The book explores how schools can move beyond a focus on cognitive attainment through an emphasis on affective engagement to help pupils develop better relationships of all kinds and prepare them for adulthood in a fast-changing world. For teachers, the book tackles the important questions of: What is emotional literacy and emotional intelligence? How can teachers incorporate pupils' emotional development into their lessons while nourishing and enhancing achievement? How is it possible to have a calm atmosphere in the classroom with pupils enjoying learning together? *Engaging Education* is the first book to link the issues of emotional literacy, equity and social justice and the education of the whole child, thus providing the social and political context for emotional literacy.
