Enemies Of Freedom Understanding Rightwing Authoritarianism

François Foret, Airo Hino

Enemies Of Freedom Understanding Rightwing Authoritarianism:

Enemies of Freedom Bob Altemeyer, 1988-09-30 This book provides important insights into the authoritarian personality revealing why right wing authoritarian tendencies develop in some individuals and not in others It also shows how a person's predisposition toward right wing authoritarianism can be measured and more

The Dynamics of Right-Wing Extremism within German Society Oliver Decker, Johannes Kiess, Elmar Brähler, 2022-03-21 The Dynamics of Right Wing Extremism within German Society explores the prevalence of right wing extremist attitudes in Germany The book provides a thorough psychosocial and sociological theory of general authoritarian dynamics to explain broader societal attitudes particularly focusing on right wing extremism It provides a uniquely long term perspective on the different dimensions of right wing extremism the affinity for dictatorial forms of government chauvinist attitudes the trivialisation or justification of National Socialism anti-Semitism xenophobia and social Darwinism The first chapter delineates the theoretical framework of authoritarian dynamics while subsequent chapters provide an in depth analysis of empirical findings and distinguish authoritarian and democratic typologies The authors focus on recognition of authoritarian statehood and anti-Semitism the relationship between religion and right wing extremism and support for the radical right populist party Alternative für Deutschland AfD The innovative theoretical approach of this book scrutinizes the theory of authoritarianism in the contemporary world This book provides unique empirical data and will be of interest to scholars of German politics anti democratic attitudes and prejudices sociology political science and social psychology The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

New Developments in Psychological Testing Robert A. Degregorio, 2007 Psychological testing has grown exponentially as technological advances have permitted it to and societal complexities have necessitated its growth This book presents the research in this field

The Creativity Reader Vlad Petre Glăveanu, 2019 The Creativity Reader brings together a prestigious group of international experts who were tasked with choosing introducing and commenting on seminal texts focused on creativity invention genius and imagination from the period of 1850 to 1950 This volume is at once retrospective and prospective it revisits old ideas assesses their importance today and explores their potential for the future

Encyclopedia of Social Psychology Roy F. Baumeister, 2007-08-29 Contains entries arranged alphabetically from A to I that provide information on ideas and concepts in the field of social psychology

Handbook of Personal Security Patrick J. Carroll, Robert M. Arkin, Aaron L. Wichman, 2015-04-24 The issue of psychological security within an increasingly unstable interconnected world has become a defining challenge of modern individual and cultural life The terror attacks of September 11 2001 and the global financial crisis that unfolded in 2008 have intensified a sense of global and personal insecurity This concern with psychological insecurity is reflected in contemporary culture politics the business world consumer behavior the arts and other areas Within this context the psychological sciences have kept pace

vigorously investigating these issues This handbook features the latest theory and research examining cognitive emotional and behavioral responses to security threats It expands the conceptual focus from specific security threats to the broader range of antecedents processes and consequences of psychological security insecurity The chapters are organized into four content areas personal security in individual contexts personal security in interpersonal contexts personal security with cultural and health contexts and interdisciplinary analyses of personal security They represent a new and vibrant area of research unified by the common goal of understanding the factors that shape a sense of personal security Together these provocative chapters provide specific starting points that will shape future theory policy and practice on this dominant social issue of the 21st Century and more importantly offer opportunities to connect social and personality psychology to its scientific kin

Globalization, Human Rights and Populism Adebowale Akande, 2023-06-16 This book offers a comprehensive and multidisciplinary global overview of populism and human rights in the light of globalization It examines why the dominant neo liberal paradigm of the last decades resulted in major economic and social inequalities which resulted in the surge of national populism led by the election success of right wing parties movements and leaders across the world It discusses among other topics the success of Brexit in Britain and the election success of Donald Trump and Marine Le Pen and explains why there is a need for a dialogue on human rights and globalization in this era of populism Further contributions analyze various important topics of the field including cross culturalism globalization human rights challenges and threats diversity curbing global corruption sustainable development populism the decline of free speech the new nationalism internationalization global regime of human rights leadership theory global management competencies gender quality management individualism collectivism and examples of new initiatives in global organizations This makes the book a valuable and useful resource for students researchers and scholars of international relations political science sociology political psychology law diplomatic studies Communication and media studies economics education and management as well as practitioners and policy makers interested in a better understanding of globalization populism and human rights

The Encyclopedia of Peace Psychology, 2011-12-12 The Encyclopedia of Peace Psychology available online through Wiley Online Library or as a three volume print set is a state of the art resource featuring almost 300 entries contributed by leading international scholars that examine the psychological dimensions of peace and conflict studies First reference work to focus exclusively on psychological analyses and perspectives on peace and conflict Cross disciplinary linking psychology to other social science disciplines Includes nearly 300 entries written and edited by leading scholars in the field from around the world Examines key concepts theories methods issues and practices that are defining this growing field in the 21st century Includes timely topics such as genocide hate crimes torture terrorism racism child abuse and more A valuable reference for psychologists and scholars students and practitioners in peace and conflict studies An ALA 2013 Outstanding Reference Source

The Oxford Handbook of Political Psychology Leonie Huddy, David O. Sears, Jack S. Levy, 2013-09-19 A revised

version of this essential interdisciplinary handbook **The Psychology of the Armenian Genocide** George Green, 2025-02-25 This book examines the radicalization of beliefs tactics and oppression by a dominant governing group when faced with a subordinate group's historic quest for basic human rights dating back for five centuries A unique approach an analysis of archival documents including minutes of Turkish meetings provides a window into the inner workings and decision making of the leaders Their persuasive propaganda campaign is demystified by applying contemporary social psychological research to identify and explain their use of psychological mechanisms to weaponize intergroup prejudice and exclusionary ideology Social antagonistic traits of the leader's ideology dark personality traits and propensity for moral disengagement are readily apparent in their highly effective propaganda campaign to gain the necessary support from their party and Turkish civilians for their genocidal agenda The Psychology of the Armenian Genocide will appeal to scholars and students alike interested in better understanding how a nation of people can be manipulated to support the annihilation of subordinate groups It will also appeal to a much wider range of people who would be interested in better understanding the manipulation of beliefs and morality to create intergroup divisions and intolerance for cooperation *Value Politics in Japan and Europe* François Foret, Airo Hino, 2021-12-24 This book explains the increasing importance of value politics in Europe and Japan shedding light on various arenas social values parties elections and politics public action private sector and law identity politics and religion media and public spheres It analyses how against different but commensurable backgrounds the rise of value politics alters or not the political game for which purposes and with which effects Applying both qualitative and quantitative methods from a wide range of primary and secondary sources the comparison is organized by joining skills from experts of Japan and Europe and by systematizing a common analytical framework for the two cases As such it presents a revealing and unique analysis of the changing relationship between values and political behaviour in the two polities Beyond the comparison it also documents the opportunities and challenges underlying the interactions between Europe Japan and the rest of the world and the competition combination between different versions of modernity This book is of key interest to scholars and students of European studies and politics Asian politics studies Japanese studies politics and more broadly to comparative politics sociology cultural media studies and economics The Psychology of Diversity James M. Jones, John F. Dovidio, Deborah L. Vietze, 2013-09-10 The Psychology of Diversity presents a captivating social psychological study of diversity the obstacles confronting it and the benefits it provides Goes beyond prejudice and discrimination to discuss the personal and social implications of diversity for both majority and minority group members Considers how historical political economic and societal factors shape the way people think about and respond to diversity Explains why discrimination leads to bias at all levels in society interpersonal institutional cultural and social Describes proven techniques for improving intergroup relations Examines the brain's impact on bias in clear terms for students with little or no background in neuroscience Includes helpful study tools throughout the text as well as an online instructor's manual **Political**

Psychology S. Renshon, J. Duckitt, 2000-05-09 Relationships of culture and political psychology shape a wide range of important contemporary political issues The distinguished contributors to this book make use of diverse theories of psychology informed by a broadly comparable understanding of the nature of culture The book is an important landmark in developing the field of political psychology developing insights from psychological anthropologists political scientists and crosscultural psychologists Critical contemporary social political and cultural issues of ethnic and crosscultural conflict around the world are crying out for theories making use of the powerful lens of culture along with other refractory frameworks

The Psychology of Conspiracy Michal Bilewicz, Aleksandra Cichocka, Wiktor Soral, 2015-05-15 Why did the third World Trade Center building WTC7 collapse on September 11th even though it was not struck by any aircraft Why did Princess Diana's drunk driver look sober as he climbed into the car minutes before their deadly accident Could a slender birch tree really have caused the plane crash which killed the President of Poland in 2010 Conspiracy thinking the search for explanations of significant global events in clandestine plots suppressed knowledge and the secret actions of elite groups provides simple and logical answers to the social doubts and uncertainties that occur at times of major national and international crises Contemporary social psychology seeks to explain the human motivation to create share and receive conspiracy theories and to shed light on the consequences of these theories for people's social and political functioning This important collection written by leading researchers in the field is the first to apply quantitative empirical findings to the subject of conspiracy theorizing The first section of the book explores conspiracy theories in the context of group perception and intergroup relations paying particular attention to anti-Semitic conspiracy stereotypes It then goes on to examine the relationship between an individual's political ideology and the degree to which they engage in conspiracy thinking The concluding part of the book considers the explanatory power of conspiracy focusing on the link between social paranoia and digital media and highlighting the social political and environmental consequences of conspiracy theories The Psychology of Conspiracy will be of great interest to academics and researchers in social and political psychology and a valuable resource to those in the fields of social policy anthropology political science and cultural studies

Behind the Illiberal Turn: Values in Central Europe, 2022-06-20 We have to abandon liberal methods and principles of organizing a society The new state that we are building is an illiberal state a non-liberal state Hungarian Prime Minister Victor Orban famously said in 2014 exemplifying a broader trend taking place in Central Europe Why would the countries that were praised as democratization and Europeanization success stories take an illiberal turn This volume explores changing values and attitudes to explain events that took place in the aftermath of the financial and migration crisis in six Central European countries Croatia Czechia Hungary Poland Slovakia and Slovenia

CTS and Right-Wing Terrorism and Counterterrorism Alice Martini, Raquel da Silva, 2023-08-22 This volume is a timely contribution to the current debates and potential efforts to study and counter the phenomena of extreme right violence in a period when the rise of right-wing extremism is being

witnessed across the globe Against this backdrop the violent radicalisation and extremism of individuals and groups belonging to the extreme right threaten to undermine and destabilize societies and democratic orders leaving a research gap that has only started to be filled in recent years but that is still quite wide when it comes to counter terrorism approaches to extreme right violence Learning from the past and trying to avoid similar mistakes this volume creates a much needed space for open honest and ethical debate around countering extreme right violence answering social and political calls to debate how to counter this kind of violence This volume brings together a group of interdisciplinary scholars to contribute to national and international academic and policy debates about countering extreme right violence from a critical perspective Volume II focuses particularly on exploring how extreme right violence has been approached in different spatial and temporal contexts examining how the criminal justice system has dealt with the threat of and actual violence perpetrated by the extreme right deconstructing current counter terrorism approaches from feminist and gender perspectives and formulating a critical approach to countering extreme right violence It will be of great interest to all students of terrorism studies security studies international relations and political science in general The chapters in this book were originally published in Critical Studies on Terrorism

Neither Good Nor Bad Gerhard Besier, Katarzyna Stokłosa, 2014-06-19 When confronted by a range of violent actions perpetrated by lone individuals contemporary society exhibits a constant tendency to react in terms of helpless even perplexed horror Seeking explanations for the apparently inexplicable commentators often hurry to declare the perpetrators as evil This question is not restricted to individuals history has repeatedly demonstrated how groups and even entire nations can embark on a criminal plan united by the conviction that they were fighting for a good and just cause Which circumstances occasioned such actions What was their motivation Applying a number of historical scientific and social scientific approaches to this question this study produces an integrative portrait of the reasons for human behavior and advances a number of different interpretations for their genesis The book makes clear the extent to which we live in socially constructed realities in which we cling for dear life to a range of conceptions and beliefs which can all too easily fall apart in situations of crisis

Critical Theory and the Authoritarian Personality Geoff M. Boucher, 2025-01-31 The worldwide resurgence of authoritarianism has sparked renewed interest in the Frankfurt School theory of the authoritarian personality not as a topic of academic debate but as an urgent political factor Critical Theory and the Authoritarian Personality brings Theodor Adorno's critique up to date in light of new forms of authoritarian politics recent kinds of authoritarian propaganda and current findings about authoritarian personalities Drawing on the work of Slavoj Žižek and the psychoanalysis of Jacques Lacan this is the first sustained application of psychoanalytic theory to the problem of the authoritarian personality since the classical work of the Frankfurt School It explores a pressing problem the resurgence of the radical Right and proposes new solutions grounded in the idea of an affective approach to authoritarian politics as something based on transgressive fantasies and political anxieties Throughout the book illustrates its theoretical claims with reference to new kinds of

authoritarian literature which today forms an important part of right wing propaganda Critical Theory Amirhosein Khandizaji, Wolfgang Sohst, 2025-07-01 Critical Theory The Last Stand for Emancipation gathers leading voices in contemporary critical thought to reassert the enduring relevance of a tradition forged in resistance From the early insights of the Frankfurt School to its intersections with decolonial queer ecological and postcolonial critiques this volume maps the evolving terrain of a radical project devoted to unveiling domination and envisioning emancipation At a time when neoliberal orthodoxy undermines critical scholarship and authoritarian populism distorts public discourse this book refuses resignation It offers instead a lucid and urgent intervention one that confronts the alienations of digital life the legacies of colonial violence and the manufactured chaos of late capitalism With essays ranging from genealogy to praxis from epistemology to affect this collection insists that critical theory is not an academic relic but a living practice of resistance Whether reckoning with the failures of progress or reclaiming hope as a political act Critical Theory The Last Stand for Emancipation is a call to think deeply act ethically and remember that critique remains a vital tool in the struggle for a more just world **German Perspectives on Right-Wing Extremism** Johannes Kiess, Oliver Decker, Elmar Brähler, 2016-05-20 This book discusses right wing extremism by analysing Germanophone research on this topic for the first time in English including unique survey data from Germany and Austria Highlighting how questions of terminology can become complicated when country cases are compared the authors analyse theoretical and methodological issues in relation to the question of right wing extremism In Anglo American academia the term is often associated with fairly rare phenomena in the form of extremist political groups whereas in Germany the term is often applied to a wide range of attitudes behaviours and parties including those which operate more within the mainstream political sphere Covering an array of sub fields such as right wing terrorism iconography of the extreme right and the Germanophone discussion on the differentiation of right wing populism and right wing extremism the authors account not only for the centrality of right wing extremist attitudes in Germanophone research but also point at its often overlooked relevance for the phenomenon in general Offering an important insight into the nuanced definition of right wing extremism across Europe and enhancing both international debate and cross country comparative research this book will be of interest to students and scholars researching extremism German politics and European politics more generally

Uncover the mysteries within is enigmatic creation, **Enemies Of Freedom Understanding Rightwing Authoritarianism** . This downloadable ebook, shrouded in suspense, is available in a PDF format (*).
