Mortuary Ritual and Society in Bronze Age Cyprus Priscilla Keswani, 2004 A ground breaking investigation of burial practices and social transformations in the era when Cypriot agricultural communities moved from village to urban life and became major players in the eastern Mediterranean copper trade The author develops an innovative theoretical and methodological approach that enables her to define and elucidate the shifting spatial relationships between tombs and habitation areas the elaboration of rituals involving secondary treatment and collective burial and changing patterns of mortuary expenditure and symbolism throughout the Bronze Age Keswani proposes that during the Early Middle Bronze

periods the growing elaboration of mortuary festivities and their crucial importance in negotiating status hierarchies contributed to the intensification of Cypriot copper production and the expansion of interregional exchange relations. Subsequent changes in mortuary practice suggest that the importance of collective burial rites and traditional modes of ritual display diminished over the course of the Late Bronze Age as urban institutions multiplied and the bases of social prestige were transformed.

Medelhavsmuseet, 2009 *Philistor* Philip P. Betancourt, Eleni Mantzourani, 2012-09-30 Contributions by 37 scholars are brought together here to create a volume in honor of the long and fruitful career of Costis Davaras former Ephor of Crete and Professor Emeritus of Minoan Archaeology at the University of Athens. Articles pertain to Bronze Age Crete and include mortuary studies, experimental archaeology, numerous artifactual studies and discussions on the greater Minoan civilization.

Archaeology and Women Sue Hamilton, Ruth D Whitehouse, Katherine I Wright, 2016-09-16 *Archaeology and Women* draws together from a variety of angles work currently being done within a contemporary framework on women in archaeology. One section of this collection of original articles addresses the historical and contemporary roles of women in the discipline. Another attempts to link contemporary archaeological theory and practice to work on women and gender in other fields. Finally, this volume presents a wide diversity of theoretical approaches and methods of study of women in the ancient world, representing a cross section of work being carried out today under the broad banner of gender archaeology. The geographical and chronological range of the contributions is also wide, from Southeast Asia and South America to Western Asia, Egypt and Europe, from Great Britain to Greece and from 10 000 years ago to the recent past. An ideal sampler for courses dealing with women and archaeology.

Minoan Realities Diamantis Panagiotopoulos, 2012 What is the social role of images and architecture in a pre modern society? How were they used to create adequate environments for specific profane and ritual activities? In which ways did they interact with each other? These and other crucial issues on the social significance of imagery and built structures in Neopalatial Crete were the subject of a workshop which took place on November 16th 2009 at the University of Heidelberg. The papers presented in the workshop are collected in the present volume. They provide different approaches to this complex topic and are aimed at a better understanding of the formation, role and perception of images and architecture in a very dynamic social landscape. The Cretan Neopalatial period saw a rapid increase in the number of palaces and villas characterized by elaborate designs and idiosyncratic architectural patterns which were themselves in turn generated by a pressing desire for a distinctive social and performative environment.

An Archaeology of Prehistoric Bodies and Embodied Identities in the Eastern Mediterranean Maria Mina, Sevi Triantaphyllou, Yiannis Papadatos, 2016-10-11 In the long tradition of the archaeology of the eastern Mediterranean, bodies have held a prominent role in the form of figurines, frescos or skeletal remains and have even been responsible for sparking captivating portrayals of the Mother Goddess, cult the elegant women of Minoan Crete or the deeds of heroic men. Growing literature on the archaeology and anthropology of the body has raised awareness about the dynamic

and multifaceted role of the body in experiencing the world and in the construction performance and negotiation of social identity In these 28 thematically arranged papers specialists in the archaeology of the eastern Mediterranean confront the perceived invisibility of past bodies and ask new research questions Contributors discuss new and old evidence they examine how bodies intersect with the material world and explore the role of body situated experiences in creating distinct social and other identities Papers range chronologically from the Palaeolithic to the Early Iron Age and cover the geographical regions of the Aegean Cyprus and the Near East They highlight the new possibilities that emerge for the interpretation of the prehistoric eastern Mediterranean through a combined use of body focused methodological and theoretical perspectives that are nevertheless grounded in the archaeological record

Thinking Differently About Cosmopolitanism Marianna Papastephanou, 2015-11-17 Cosmopolitanism and relevant notions are widely discussed in philosophy of education and educational studies more generally There is a vast literature on the topic that often invites conceptual discussion and requires some work in the direction of crucial clarifications Thinking Differently About Cosmopolitanism argues that a new conception of cosmopolitanism is needed and addresses this need by formulating a conception of cosmopolitanism as an eccentric ethico political ideal Such cosmopolitanism is eccentric in the sense that it decenters the self it cultivates centrifugal virtues and it questions the concern for the globally enriched self In this book Papastephanou lays the foundation for a more refined conception of the topic and provides a fruitful interdisciplinary discussion of its relation to globalization Eurocentricism developmentalism and modernity

Religion and Social Transformations in Cyprus Giorgos Papantoniou, 2012-10-16 This monograph focuses on religion to explore how the socio cultural infrastructure of Cyprus was affected by the transition from segmented administration by many Cypriot kings to the island wide government by a foreign Ptolemaic correspondent It approaches politico religious ideological responses and structures of symbolism through the study of sacred landscapes specific iconographic elements and archaeological contexts and architecture as well as through textual and epigraphic evidence A fresh approach to the transition is put forward connecting the island more emphatically with its longue dur e Moving beyond the field of Cypriot studies this work also serves as a paradigm for the study of religion in relation to social power in other fields of classics and in particular for the enrolment of other areas of the Mediterranean into the political and cultural Hellenistic oikoumene

Gemini and the Sacred Kimberley C. Patton, 2022-10-06 Why do twins remain uncanny to those born alone in other words most of us Even with the rise of IVF and an increase in multiple births why do we still do a double take when we encounter twins Why has this been a near universal response throughout human history and how has it played out in religion and myth Through the work of leading scholars in religion folklore and mythology history anthropology and archaeology Gemini and the Sacred explores how twinship has long been imagined especially in the complex relationship of sacred twin traditions to twins on the ground in biology and lived experience The book considers the multiple ways in which the doubling of a human being may be interpreted as auspicious and powerful or

suppressed as unstable and dangerous Why has this been so and how does it affect living twins today Treating both famous and lesser known twins including supernatural animal twins in the ancient Near Eastern and classical Mediterranean worlds early Christianity and Gnosticism Vedic Hindu West African Black Atlantic and native American traditions ancient Mesoamerica Celtic Roman Britain and Scandinavia and in the special fraught bond shared by all twins the book offers a variety of perspectives on this topic of great cultural significance Handbook of Gender in Archaeology Sarah M. Nelson, 2006 First reference work to explore the research on gender in archaeology **Brill's Companion to Aphrodite** Amy C. Smith, Sadie Pickup, 2010-03-25 Brill's Companion to Aphrodite brings together an international and multidisciplinary team of experts in the study of Aphrodite one of the best known yet ambiguous and complex Graeco Roman deities The contributions which reevaluate conventional approaches to this remarkable goddess are thematically grouped in four parts according to aspects of the goddess Aphrodite's Identity Aphrodite's Companions and Relations The Spread of Aphrodite's Cults and The Reception of the Goddess Each part draws on literary and visual sources incorporates Greek Roman and later material and ranges across places and periods from prehistoric Cyprus and the Near East to the antiquities market in 19th century France This book therefore crosses interdisciplinary boundaries as well as the multiple aspects and characteristics of the goddess *Athyrmata: Critical Essays on the Archaeology of the Eastern Mediterranean in Honour of E. Susan Sherratt* Yannis Galanakis, Toby Wilkinson, John Bennet, 2014-10-18 This volume brings together twenty six papers to mark Susan Sherratt's 65th birthday a collection that seeks to reflect both her broad range of interests and her ever questioning approach to uncovering the realities of life in Europe and the Mediterranean in later prehistory Cyprus Within the Biblical World James H. Charlesworth, Jolyon G. R. Pruszinski, 2021-03-25 This volume moves discussion of ancient Israelite culture beyond concepts of isolation and borders factoring in already well known insights from classical studies and ancient history that take greater account of the impressive connections between all the countries bordering the Mediterranean Sea Specifically the contributors focus on Cyprus and the Bible and offer archaeological and biblical insights to consider how and in what ways Cyprus and Cypriot culture was related to biblical life and perceptions Though the Mediterranean separated Palestine from Cyprus it also joined them archaeological finds expose significant trade relations and cultural commonalities not only in the Hellenistic and late Roman eras but for many centuries prior These relations developed and became even more intimate in the later biblical period as evidenced by early Jewish and Christian writings By exploring various methods of cultural contact the contributors suggest that further examination of cultural links between Cyprus and Palestine in the biblical period can repay dividends in understanding the development of ancient Israelite religion early Judaism and early Christianity **Archaeology of Domestic Architecture and the Human Use of Space** Sharon R Steadman, 2016-06-16 Covering major theoretical and methodological developments over recent decades in areas like social institutions settlement types gender status and power this book addresses the developing understanding of where and how people in the past

created and used domestic space It will be a useful synthesis for scholars and an ideal text for advanced undergraduate and graduate courses in archaeology and architecture Cypria Alex Christofi, 2024-05-09 A WATERSTONES BOOK OF THE YEAR 2024 A brilliant exploration of Cyprus's long history of cultural resilience Superbly composed Guardian Poetic Compelling New Statesman One of National Geographic's Summer Reads 2024 Think of a place where you can stand at the intersection of Christian and Arab cultures at the crossroads of the British Ottoman Byzantine Roman and Egyptian empires a place marked by the struggle between fascism and communism and where the capital city is divided in half as a result of bloody conflict where the ancient olive trees of Homer's time exist alongside the undersea cables which link up the world's internet In Cypria named after a lost Cypriot epic which was the prequel to *The Odyssey* British Cypriot writer Alex Christofi writes a deeply personal lyrical history of the island of Cyprus from the era of goddesses and mythical beasts to the present day This sprawling evocative and poetic book begins with the legend of the cyclops and the storytelling at the heart of the Mediterranean culture Christofi travels to salt lakes crusader castles mosques and the eerie town deserted at the start of the 1974 war He retells the particularly bloody history of Cyprus during the twentieth century and considers his own identity as traveler and returner as Odysseus was Written in sensitive witty and beautifully rendered prose with a novelist's flair and eye for detail Cypria combines the political cultural and geographical history of Cyprus with reflections on time place and belonging
