Ending child poverty Walker, Robert, 1999-10-06 In the Beveridge Lecture delivered on 18 March 1999 Prime Minister Tony Blair committed his government to abolishing child poverty within 20 years He concluded that the present day welfare state is not fitted to the modern world and laid out his vision for a welfare state for the 21st century Blair's vision grounded in a particular conception of social justice is perhaps as challenging as the blueprint laid down by Beveridge Ending child poverty presents Blair's Beveridge Lecture alongside the views of some of Britain's foremost policy analysts and commentators This unique collection makes it possible to not only read the ideas of leading current thinkers in this critical area of policy but also to compare them with the Prime Minister's lecture and to see which ideas he himself took up and in what form Ending child poverty is a record of not only the Lecture itself but also of the ideas available to government and their influence on its leader at an important moment in the formation of policy It provides a rich tapestry on analysis insight and reflection that will it is to be hoped stimulate critical debate about the future shape of British welfare This collection is essential reading for anyone interested in the future of modern society and politics and provides an accessible handbook for undergraduate students of politics social policy and sociology *Public Policy for the 21st Century* Fraser, Neil, Hills, John, 2000-12-06 This book draws together a collection of lively and authoritative essays on the future of public policy by distinguished academics in the field Compiled in memory of Henry Neuburger a leading economic analyst and adviser the essays together form an excellent introduction to key issues in contemporary policy making **Discovering child poverty**

Platt, Lucinda, 2005-01-19 Child poverty is currently regarded by many as the number one issue in Britain Yet it has not always been so high on the policy agenda What were attitudes to poor children 200 years ago How did child poverty emerge as both a quantifiable and urgent issue And how did policy makers respond These are the questions that this book tackles The book presents a broad but sophisticated overview of 200 years of investigation into and responses to the plight of poor children identifies key moments and figures of the period includes chapters on children and work education and child poverty research to provide the essential context for the story of the discovery of child poverty Clearly and accessibly written this book provides a concise but richly detailed account of the subject It will appeal to policy makers practitioners researchers and all those with an interest in child poverty wishing to understand the antecedents of current research and policy Studies in poverty inequality and social exclusion series Series Editor David Gordon Director Townsend Centre for International Poverty Research Poverty inequality and social exclusion remain the most fundamental problems that humanity faces in the 21st century This exciting series published in association with the Townsend Centre for International Poverty Research at the University of Bristol aims to make cutting edge poverty related research more widely available For other titles in this series please follow the series link from the main catalogue page **Childhood poverty and social exclusion** Ridge, Tess, 2002-10-02 Childhood poverty has moved from the periphery to the centre of the policy agenda following New Labour's

pledge to end it within twenty years However whether the needs and concerns of poor children themselves are being addressed is open to question The findings raise critical issues for both policy and practice in particular the finding that children are at great risk of experiencing exclusion within school School has been a major target in the drive towards reducing child poverty However the policy focus has been mainly about literacy standards and exclusion from school This book shows that poor children are suffering from insufficient access to the economic and material resources necessary for adequate social participation and academic parity Childhood poverty and social exclusion will be an invaluable teaching aid across a range of academic courses including social policy sociology social work and childhood studies All those who are interested in developing a more inclusive social and policy framework for understanding childhood issues from a child centred perspective including child welfare practitioners and policy makers will want to read this book Studies in poverty inequality and social exclusion series Series Editor David Gordon Director Townsend Centre for International Poverty Research Poverty inequality and social exclusion remain the most fundamental problems that humanity faces in the 21st century This exciting series published in association with the Townsend Centre for International Poverty Research at the University of Bristol aims to make cutting edge poverty related research more widely available For other titles in this series please follow the series link from the main catalogue page

**Disabling Migration Controls** Rebecca Yeo, 2024-06-10 When people are prevented from meeting their needs the impact is disabling whether in the immigration system or in the wider population Drawing on many years of research and activism this book argues that insights from the disabled people s movement particularly the original Social Model of Disability can be usefully extended to focus resistance on the disabling restrictions imposed on people subject to asylum and immigration controls While acknowledging the pain and discomfort of many impairments and of forced displacement the book focuses on injustices that can be changed It does not catalogue the hostility of the hostile environment Nor does it promote inclusive asylum restrictions An unjust system is not transformed by including disabled people Policies designed to deprive people of essential needs and to stoke hatred among the wider population are core elements of the rise of fascism In this context bringing together movements for disability and migrant justice could help build urgently needed solidarity and resistance with which to develop a society based on equity and common humanity Quotations and images are used to convey the messages and priorities of disabled people seeking asylum ensuring that the book is both engaging and grounded in the insights of lived experience This book will interest people seeking to improve social justice including scholars of disability migration sociology and politics
