**Early English Voyages to Northern Russia** J. Hamel,2017-11-18 Excerpt from Early English Voyages to Northern Russia Comprising the Voyages of John Tradescant the Elder Sir Hugh Willoughby Richard Chancellor Nelson and Others One of the most striking points in the whole Work is to be found in the first page where the author recommends that in order

to commemorate the long duration of amicable intercourse between England and Russia which at the time he wrote 1846 had existed uninterruptedly for nearly three centuries there should be a jubilee in 1853 when that period would be completed and which owing to a curious coincidence proved to be the very year in which diplomatic relations ceased between the two countries followed by the war in which we are at present engaged Unfortunately then Dr Hamel's amicable idea has been frustrated by events which must have inflicted much pain on a mind imbued with such friendly feelings towards the English

Mutiny and Its Bounty Patrick J. Murphy, Ray W. Coye, 2013-03-19 DIV Violent mutiny was common in seafaring enterprises during the Age of Discovery so common in fact that dealing with mutineers was an essential skill for captains and other leaders of the time Mutinies in today's organizations are much quieter more social and intellectual and far less violent

yet the coordinated defiance of authority springs from dissatisfactions very similar to those of long ago shipboard crews This highly original book mines seafaring logs and other archives of fifteenth and sixteenth century ship captains and discovers instructive lessons for today's leaders facing challenges to their authority as well as for other members of organizations in which mutinous events occur The book begins by examining mutinies against great explorer captains of the Age of Discovery Christopher Columbus Ferdinand Magellan Sebastian Cabot and Henry Hudson The authors then identify lessons that entrepreneurs leaders and other members may apply to organizational insurrections today They find surprisingly that mutiny may be a force for good in an organization paving the way to more collaborative leadership and stronger commitment to shared goals and values div
