Enduring Creation Art Pain And Fortitude:

Enduring Creation Nigel Jonathan Spivey, 2001-06 Sebastians pierced with arrows self portraits of the aging Rembrandt and the tortured art of Vincent van Gogh Exploring the tender complex rapport between art and pain Spivey guides us through the twentieth century photographs of casualties of war Edvard Munch's *The Scream* and back to the recorded horrors of the Holocaust

Depicting Dante in Anglo-Italian Literary and Visual Arts Christoph Lehner, 2017-05-11 In the course of 750 years Dante Alighieri has been made into a universally important icon deeply engrained in the world's cultural memory This book examines key stages of Dante's appropriation in Western cultural history by exploring the intermedial relationship between Dante's *Divina Commedia* the tradition of his iconography and selected historical literary and artistic responses from British artists in the 19th and 20th centuries The images and iconographies created out of Dantean appropriations almost always centre around the triad of allegory authority and authenticity These three important aspects of revisiting Dante are found in the Dantean image fostered in Florence in the 14th and 15th centuries and feature prominently in the works of Dante Gabriel Rossetti T S Eliot and Tom Phillips Their appropriation of Dante represents landmarks in the productive reception of the Florentine and is invariably linked to a tradition of Dante studies established in Britain during the middle of the 19th century For Dante Gabriel Rossetti the Florentine provides a model for Victorian Dantean self-fashioning and becomes an allegory of authenticity and morality For T S Eliot Dante represents the voice of literary authority in Modernist poetry and serves as the allegory of a visionary European author For Tom Phillips the engagement with Dante and his text represents an intertextual and intermedial endeavour which provides him with a rich cultural tapestry of art thought and ideas on the Western world The main focus of this study therefore is on how Dante's image was fixed in the first 200 years of his appropriation in Florence how fruitfully the Dantean images and his text have been taken up and used for creative and intellectual production in Britain over the course of the past centuries and what moral literary or political messages they continue to convey

Tragedy: A Very Short Introduction Adrian Poole, 2005-08-11 What has tragedy been made to mean by dramatists story tellers critics philosophers politicians and journalists This work shows the relevance of tragedy to the modern world and extends beyond drama and literature into visual art and everyday experience

Pathos in Late-Medieval Religious Drama and Art Gabriella Mazzon, 2018-05-23 Pathos as Communicative Strategy in Late Medieval Religious Drama and Art explores the strategies employed to trigger emotional responses in late medieval dramatic texts from several Western European traditions and juxtaposes these texts with artistic productions from the same areas with an emphasis on Britain The aim is to unravel the mechanisms through which pathos was produced and employed mainly through the representation of pain and suffering with mainly religious but also political aims The novelty of the book resides in its specific linguistic perspective which highlights the recurrent use of words structures and dialogic patterns in drama to reinforce messages on the salvific value of suffering in synergy with visual messages produced in the same cultural milieu

New Perspectives on People and Forests Eva Ritter,Dainis Dauksta,2011-04-29 The aim of this book is to elucidate the role of forests as part of a landscape in the life of people Most landscapes today are cultural landscapes that are influenced by human activity and that in turn have a profound effect on our understanding of and identification with a place The book proposes that a better understanding of the bond between people and forests as integrated part of a landscape may be helpful in landscape planning and may contribute to the discussion of changes in forest cover which has been motivated by land use changes rural development and the global climate debate To this end people s perception of forest landscapes the reasons for different perceptions and future perspectives are discussed Given the wide range of forest landscapes and cultural perspectives which exist across the world the book focuses on Europe as a test case to explore the various relationships between society culture forests and landscapes It looks at historical evidence of the impacts of people on forests and vice versa explores the current factors affecting people s physical and emotional comfort in forest landscapes and looks ahead to how changes in forest cover may alter the present relationships of people to forests Drawing together a diverse literature and combining the expertise of natural and social scientists this book will form a valuable reference for students and researchers working in the fields of landscape ecology and landscape architecture geography social science environmental psychology orenvironmental history It will also be of interest to researchers government agencies and practitioners with an interest in issues such as sustainable forest management sustainable tourism reserve management urban planning and environmental interpretation

Lessing's Laocoon Avi Lifschitz, Michael Squire, 2017-09-08 Gotthold Ephraim Lessing first published *Laokoon oder ber die Grenzen der Mahlerey und Poesie* *Laocoon or on the Limits of Painting and Poetry* in 1766 Over the last 250 years Lessing's essay has exerted an incalculable influence on western critical thinking Not only has it directed the history of post Enlightenment aesthetics it has also shaped the very practices of poetry and painting in a myriad of different ways In this anthology of specially commissioned chapters comprising the first ever edited book on the *Laocoon* in English a range of leading critical voices has been brought together to reassess Lessing's essay on its 250th anniversary Combining perspectives from multiple disciplines including classics intellectual history philosophy aesthetics media studies comparative literature and art history the book explores the *Laocoon* from a plethora of critical angles Chapters discuss Lessing's interpretation of ancient art and poetry the cultural backdrops of the eighteenth century and the validity of the *Laocoon*'s observations in the fields of aesthetics semiotics and philosophy The volume shows how the *Laocoon* exploits Greek and Roman models to sketch the proper spatial and temporal limits *Grenzen* of what Lessing called poetry and painting at the same time it demonstrates how Lessing's essay is embedded within Enlightenment theories of art perception and historical interpretation as well as within nascent eighteenth century ideas about the scientific study of Classical antiquity *Altertumswissenschaft* To engage critically with the *Laocoon* and to make sense of its legacy over the last 250 years consequently involves excavating various classical presences by looking back to the Graeco Roman past the volume demonstrates Lessing forged a whole new tradition of modern aesthetics

Grief David Shneer, 2020-07-01 *Grief The Biography of a Holocaust Photograph* presents never before seen images and an untold story about a Soviet photographer and his signature image David Shneer tells the story of how World War II photojournalist Dmitri Baltermants transformed a news photograph of a grieving woman at the first liberation of a German mass atrocity site into a transcendently human tragedy that today appears in Holocaust archives and art museums around the world

American Dolorologies Simon Strick, 2014-04-01 Offers a critical history of the role of pain suffering and compassion in democratic culture *American Dolorologies* presents a theoretically sophisticated intervention into contemporary equations of subjectivity with trauma Simon Strick argues against a universalism of pain and instead foregrounds the intimate relations of bodily affect with racial and gender politics In concise and original readings of medical debates abolitionist photography Enlightenment philosophy and contemporary representations of torture Strick shows the crucial function that evocations of bodies in pain serve in the politicization of differences This book provides a historical contextualization of contemporary ideas of suffering sympathy and compassion thus establishing an embodied genealogy of the pain that is at the heart of American democratic sentiment

The Ashgate Research Companion to Giorgio Vasari David J. Cast, 2016-04-01 *The Ashgate Research Companion to Giorgio Vasari* brings together the world's foremost experts on Vasari as well as up and coming scholars to provide at the 500th anniversary of his birth a comprehensive assessment of the current state of scholarship on this important and still

controversial artist and writer The contributors examine the life and work of Vasari as an artist architect courtier academician and as a biographer of artists They also explore his legacy including an analysis of the reception of his work over the last five centuries Among the topics specifically addressed here are an assessment of the current controversy as to how much of Vasari's Lives was actually written by Vasari and explorations of Vasari's relationships with as well as reports about contemporaries including Cellini Michelangelo and Giotto among less familiar names The geographic scope takes in not only Florence the city traditionally privileged in Italian Renaissance art history but also less commonly studied geographical venues such as Siena and Venice

The Blue Sapphire of the Mind Douglas E. Christie, 2013 In The Blue Sapphire of the Mind Douglas E. *Roman Error* Basil Dufallo, 2018 In the eyes of posterity ancient Rome is deeply flawed The list of censures is long and varied from political corruption and the practice of slavery to religious intolerance and sexual immorality yet for centuries the Romans' errors have not only provoked opprobrium but also inspired wayward and novel forms of thought and representation themselves errant in the broad sense of the Latin verb This volume is the first to examine this phenomenon in depth treating examples from history philosophy literature psychoanalysis and art history from antiquity to the present to examine how the Romans' faults have become the basis for creative experimentation for rejections of prevailing ideology even for comedy and delight In demonstrating that the reception of Rome's missteps and mistakes has been far more complex than simply denouncing them as an exemplum malum to be shunned and avoided it argues compellingly that these alternative receptions are historically important and enduringly relevant in their own right Roman error comes to signify both ancient misstep and something that we may commit when engaging with Roman antiquity whereby reception may even be conceived as error of a kind while the volume ably addresses popular fascination with a wide range of Roman vices including violence imperial domination and decadence it also asks us to consider what makes certain receptions matter how they matter and why

Hitchcock's Moral Gaze R. Barton Palmer, Homer B. Pettey, Steven M. Sanders, 2017-01-30 In his essays and interviews Alfred Hitchcock was guarded about substantive matters of morality preferring instead to focus on discussions of technique That has not however discouraged scholars and critics from trying to work out what his films imply about such moral matters as honesty fidelity jealousy courage love and loyalty Through discussions and analyses of such films as *Strangers on a Train* *Rear Window* *Vertigo* *North by Northwest* and *Frenzy* the contributors to this book strive to throw light on the way Hitchcock depicts a moral if not amoral or immoral world Drawing on perspectives from film studies philosophy literature and other disciplines they offer new and compelling interpretations of the filmmaker's moral gaze and the inflection point it provides for modern cinema

Sacred Shock: Framing Visual Experience in Byzantium Glenn Peers, 2004 Sacred Shock attempts to lay bare the inner workings of Byzantine art by looking closely at the marginal or subsidiary areas in works of art **Violent Geographies** Derek Gregory, Allan Pred, 2013-10-18 Violent Geographies is essential to understanding how the politics of fear terror and violence in being largely hidden geographically can only be exposed in like manner The War on Terror finally receives the coolly critical analysis its ritual invocation has long required John Agnew Professor of Geography UCLA Urgent passionate and deeply humane Violent Geographies is uncomfortable but utterly compelling reading An essential guide to a world splintered and wounded by fear and aggression this is geography at its most politically engaged historically sensitive and intellectually brave Ben Highmore University of Sussex This is what a public geography should be all about acute analysis of momentous issues of our time in an accessible language Gregory and Pred have assembled a peerless group of critical geographers whose essays alter conventional understandings of terror violence and fear No mere gazetteer Violent Geographies shows how place space and landscape are central components of the real and imagined practices that constitute organised violence past and present If you thought terror violence and fear were the professional preserve of security analysts and foreign affairs experts this book will force you to think again Noel Castree School of Environment and Development Manchester University A studied passionate and moving examination of the way in which the violent logics of the War on Terror have so quickly shuttered and reorganized the spaces of this planet on its different scales From the book emerges a critical new cartography that clearly charts an archipelago of a large multiplicity of wild and tamed places as well as black holes within and between which we all struggle to live Eyal Weizman Director Goldsmiths College Centre for Research Architecture [Performance Affects](#) J. Thompson, 2009-04-28 Performance Affects explores performance projects in disaster and war zones to argue that joy beauty and celebration should be the inspiration for the politics of community based or participatory performance practice seeking to realign the field of Applied Theatre away from effects towards an affective role connected to sensations of pleasure **The Massacre of the Innocents** Warren Carter, 2023-01-30 In The Massacre of the Innocents Studies in the Cultural Afterlife of a Gospel Scene Warren Carter examines some fifty instances of

the interpretation of the Matthean Massacre of the Innocents Matt 2 16 18 He emphasizes the agency of interpreters who in their particular contexts and media think with the shocking Matthean scene to address the often tragic circumstances of their audiences He argues throughout that the structure of the Gospel scene facilitates this thinking with The scene is structured as a triad of power relations with a tyrant Herod victims infants and parents and violent means of tyranny the massacre Interpreters use this triad of power relations to identify tyrant s victims and means of tyranny in their own situations Carter illustrates the use of this triad of power relations across two millennia in numerous socio political contexts and media as diverse as sermons images poems and hymns dramas and festivals films novels Christmas carols and Children s Bibles

Images, Representations and Heritage Ian Russell, 2006-11-24 Recent archaeological theory has show that images of the past have carried a particularly strong resonance within modern social groups This volume explores the immeasurable impact that the phenomenon of archaeology has had on the representation of the past in the modern world Modern society s archaeological imagination conceives of archaeology as a producer of images of the past which become representations of modern group identities If archaeology is utilized by public groups to construct and represent identities then what are archaeologists to do with that public The very fact that the public is interested in the past and in archaeological research is an opportunity for archaeology to engage that public Participation in the public s modern interest in archaeology however puts archaeology at risk The growing role of archaeology and heritage within the economics of tourism has led to a commodification of archaeological knowledge and experience for consumption This volume begins a discourse on the implications of performing archaeology in a world dominated by modern trends of mass production mass replication and representation of cultural forms and mass consumption of images of the past The contributors explore to what extent we are experiencing a crisis of representation of the past due to contemporary consumption of mass produced replicas simulations images and experiences of the past To work through this crisis the contributors in this volume are exploring opportunities for development within archaeological thought and practice Their arguments illustrate a move towards active participatory and poetic archaeological thought and practice Rather than focusing on what is produced through process artifacts monuments interpretive centers etc they are concerned with what they are doing about taking part about participating reflexively in the tradition of understanding and expressing understanding of the past This volume does not conjure up romantic beliefs about the project of archaeology but rather it signals a fundamental revision of archaeology not what it is but what it can do

The Allure of Sports in Western Culture John Zilcosky, Marlo A. Burks, 2019-09-10 Whether it is our love of chance and vicarious thrill our need to release anxiety and aggression or our appreciation of the arc traced by a ball at a crucial moment sports draw us in The Allure of Sports in Western Culture contributes to contemporary debates about the attraction of sports in the West by providing a historical grounding as well as theoretical perspectives and contextualization Bringing together the work of literary theorists historians and athletes the volume s dual emphasis allows

us to better understand the historical and ideological reasons for the changing nature of sports allure from Ancient Greece and Rome to the modern Olympics The findings show that allure is shaped by larger forces such as poverty wealth and status changing moral standards and political and cultural indoctrination On the other hand personal and psychological factors play an equally important if less tangible role our love for scandal the seduction of deception and violence and the physiological intoxication of watching and participating in sports keep us hooked At the heart of the volume lies the tension between our love of sport and our knowledge of its only barely hidden cruelty exploitation and manipulation
