Ends Of Mourning:

The Ends of Mourning Alessia Ricciardi, 2003 The Ends of Mourning explores from an interdisciplinary perspective the contemporary crisis of mourning In an age skeptical of history and memory we relate to the past only as a spectacle a product to be consumed in the cultural marketplace The book charts the emergence and development of the problem of mourning in the writings of Freud Proust and Freud's successor Lacan Freud's idea of sorrow work and Proust's concept of involuntary memory defined the terms of the classic modernist account of mourning in the fields of psychoanalysis and literature Yet their insistence on the egotistical aspects of loss to the exclusion of all ethical and political considerations threatens the dissolution of the question of mourning **Cross-Categorical Classification** Serge Sagna, 2022-03-07

Languages in which non finite verbs infinitives gerunds etc are classified using the same linguistic means as nouns are rare This typologically unusual phenomenon is found in some Atlantic Niger Congo languages including Jola languages like Eegimaa Fogny and Kwatay where several different noun class gender prefixes NCPs are used to classify both nouns and verbs In this book it is argued following Sagna 2008 that these parallel morphosyntactic classifications in the nominal domain and verbal domains also reflect parallel semantic categorisation of entities and events The main topics investigated in this book are word class flexibility between nouns and verbs non finiteness noun class gender where morphological classes are analysed separately from agreement classes and the semantic principles underlying the categorisation of entities and events One of the central findings proposed in this book is that instances of NCP alternations on non finite verbs reflect strategies of event delimitation This book will be of interest to scholars investigating parts of speech systems finiteness systems of nominal and verbal classification and linguistic categorization Macmillan's Magazine David Masson, George Grove, John Morley, Mowbray Walter Morris, 1900 *Bereavement, Loss and Learning Disabilities* Robin Grey, 2010 Losing a loved one and coping with the subsequent adjustments that follow are a difficult fact of life but people with learning disabilities face specific difficulties in processing and managing these changes Adopting an integrative approach this book acknowledges the importance of helping relationships in supporting this vulnerable group through periods of loss and bereavement The author explains how to engage the person with a learning disability in talking therapy by creating an open dialogue Common signs of stress factors to consider in assessing risk and advice on how best to approach difficult subjects are presented The role of supervision in counselling and issues surrounding terminal illness are also discussed and practical solutions offered Professionals working in the field of learning disabilities such as counsellors therapists carers and health and social care students will find this informed guide beneficial in communicating and supporting people with learning disabilities
