The Long Eighth Century Inge Lyse Hansen,Chris Wickham,2021-11-22 The eighth century has not been analysed as a period of economic history since the 1930s and is ripe for a comprehensive reassessment The twelve papers in this book range over the whole of Europe and the Mediterranean from Denmark to Palestine covering Francia Italy and Byzantium on the way They examine regional economies and associated political structures that is to say the whole network of production

Rethinking Medieval Margins and Marginality Ann Zimo,Tiffany Vann Sprecher,Kathryn Reyerson,Debra Blumenthal,2020-03-02 Marginality assumes a variety of forms in current discussions of the Middle Ages Modern scholars have considered a seemingly innumerable list of people to have been marginalized in the European Middle Ages the poor criminals unorthodox religious the disabled the mentally ill women so called infidels and the list goes on If so many inhabitants of medieval Europe can be qualified as marginal it is important to interrogate where the margins lay and what it means that the majority of people occupied them In addition we scholars need to reexamine our use of a term that seems to have such broad applicability to ensure that we avoid imposing marginality on groups in the Middle Ages that the era itself may not have considered as such In the medieval era when belonging to a community was vitally important people who lived on the margins of society could be particularly vulnerable And yet as scholars have shown we ought not forget that this heightened vulnerability sometimes prompted so called marginals to form their own communities as a way of redefining the center and placing themselves within it The present volume explores the concept of marginality to whom the moniker has been applied to whom it might usefully be applied and how we might more meaningfully define marginality based on historical sources rather than modern assumptions Although the volume s geographic focus is Europe the chapters look further afield to North Africa the Sahara and the Levant acknowledging that at no time and certainly not in the Middle Ages was Europe cut off from other parts of the globe
