with conflict followed by accommodation and finally a cooperative spirit had developed for a complex web of political and diplomatic reasons. Never in the past has the Catholic Church shown a rigorous growth under the encouragement of the Communist Party to shape the Church in the image of an indigenous and local church and to minimize the influence of the Vatican. There remains a persistent struggle between the underground church, those who remain loyal to early missionaries and to the Holy See, and the official national church controlled by the Party State. The authors argue that there is hope that the conflict will eventually disappear as the new leadership in Beijing may one day restore a diplomatic relationship with the Vatican.

Handbook of Christianity in China Gary Tiedemann, 2009-12-02 This second volume on Christianity in China covers the period from 1800 onwards up to the present, divided into three main periods and dealing with the complexities of both Catholic and Protestant aspects. Also in this volume, the reader will be guided to and through the Chinese and Western primary and secondary sources by carefully selected major scholars in the field. Produced with financial support from the Ricci Institute at the University of San Francisco Center for the Pacific Rim.

China and the True Jesus Melissa Wei-Tsing Inoué, 2018-12-03 In 1917 the Beijing silk merchant Wei Enbo's vision of Jesus sparked a religious revival characterized by healings, exorcisms, tongues speaking, and most provocatively, a call for a return to authentic Christianity that challenged the Western missionary establishment in China. This revival gave rise to the True Jesus Church, China's first major native denomination. The church was one of the earliest Chinese expressions of the twentieth-century charismatic and Pentecostal tradition, which is now the dominant mode of twenty-first-century Chinese Christianity. To understand the faith of millions of Chinese Christians today, we must understand how this particular form of Chinese Christianity took root and flourished even throughout the wrenching changes and dislocations of the past century. The church's history links together key themes in modern Chinese social history, such as long-standing cultural exchange between China and the West, imperialism and globalization, game-changing advances in transport and communications technology, and the relationship between religious movements and the state in the late Qing (circa 1850-1911), Republican (1912-1949), and Communist (1950-present) day eras. Vivid storytelling highlights shifts and tensions within Chinese society on a human scale. How did mounting foreign incursions and domestic crises pave the way for Wei Enbo, a rural farmhand, to become a wealthy merchant in the early 1900s? Why did women in the 1920s and 30s, such as an orphaned girl named Yang Zhendao, devote themselves so wholeheartedly to a patriarchal religious system? What kinds of pressures induced church leaders in a meeting in the 1950s to agree that Comrade Stalin had saved many more people than Jesus? This book tells the striking but also familiar tale of the promise and peril attending the collective pursuit of the extraordinary: how individuals within the True Jesus Church in China over the past century have sought to muster divine and human resources to transform their world.

Politics of Control Chang-tai Hung, 2021-01-31 Using a unique interdisciplinary cultural institutional analysis, *Politics of Control* is the first comprehensive study of how in the early decades of the People's Republic of China the Chinese Communist Party reshaped people's minds.

using multiple methods of control With newly available archival material internal circulars memoirs interviews and site visits the book explores the fascinating world of mass media book publishing education religion parks museums and architecture during the formative years of the republic When the Communists assumed power in 1949 they projected themselves as not only military victors but also as peace restorers and cultural protectors Believing that they needed to manage culture in every arena they created an interlocking system of agencies and regulations that was supervised at the center Documents show however that there was internal conflict Censors introduced early at the Beijing Daily operated under the twofold leadership of municipal level editors but with final authorization from the Communist Party Propaganda Department Politics of Control looks behind the office doors where the ideological split between Party chairman Mao Zedong and head of state Liu Shaoqi made pragmatic editors bite their pencil erasers and hope for the best Book publishing followed a similar multi tier system preventing undesirable texts from getting into the hands of the public In addition to designing a plan to nurture a new generation of Chinese revolutionaries the party state developed community centers that served as cultural propaganda stations New urban parks were used to stage political rallies for major campaigns and public trials where threatening sects could be attacked A fascinating part of the story is the way in which architecture and museums were used to promote ethnic unity under the Chinese party state umbrella Besides revealing how interlocking systems resulted in a pervasive method of control Politics of Control also examines how this system was influenced by the Soviet Union and how nevertheless Chinese nationalism always took precedence Chang tai Hung convincingly argues that the PRC s formative period defined the nature of the Communist regime and its future development The methods of cultural control have changed over time but many continue to have relevance today

Christian Monks on Chinese Soil Matteo Nicolini-Zani, 2016-10-21 The contribution of monks to the evangelization of lands not yet reached by the preaching of the Gospel has certainly been remarkable The specific witness that the monastic community gives is of a radical Christian life naturally radiating outward and thus it is implicitly missionary The process of inculturation of Christian monasticism in China required a bold spiritual attitude of openness to the future and a willingness to accept the transformation of monastic forms that had been received In Christian Monks on Chinese Soil Matteo Nicolini Zani highlights the willingness of foreign monks to encounter the cultural and spiritual realities of China and the degree of acceptance by the Chinese of the form of monastic life that was presented to them by the missionaries

Church Militant Paul P. Mariani, 2011-10-24 Paul Mariani tells the story of how Bishop Kung the Jesuits and the Catholic Youth resisted the Chinese Communist regime and refused to renounce the Church in Rome Mirroring tactics used by the previously underground CCP Shanghai s Catholics persevered until 1955 when the party was betrayed from within their own

ranks **Unstately Power** Lynn T. White,1998 **Unstately Power: Local causes of China's economic reforms** Lynn T. White,1998 China s dramatic reforms are usually said to have been caused by the policies of state leaders under Deng Xiaoping This fascinating new study by one of the West s leading authorities on contemporary China shows however that reforms began and are maintained by local networks They emerged first in the economy partly as unintended results of previous policies Agricultural extension in Mao Zedong s time freed so much labor from the land in rich areas such as the Shanghai delta that peasant leaders set up rural industries to employ clients Many of these leaders were avowed state cadres but they acted for local constituencies more than for Beijing Their initiatives can be documented in the early 1970s long before the 1978 proclamation of new enterprises which the central bureaucracy could not monitor taking materials and markets away from state industries This caused socialist control of input prices and commodity flows to collapse by the mid 1980s As a result shortages and inflation bedeviled the economy the state ran deficits management decentralized local banks proliferated and immigration to cities soared *Redemption And Dialogue* William R. Burrows,2009-11-01 Redemption and Dialogue makes available for the first time both of these vital Catholic statements one on mission and evangelization and the other on dialogue with other faiths It contains authoritative commentaries on both Redemptoris Missioand Dialogue and Proclamation as well as shorter critiques by an international group of Catholic and Protestant scholars Part I the full text of John Paul II s encyclical Redemptoris Missio is followed by a meticulous discussion of the document and its development by Marcello Zago O M I Part II then presents the full text of Dialogue and Proclamation and commentary by Jacques Dupuis S J Part III provides the international assessment by Catholic and Protestant scholars of the strengths weaknesses and challenges of these documents By providing the complete text of both documents and the fruits of the international discussion they spark Redemption and Dialogue provides a fascinating treatment of both documents their meanings for the church and their significance for all concerned with issues in mission theology and interfaith dialogue **Contemporary China and the Changing International Community** Bih-jaw Lin,James T. Myers,1994 The Love of God in China John Peale,2005 This well researched and thorough work presents Chinese Christianity in a way that will lead Christians and others to better understand their faith and China The Love of God in China examines various aspects related to Christianity in this socialist country including the status of Chinese Christian churches the policy of Chinese government for state control of religion the attitudes of Chinese people towards Christianity theological perspectives in China the Chinese perception of religious principles successful efforts to cultivate Chinese Christianity Author John Peale objectively presents the competing and conflicting positions of the diverse Chinese Christian groups As he identifies the challenges faced by Christian individuals and churches in China he not only suggests resolutions but also proposes what Western Christians could learn from their Chinese family in the faith Peale explores the ways Christianity can be submerged into Chinese culture

Encyclopedia of Christianity in the Global South Mark A. Lamport,2018-06-01 Christianity has transformed many times in

its 2 000 year history from its roots in the Middle East to its presence around the world today From the mid twentieth century onward the presence of Christianity has increased dramatically in Asia Africa and Latin America and the majority of the world s Christians are now nonwhite and non Western The Encyclopedia of Christianity in the Global South traces both the historical evolution and contemporary themes in Christianity in more than 150 countries and regions The volumes include maps images and a detailed timeline of key events The phrases Global Christianity and World Christianity are inadequate to convey the complexity of the countries and regions involved this encyclopedia with its more than 500 entries aims to offer rich perspectives on the varieties of Christianity where it is growing how the spread of Christianity shapes the faith in various regions and how the faith is changing worldwide Buddhism and Iconoclasm in East Asia Fabio Rambelli, Eric Reinders, 2012-09-06 This is a cross cultural study of the multifaceted relations between Buddhism its materiality and instances of religious violence and destruction in East Asia which remains a vast and still largely unexplored field of inquiry Material objects are extremely important not just for Buddhist practice but also for the conceptualization of Buddhist doctrines yet Buddhism developed ambivalent attitudes towards such need for objects and an awareness that even the most sacred objects could be destroyed After outlining Buddhist attitudes towards materiality and its vulnerability the authors propose a different and more inclusive definition of iconoclasm a notion that is normally not employed in discussions of East Asian religions Case studies of religious destruction in East Asia are presented together with a new theoretical framework drawn from semiotics and cultural studies to address more general issues related to cultural value sacredness and destruction in an attempt to understand instances in which the status and the meaning of the sacred in any given culture is questioned contested and ultimately denied and how religious institutions react to those challenges
