

Ends And Odds To Art

Liying Dong

Ends And Odds To Art:

The End of Art Eva Geulen, 2006 Since Hegel the idea of an end of art has become a staple of aesthetic theory This book analyzes its role and its rhetoric in Hegel Nietzsche Benjamin Adorno and Heidegger in order to account for the topic s enduring persistence In addition to providing a general overview of the main thinkers of post Idealist German aesthetics the book explores the relationship between tradition and modernity For despite the differences that distinguish one philosopher s end of art from another s all authors treated here turn the end of art into an occasion to thematize and to reflect on the very thing that modernism cannot or should not be tradition As a discourse the end of art is one of our modern traditions
