked valuable conversation among the field's historians Now these posts lightly revised have been gathered into this book along with a small selection of the comments posted by SF luminaries such as Rich Horton Gardner Dozois and David G Hartwell A remarkable guided tour through the field a kind of nonfiction companion to *Among Others* It's very good It's great New York Times bestselling author Cory Doctorow Boing Boing on *What Makes This Book So Great* *Ender's Game* Orson Scott Card, 2010-04-01 From New York Times bestselling author Orson Scott Card *Ender's Game* adapted to film starring Asa Butterfield and Harrison Ford is the classic Hugo and Nebula award winning science fiction novel of a young boy's recruitment into the midst of an interstellar war In order to develop a secure defense against a hostile alien race's next attack government agencies breed child geniuses and train them as soldiers A brilliant young boy Andrew Ender Wiggin lives with his kind but distant parents his sadistic brother Peter and the person he loves more than anyone else his sister Valentine Peter and Valentine were candidates for the soldier training program but didn't make the cut young Ender is the Wiggin drafted to the orbiting Battle School for rigorous military training Ender's skills make him a leader in school and respected in the Battle Room where children play at mock battles in zero gravity Yet growing up in an artificial community of young soldiers Ender suffers greatly from isolation rivalry from his peers pressure from the adult teachers and an unsettling fear of the alien invaders His psychological battles include loneliness fear that he is becoming like the cruel brother he remembers and fanning the flames of devotion to his beloved sister Is Ender the general Earth needs But Ender is not the only result of the genetic experiments The war with the Buggers has been raging for a hundred years and the quest for the perfect general has been underway for almost as long Ender's two older siblings are every bit as unusual as he is but in very different ways Between the three of them lie the abilities to remake a world If that is the world survives Orson Scott Card's *Ender's Game* is the winner of the 1985 Nebula Award for Best Novel and the 1986 Hugo Award for Best Novel *THE ENDER UNIVERSE* Ender series *Ender's Game* *Ender in Exile* *Speaker for the Dead* *Xenocide* *Children of the Mind* *Ender's Shadow* series *Ender's Shadow* *Shadow of the Hegemon* *Shadow Puppets* *Shadow of the Giant* *Shadows in Flight* *Children of the Fleet* *The First Formic War* with Aaron

the Nebula Awards to their peers since 1965. In all this time lists of winners have been widely available but the losers have usually been ignored. In 1970 long time fan Howard DeVore started publishing a complete listing of Hugo and Nebula awards including the stories that were nominated but did not win. The fact that stories were nominated implied that they had considerable merit. Mr DeVore felt that a complete listing would let fans compare them. The International Fantasy Awards may have inspired the Hugos so he added them. DeVore brought out new editions year by year publishing and distributing them himself with the aid of a number of devoted science fiction fans. By 1998 the task had grown to the point where Mr DeVore happily relinquished the job to Advent. This edition includes introductory and historical essays explaining how each award got started and how nominees and winners are chosen plus commentary in the yearly listings.

The History of the Science-fiction Magazine Michael Ashley, 2000. This third volume in Mike Ashley's four volume study of the science fiction magazines focuses on the turbulent years of the 1970s when the United States emerged from the Vietnam War into an economic crisis. It saw the end of the Apollo moon programme and the start of the ecology movement. This proved to be one of the most complicated periods for the science fiction magazines. Not only were they struggling to survive within the economic climate they also had to cope with the death of the father of modern science fiction, John W. Campbell Jr, while facing new and potentially threatening opposition. The market for science fiction diversified as never before with the growth in new anthologies, the emergence of semi-professional magazines, the explosion of science fiction in college, the start of role playing, gaming magazines, underground and adult comics and with the success of Star Wars media magazines. This volume explores how the traditional science fiction magazines coped with this from the death of Campbell to the start of the major popular science magazine *Omni* and the first
