English abstract The purpose of this project paper is to summarize the key factors for success in e commerce for anyone who
thinks of stepping into the online business branch This can be used as a guideline to save time verify the usefulness and or
the attainability of the desired results Since the first appearance of the Internet to the public mass in the early 1990s many
enterprises and entrepreneurs tried to use this technology for the advantage of their own business What was seen as a
revolutionary step in business management is now a daily part of managing a business The use of the Internet has grown
significantly in a short period of time to be more specific in numbers the number of users from 1995 till 2011 has grown
approximately from 16 million to 2 251 million users and is still growing That is a significant growth of 14068 75% Since then
the web presentation has evolved from a simple text into a much more complex information tool Users of the Internet are
now able to communicate interact and share information with each other This development has opened up many
opportunities for entrepreneurs To name a few advantages gaining new customers generating contacts introducing your
brand and products and of course increasing your revenue and profit has become fairly easy This kind of practice could also
be defined under the term electronic commerce also known as e commerce and e comm To define it more correctly the term
e commerce is the buying and selling of products services and information over electronic systems such as the Internet Even
though this very useful information tool is available to us the Internet doesn't always mean success and profit gains On the
