International Edition's engaging narrative integrates political, social, and cultural history within a chronological framework. Known for its focus on the environment and the land, the text is also praised for its innovative coverage of cultural history, public health and medicine, and the West, including Native American history. The eighth edition incorporates new scholarship throughout, includes a variety of new photos, and brings the discussion fully up to date with coverage of the 2012 presidential campaign. Based on the popularity of the Going to the Source feature, which was introduced in the previous edition, additional Going to the Source selections are offered online in the eighth edition. Available in the following split options: THE ENDURING VISION Eighth Edition Complete International Edition Volume 1 To 1877 International Edition and Volume 2 Since 1865 International Edition.

48 Liberal Lies about American History Larry Schweikart, 2008. As he did in his popular *A Patriot's History of the United States*, Schweikart corrects liberal bias by rediscovering facts that were once widely known. He challenges distorted books by name and debunks 48 common myths.

The Last Century of Sea Power, Volume 2 H. P. Willmott, 2010-03-22. An important contribution, a thoughtful account of the years preceding the Second World War and at much greater length of the war itself. History. In this second volume of his history of naval power in the 20th century, H. P. Willmott follows the fortunes of the established seafaring nations of Europe along with two upstarts, the United States and Japan. Emerging from World War I in command of the seas, Great Britain saw its supremacy weakened through neglect and in the face of more committed rivals. Britain's grand Coronation Review of 1937 marked the apotheosis of a sea power slipping into decline. Meanwhile, Britain's rivals and soon-to-be enemies were embarking on significant naval building programs that would soon change the nature of war at sea in ways that neither they nor their rivals anticipated. By the end of a new world war, the United States had taken command of two oceans, having placed its industrial might behind technologies that further defined the arena of naval power above and below the waves, where stealth and the ability to strike at great distance would soon rewrite the rules of war and of peace. This splendid volume further enhances Willmott's stature as the dean of naval historians. Praise for *The Last Century of Sea Power* series: The author, dean of naval historians, provides a sweeping look at and analysis of the transformation of naval power. Willmott is fearless in his judgments. *Seapower*. H. P. Willmott is the finest naval historian and among the finest historians of any discipline writing today. Bernard D. Cole, author of *The Great Wall at Sea*.
