Ecology Of Care

Roger Jones (Prof.)

Ecology Of Care:

The Ecology of Care Didi Pershouse, 2015-12-10 What can Cuban doctors innovative ranchers in Saskatchewan and the microbiome teach us about how to care for people and the Earth at the same time In this richly layered book Didi Pershouse takes us on a fast moving sharp witted journey through her own life from growing up with the neurosurgeon who accidentally discovered the seat of memory in the brain to working in a smoke filled office at New York magazine to her career as an innovative acupuncturist in Vermont and on to a passion for close knit communities grazing cows and soil restoration as solutions to much of what ails us Along the way she unfolds a surprising new take on the story of our time how the germ theory of disease joined with a profit based economy and unwittingly led to a sterilization of medicine agriculture and even our social lives This 150 year detour has brought about the near destruction of our climate as well as a great forgetting of the power of connection By documenting a scientific understanding of the intelligence of the whole Pershouse nudges us awake with a hopeful view and shows us how to reclaim the rich fertile lives we are meant for

Ecology of Care Robert C. Fuller, 1992 Using an interdisciplinary approach to help readers understand the human self and its place within the world Fuller examines how and why the quest for individual gratification must include a willingness to care for the larger environments

Slow Ethics and the Art of Care Ann Gallagher, 2020-05-21 The path to good care giving can be challenging particularly where practices are characterised by crisis moral panic and cultural complexity How can we respond ethically when there is pressure to meet targets work faster and implement quick short term fixes This book offers a solution in the form of slow ethics

Pope Francis and the Transformation of Health Care Ethics Todd A. Salzman, Michael G.

Lawler, 2021-06-01 Inspired by the teachings of Pope Francis Salzman and Lawler provide the first extended critical commentary on the 2018 Ethical and Religious Directives for Catholic Health Care Services ERD proposing new ways forward for US Catholic health care ethics that prioritize human dignity as their guiding principle

The Evolution of Parental Care Nick J. Royle, Per T. Smiseth, Mathias Kölliker, 2012-08-09 Parental care includes a wide variety of traits that enhance offspring development and survival This novel book provides a fresh perspective on the current state of the study of the evolution of parental care written by some of the top researchers in the field and taking a broad taxonomic approach

Self-determination in Health Care Leroy C. Edozien, 2016-03-03 It is generally accepted in legal and bioethical discourse that the patient has a right to self determination In practice though this is often not the case Paternalism is waning and it is increasingly recognised that there are values other than medical factors which determine the choices that patients make Unfortunately these developments have not resulted in huge advances for patient self determination which is largely because the consent model has fundamental flaws that constrain its effectiveness This book sets out to offer an alternative model to consent In the property model proposed here the patient's bodily integrity is protected from unauthorised invasion and their legitimate expectation to be provided with the relevant information to make an informed decision is taken to be a proprietary

right It is argued that the property model potentially overcomes the limitations of the consent model including the obstacle caused by the requirement to prove causation in consent cases The author proposes that this model could in the future provide an alternative or complementary approach for the courts to consider when dealing with cases relating to self determination in health care Oxford Textbook of Public Health Palliative Care Julian Abel, Allan Kellehear, 2022 Death dying loss and care giving are not just medical issues but societal ones This volume explores the adoption of public health principles to palliative care including harm reduction early intervention health and well being promotion and compassionate communities **Oxford Textbook of Primary Medical Care** Roger Jones (Prof.), 2005 Organizational Behavior, Theory, and Design in Health Care Nancy Borkowski, Katherine A. Meese, 2021-03-17 Organizational Behavior Theory and Design Third Edition was written to provide health services administration students managers and other professionals with an in depth analysis of the theories and concepts of organizational behavior and organization theory while embracing the uniqueness and complexity of the healthcare industry Using an applied focus this book provides a clear and concise overview of the essential topics in organizational behavior and organization theory from the healthcare manager s perspective The Third Edition offers New case studies throughout underscore key theories and concepts and illustrate practical application in the current health delivery environment In depth discussion of the industry s redesign of health services offers a major focus on patient safety and quality centeredness and consumerism Current examples reflect changes in the environment due to health reform initiatives And more **A Paradigm of Care** Robert Stake, Merel Visse, 2021-01-01 Remember the pots hammered by spoons from high Manhattan windows and parades of cars and pick up trucks holding dear the medical professionals responding to covid 19 This book is part of that chorus that march to express appreciation for the giving of care And beyond doctors and nurses bless their hearts to mothers caring for their babies for captains for their teams for the soon to be widowers for their wives and teachers for their students but also for the ranchers for their cattle and the contemplative world for our environment This is a book to think more closely of the support for care individual as it so often will be to be woven more closely together in a paradigm of care Care is always prominent Care for others of the family care for those of the tribe care for animals and homes and gardens and properties self care And the purse Even without teaching compensation or legislation care survives but even with these helpings it falls short of the need We live in a crisis of care Thinking explicitly and beyond health care There is no mechanism of state and conscience that delivers care to all the venues of need and seldom in the amounts needed The reservoirs of care are far from empty but at a mark that needs topping up There is need for care advocacy a care ethic a paradigm This book is about that paradigm A care paradigm may bring comfort and recovery more fully to the people and organic creations of the world The paradigm hears the moan of indifference It draws upon the eyes of the heart The paradigm is about how we see the need for care The care paradigm the grand beholding is manifest in how we provide for others how we nurture them give succor how we are disposed and are not

to sacrifice to relieve their hurt It is not only caring for those visibly needing care unable to care for themselves but caring for all It is having a disposition that the hurts large and small that all of us carry arouse concern and appreciation from and for each individual the community and the world **Researching Care with Case Studies** Robert Stake,Merel
