

The enduring attraction of war is this: Even with its destruction and carnage it can give us what we long for in life. It can give us purpose, meaning, a reason for living. Only when we are in the midst of conflict does the shallowness and vapidness of much of our lives become apparent.

The Dinosaurs and their Mysterious Demise Andrew Norman, 2025-01-16. Explores the captivating history of dinosaurs, their reign, extinction, and presents a new theory on how certain species survived their cataclysmic end. The dinosaurs are a source of endless fascination, and each new generation is inspired and enchanted by images of these wondrous and awe-inspiring creatures that dominated the Earth eons of time ago. The smallest was the size of a chicken, the largest on record, the titanosaur *Argentinosaurus huinculensis*, weighed about 95 tons, fifteen times as much as an African bull elephant. Today's largest terrestrial creature, dinosaurs ruled the Earth for no less than 181 million years, about 600 times longer than *Homo sapiens* have existed on the planet. *Homo sapiens* is defined as the primate species to which modern humans belong, the first modern humans having evolved in Africa about 300,000 years ago. Today, the consensus is that the dinosaurs became extinct when a meteorite impacted with the Earth 66 million years ago, covering it with a thick layer of soot and throwing up enormous quantities of dust, which caused the sky to darken and photosynthesis, on which all terrestrial animals ultimately depend for their survival, to cease. The unanswered question, however, is how did mammals, reptiles, and birds, which are the only species of dinosaur to survive, escape this holocaust? An entirely new theory is put forward for the first time to explain this mysterious and intriguing phenomenon.

In-Between God Stephen Pickard, 2011-12-28. *In Between God* explores three important areas for contemporary Christianity: theology, community, and discipleship. Part One inquires into the rhythms of faith as it interacts with themes of uncertainty and doubt, the nature of theological discourse, the task of systematic theology, evangelism, and the various ways in which theology is done. Part Two discusses the importance of place in relation to the church and themes of innovation, undecidability, and new forms of monastic community. Part Three addresses themes in discipleship, simplicity, mysticism, the passions, and pilgrimage. A red thread connecting these essays is the character of the triune God, who is the energy and life in between all things.
