Engendering the Chinese Revolution Christina Kelley Gilmartin, 2023-09-01 Christina Kelley Gilmartin rewrites the history of gender politics in the 1920s with this compelling assessment of the impact of feminist ideals on the Chinese Communist Party during its formative years. For the first time Gilmartin reveals the extent to which revolutionaries in the 1920s were committed to women's emancipation and the radical political efforts that were made to overcome women's subordination and to transform gender relations. Women activists whose experiences and achievements have been previously ignored are brought to life in this study which illustrates how the Party functioned not only as a political organization but as a subculture for women as well. We learn about the intersection of the personal and political lives of male communists and how this affected their beliefs about women's emancipation. Gilmartin depicts with thorough and incisive scholarship how the Party formulated an ideological challenge to traditional gender relations while it also preserved aspects of those relationships in its organization. *The Party Family* Kimberley Ens Manning, 2023-08-15 Co-winner of the Canadian Political Science Association Prize in Comparative Politics of the Canadian Political Science Association. *The Party Family* explores the formation and consolidation of the state in revolutionary China through the crucial role that social ties specifically family ties played in the state's capacity to respond to crisis before and after the foundation of the People's Republic of China. Central to these ties Kimberley Ens Manning finds were women as both the subjects and leaders of reform. Drawing on interviews with 163 participants in the provinces of Henan and Jiangsu as well as government documents and elite memoirs biographies speeches and reports Manning offers a new theoretical lens attachment politics to underscore how family and ideology intertwined to create an important building block of state capacity and governance. As *The Party Family* details infant mortality in China dropped by more than half within a decade of the PRC's foundation a policy achievement produced to a large extent through the personal and family ties of the maternalist policy coalition that led the reform movement. However these achievements were undermined or reversed in the complex policy struggles over the family during Mao's Great Leap Forward 1958-60.

**Reinventing Licentiousness** Y. Yvon Wang, 2021-03-15 *Reinventing Licentiousness* navigates an overlooked history of representation during the transition from the Qing Empire to the Chinese Republic a time when older hierarchical notions of licentiousness were overlaid by a new pornographic regime Y Yvon Wang draws on previously untapped archives ranging from police archives and surveys to ephemeral texts and pictures to argue that pornography in China represents a unique configuration of power and desire that both reflects and shapes historical processes On the one hand since the late imperial period pornography has democratized pleasure in China and opened up new possibilities of imagining desire On the other ongoing controversies over its definition and control show how the regulatory ideas of premodern cultural politics and the popular products of early modern cultural markets have contoured the globalized world *Reinventing Licentiousness* emphasizes the material factors particularly at the grassroots level of consumption and trade that governed proper sexual desire and led to ideological shifts around the definition of pornography By linking the past to the present and beyond Wang's social and intellectual history showcases circulated pornographic material as a motor for cultural change The result is an astonishing foray into what historicizing pornography can mean for our understandings of desire legitimacy capitalism and culture

*Women and Gender in Contemporary Chinese Societies* Shanshan Du, Ya-chen Chen, 2013-03-04 Recent attention to historical geographic and class differences in the studies of women and gender in China has expanded our understanding of the diversity and complexity of gendered China Nevertheless the ethnic dimension of this subject matter remains largely overlooked particularly concerning women's conditions and gender status Consequently the patriarchy and its oppression of women among the Han the ethnic majority in China are often inaccurately or erroneously associated with the whole gendered heritage of China epitomized by the infamous traditions of footbinding and female infanticide Such academic and

popular predisposition belies the fact that gender systems in China span a wide spectrum ranging from extreme Han patriarchy to Lahu gender egalitarianism. The authors contributing to this book have collectively initiated a systematic effort to bridge the gap between understanding the majority Han and ethnic minorities in regard to women and gender in contemporary Chinese societies. By achieving a quantitative balance between articles on the Han majority and those on ethnic minorities, this book transcends the ghettoization of ethnic minorities in the studies of Chinese women and gender. The eleven chapters of this volume are divided into three sections which jointly challenge the traditions and norms of Han patriarchy from various perspectives. The first section focuses on gender traditions among ethnic minorities which compete with the norms of Han patriarchy. The second section emphasizes the impact of radical social transformation on gender systems and practices among both Han and ethnic minorities. The third section underscores socio-cultural diversity and complexity in resistance to Han patriarchal norms from a broad perspective. This book complements previous scholarship on Chinese women and gender by expanding our investigative lens beyond Han patriarchy and providing images of the multiethnic landscape of China. By identifying the Han as an ethnically marked category and by bringing to the forefront the diverse gender systems of ethnic minorities, this book encourages an increasing awareness of and sensitivity to the cross-cultural diversity of gendered China both in academia and beyond.

**Women in Chinese Buddhism** Jessica Huset Tilton, 2025-10-30 Tilton examines how cultural, political, and economic forces exert pressures on the levels of freedom and equality for female Buddhists within the Buddhist community as well as women's rights within society. The book charts women's spiritual paths over four periods beginning with the Buddha and his revolutionary stance on women to the creation of a fully ordained female Saṅgha in China which peaked during the Tang dynasty and finally to its resurgence in the late Qing and early Republic period ending with a sharp decline to near extinction during the Mao Zedong years 1949-1976. As the nun and lay communities arise directly from the broader female community, Tilton argues that there is a direct correlation between women's rights issues and those of liberties for Buddhist women within the Saṅgha. Specifically, women's equality within this world as well as their right to achieve liberation from this world or saṃsāra. Charting the evolution of Buddhist women in China across multiple centuries, this book is a valuable resource for academics, researchers, and students of Asian Studies, Buddhist Studies, as well as those interested in the intersection of gender and religion.

**Maoist Model Theatre** Rosemary A. Roberts, 2010 Here is a convincing reflection that changes our understanding of gender in Maoist culture, esp. for what critics from the 1990s onwards have termed its erasure of gender and sexuality. In particular, the strong heroines of the yangbanxi or model works which dominated the Cultural Revolution period have been seen as genderless revolutionaries whose images were damaging to women. Drawing on contemporary theories ranging from literary and cultural studies to sociology, this book challenges that established view through detailed semiotic analysis of theatrical systems of the yangbanxi, including costume, props, kinesics, and various audio and linguistic systems. Acknowledging the complex interplay of

traditional modern Chinese and foreign gender ideologies as manifest in the model works it fundamentally changes our insights into gender in Maoist culture

**Revolutionary Nativism** Maggie Clinton, 2017-03-02 In *Revolutionary Nativism* Maggie Clinton traces the history and cultural politics of fascist organizations that operated under the umbrella of the Chinese Nationalist Party GMD during the 1920s and 1930s Clinton argues that fascism was not imported to China from Europe or Japan rather it emerged from the charged social conditions that prevailed in the country's southern and coastal regions during the interwar period These fascist groups were led by young militants who believed that reviving China's Confucian national spirit could foster the discipline and social cohesion necessary to defend China against imperialism and Communism and to develop formidable industrial and military capacities thereby securing national strength in a competitive international arena Fascists within the GMD deployed modernist aesthetics in their literature and art while justifying their anti Communist violence with nativist discourse Showing how the GMD's fascist factions popularized a virulently nationalist rhetoric that linked Confucianism with a specific path of industrial development Clinton sheds new light on the complex dynamics of Chinese nationalism and modernity
