Public Images Ryan Linkof, 2020-08-12 The stolen snapshot is a staple of the modern tabloid press as ubiquitous as it is notorious The first in depth history of British tabloid photojournalism this book explores the origin of the unauthorised celebrity photograph in the early 20th century tracing its rise in the 1900s through to the first legal trial concerning the right to privacy from photographers shortly after the Second World War Packed with case studies from the glamorous to the infamous the book argues that the candid snap was a tabloid innovation that drew its power from Britain's unique class tensions Used by papers such as the Daily Mirror and Daily Sketch as a vehicle of mass communication this new form of image played an important and often overlooked role in constructing the idea of the press photographer as a documentary eyewitness From Edward VIII and Wallis Simpson to aristocratic debutantes Lady Diana Cooper and Margaret Whigham the rage of the social elite at being pictured so intimately without permission was matched only by the fascination of working class readers while the relationship of the British press to social economic and political power was changed forever Initially pioneered in the metropole tabloid style photojournalism soon penetrated the journalistic culture of most of the globe This in depth account of its social and cultural history is an invaluable source of new research for historians of photography journalism visual culture media and celebrity studies

American Images of China Oliver Turner, 2014-04-16 The United States and China are arguably the most globally consequential actors of the early twenty first century and look set to remain so into the foreseeable future This volume seeks to highlight that American images of China are responsible for constructing certain truths and realities about that country and its people It also introduces the understanding that these images have always been inextricable from the enactment and justification of US China policies in Washington and that those policies themselves are active in the production and reproduction of imagery and in the protection of American identity when seemingly threatened by that of China Demonstrating how past American images of China are vital to understanding the

nature and significance of those which circulate today Turner addresses three key questions What have been the dominant American images of China and the Chinese across the full lifespan of Sino US relations How have historical and contemporary American images of China and the Chinese enabled and justified US China policy What role does US China policy play in the production and reproduction of American images of China Exploring and evaluating a wide ranging variety of sources including films and television programmes newspaper and magazine articles the records and journals of politicians and diplomats and governmental documents including speeches and legal declarations this work will be of great interest to students and scholars of US foreign policy American politics China studies and international relations

Mind, Matter and Quantum Mechanics Henry P. Stapp, 2009-02-13 Scientists other than quantum physicists often fail to comprehend the enormity of the conceptual change wrought by quantum theory in our basic conception of the nature of matter writes Henry Stapp Stapp is a leading quantum physicist who has given particularly careful thought to the implications of the theory that lies at the heart of modern physics In this book which contains several of his key papers as well as new material he focuses on the problem of consciousness and explains how quantum mechanics allows causally effective conscious thought to be combined in a natural way with the physical brain made of neurons and atoms The book is divided into four sections The first consists of an extended introduction Key foundational and somewhat more technical papers are included in the second part together with a clear exposition of the orthodox interpretation of quantum mechanics The third part addresses in a non technical fashion the implications of the theory for some of the most profound questions that mankind has contemplated How does the world come to be just what it is and not something else How should humans view themselves in a quantum universe What will be the impact on society of the revised scientific image of the nature of man The final part contains a mathematical appendix for the specialist and a glossary of important terms and ideas for the interested layman This third edition has been significantly expanded with two new chapters covering the author's most recent work

R. Farris,2016-11-25 Recent research in the philosophy of religion anthropology and philosophy of mind has prompted the need for a more integrated comprehensive and systematic theology of human nature This project constructively develops a theological accounting of human persons by drawing from a Cartesian as a term of art model of anthropology which is motivated by a long tradition As was common among patristics medievals and Reformed Scholastics Farris draws from philosophical resources to articulate Christian doctrine as he approaches theological anthropology Exploring a substance dualism model the author highlights relevant theological texts and passages of Scripture arguing that this model accounts for

doctrinal essentials concerning theological anthropology While Farris is not explicitly interested in thorough critique of materialist ontology he notes some of the significant problems associated with it Rather the present project is an attempt to revitalize the resources found in Cartesianism by responding to some common worries associated with it

A Posthumous History of José Martí Alfred J. López, 2022-09-16 A Posthumous History of Jos Mart The Apostle and His Afterlife focuses on Mart s posthumous legacy and his lasting influence on succeeding generations of Cubans on the island and abroad Over 120 years after his death on a Cuban battlefield in 1895 Mart studies have long been the contested property of opposing sides in an ongoing ideological battle Both the Cuban nation state which claims Mart as a crucial inspiration for its Marxist revolutionary government and diasporic communities in the US who honor Mart as a figure of hope for the Cuban nation in exile insist on the centrality of his words and image for their respective visions of Cuban nationhood The book also explores more recent scholarship that has reassessed Mart s literary cultural and ideological value allowing us to read him beyond the Havana Miami axis toward engagement with a broader historical and geographical tableau Mart has thus begun to outgrow his mutually reinforcing cults in Cuba and the diaspora to assume his true significance as a hemispheric and global writer and thinker

American Photo , 2006-07 **Wooden Images** Juanita Ballew Wood, 1999 Using 163 photographs of images carved on the underside of medieval choir stalls in the churches and cathedrals of England in the thirteenth through sixteenth centuries this work provides a spirited examination of the social history of ordinary men and women during the late medieval period This examination is particularly useful in that the choir stalls have become less accessible to the public in recent years Misericords have received some scholarly attention but this work is the first to interpret the carvings as social commentary They are not examined as decorative embellishments or pieces of church furniture but rather read as intimate glimpses into the thoughts actions and beliefs of a segment of the English medieval population Whatever amused angered frightened or

elated the common person is recorded here in these extraordinary records **Designers' Shakespeare** John Russell Brown, Stephen Di Benedetto, 2016-05-05 Theatre Design involves everything seen on stage not only scenery but costumes wigs makeup properties lighting sound even the shape and material of the stage itself Designers Shakespeare presents and analyses the work of a half dozen leading practitioners of this specialist art By focusing specifically on their Shakespearean work it also offers a fresh exciting perspective on some of the best known drama of all time Shakespeare's plays offer an unusual range of opportunities to designers As they were written for a theatre which gave no opportunity for scenic support or embellishment designers are freed from any compulsion to imitate original practices This has resulted in the extraordinarily diverse range of works presented in this volume which considers among others the work of Josef Svoboda Karl Ernst Herrmann Ming Cho Lee Alison Chitty Robert Wilson Societas Raffaello Sanzio Filter Theatre Catherine Zuber John Bury Christopher Morley Ralph Koltai and Sean Kenny Designers Shakespeare joins Actors Shakespeare and Directors Shakespeare as essential reading for lovers of Shakespeare from theatre goers and students to directors and theatre designers *Describing Inner Experience?* Russell Hurlburt, Eric Schwitzgebel, 2011-08-19 A psychologist and a philosopher with opposing viewpoints discuss the extent to which it is possible to report accurately on our own conscious experience considering both the reliability of introspection in general and the particular self reported inner experiences of Melanie a subject interviewed using the Descriptive Experience Sampling method Can conscious experience be described accurately Can we give reliable accounts of our sensory experiences and pains our inner speech and imagery our felt emotions The question is central not only to our humanistic understanding of who we are but also to the burgeoning scientific field of consciousness studies The two authors of Describing Inner Experience disagree on the answer Russell Hurlburt a psychologist argues that improved methods of introspective reporting make accurate accounts of inner experience possible Eric Schwitzgebel a philosopher believes that any introspective reporting is inevitably prone to error In this book the two discuss to what extent it is possible to describe our inner experience accurately Hurlburt and Schwitzgebel recruited a subject Melanie to report on her conscious experience using Hurlburt's Descriptive Experience Sampling method in which the subject is cued by random beeps to describe her conscious experience The heart of the book is Melanie's accounts Hurlburt and Schwitzgebel's interviews with her and their subsequent discussions while studying the transcripts of the interviews In this way the authors dispute about the general reliability of introspective reporting is steadily tempered by specific debates about the extent to which Melanie's particular reports are believable Transcripts and audio files of the interviews will be available on the MIT Press website Describing Inner Experience is not so much a debate as it is a collaboration with each author seeking to refine his position and to replace partisanship with balanced critical judgment The result is an illumination of major issues in the study of consciousness from two sides at once *Mediating Modernity* Stefanie Harris, 2010-11 An interdisciplinary examination of the responses of literary authors in Germany from 1895 1930 to

the emerging media of image and sound recording Provided by publisher Investigations into the Origin of Language and Consciousness Trần Duc Thao, 2012-12-06 Tran Duc Thao a wise and learned scientist and an eminent Marxist philosopher begins this treatise on the origins of language and consciousness with a question One of the principal difficulties of the problem of the origin of consciousness is the exact determination of its beginnings Precisely where must one draw the line between the sensori motor psychism of animals and the conscious psychism that we see developing in man And then he cites Karl Marx's famous passage about the bee and the architect from Capital what distinguishes the worst architect from the best of bees is this that the architect raises his structure in the imagination before he erects it in reality At the end of every labor process we get a result that already existed in the imagination of the laborer at its commencement Capital Vol I p 178 tr Moore and Aveling Thao follows this immediately with a second question But is this the most elementary form of consciousness Thus the conundrum concerning the origins of consciousness is posed as a circle if human consciousness presupposes representation of the external reality of mental awareness of actions of what it may and if this consciousness emerges first with the activity of production using tools and if the production of tools itself presupposes representation that is with an image of what is to be produced in the mind of the producer then the conditions for the origins of human
